his own experiences as a spectator Turk rounds out his survey with observations on Paris's lively opera scene and France's wealth of circus entertainments both traditional and newly envisioned. With his shrewd assessments of contemporary French theatre, Turk conveys an excitement and an affection for his topic destined to arouse similar responses in his readers. His book's freshness and openness will reward theatre enthusiasts who are curious about an aspect of French culture that is inadequately known in this country. Veteran scholars and students of contemporary world theatre and those American theatre professionals who have the ultimate authority and good fortune to determine which new French works will reach audiences.

**Establishing Shared Knowledge in Political Meetings** Hanna Svensson, 2020-09-22 This book investigates the ways in which participants in political activities use micro-practices for solving issues of speaking, hearing and understanding as fundamental for the activities they engage in. Based on extensive video recordings of public meetings within a political grassroots project in the field of urbanism, it adopts a conversation analytic and ethnomethodological approach to social action examining the use of interactional repair in processes of claiming, negotiating, contesting, distributing and establishing knowledge in public. As a study of the ways in which people interact in political meetings, address problems of intersubjectivity and manifest their understanding or lack of understanding of political talk, *Establishing Shared Knowledge in Political Meetings* sheds light on the relationship between interactional problems and political problems. It will thus appeal to scholars in sociology and political sciences with interests in ethnmethodology and conversation analysis, social interaction, social order and political practice.
