Tetum Ghosts And Kin Fieldwork In An Indonesian Community:

Tetum Ghosts and Kin David Hicks,1976 *Tetum Ghosts and Kin* - Vuffi David Hicks,1976 **Tetum Ghosts and Kin** David Hicks,1988 Dr Hicks concentrates on ghosts kin in this analysis of the symbols employed in the ritual myth of the Tetum society *East Timor at the Crossroads* Peter Carey,G. Carter Bentley,1995-09-01 In a rapidly changing post Cost War world where many age old conflicts and injustices are at last being put to rights East Timor stands out as a still unresolved tragedy In the past twenty years 1975 95 this former Portuguese colony has been under Indonesian military occupation an occupation responsible for the death of over 200 000 of its inhabitants a third of its pre 1975 population and the destruction of much of its indigenous society Yet despite enormous odds the people of East Timor continue to fight for the independence which was denied them in the mid 1970s Twenty years on there is now a very real chance for a new beginning in East Timor This book which brings together contributions by both East Timorese and Western specialists of East Timor provides a compelling account of the process by which a once isolated and traditional society has been forged into a nation with a deep sense of its own identity rooted it its unique religious cultural linguistic and historical heritage Indonesia is at last beginning to realize the cost of Third World colonialism and its Western allies are becoming less tolerant of its security state methods The last section of this book considers the new diplomatic initiatives which are currently in train under the auspices of the UN to bring about a resolution to the Timor problem without jeopardizing the integrity of the Indonesian Republic An extensive bibliography of titles on East Timor published between 1970 and 1994 will prove especially useful for scholars *The Trickster and the Paranormal* George P. Hansen,2001-08-20 Paranormal and supernatural events have been reported for millennia They have fostered history s most important cultural transformations e g via the miracles of Moses Jesus Mohammed Paranormal phenomena are frequently portrayed in the world s greatest art and literature as well as in popular TV shows and movies Most adults in the U S believe in them Yet they have a marginal place in modern culture No university departments are devoted to studying psychic phenomena In fact a panoply of scientists now aggressively denounces them These facts present a deeply puzzling situation But they become coherent after pondering the trickster figure an archaic being found worldwide in mythology and folklore The trickster governs paradox and the irrational but his messages are concealed This book draws upon theories of the trickster from anthropology folklore sociology semiotics and literary criticism It examines psychic phenomena and UFOs and explains why they are so problematical for science **Land and Life in Timor-Leste** Andrew McWilliam,Elizabeth G. Traube,2011-12-01 Following the historic 1999 popular referendum East Timor emerged as the first independent sovereign nation of the 21st Century The years since these momentous events have seen an efflorescence of social research across the country drawn by shared interests in the aftermath of the resistance struggle the processes of social recovery and the historic opportunity to pursue field based ethnography following the hiatus of research during 24 years of Indonesian rule 1975 99 This volume brings together a

collection of papers from a diverse field of international scholars exploring the multiple ways that East Timorese communities are making and remaking their connections to land and places of ancestral significance The work is explicitly comparative and highlights the different ways Timorese language communities negotiate access and transactions in land disputes and inheritance especially in areas subject to historical displacement and resettlement Consideration is extended to the role of ritual performance and social alliance for inscribing connection and entitlement Emerging through analysis is an appreciation of how relations to land articulated in origin discourses are implicated in the construction of national culture and differential contributions to the struggle for independence The volume is informed by a range of Austronesian cultural themes and highlights the continuing vitality of customary governance and landed attachment in Timor Leste **Rhetoric**

and the Decolonization and Recolonization of East Timor David Hicks, 2014-09-15 By the end of the 1960s the process of decolonization had practically run its course in Southeast Asia One exception however was tiny Portuguese Timor where notions of self determination and independence had yet to be generated In 1974 the Carnation Revolution in Portugal brought about the end of fifty years of dictatorship and halfway around the world presented a new opportunity to a small ambitious proportion of the Timorese population eager to shape the future of their country This book presents a compelling and original perspective on the critical period of 1974 1975 in the history of East Timor It describes how the language of politics helped to shape the events that brought about the decolonization of Portuguese Timor its brief independence as The Democratic Republic of East Timor and its recolonization by an Asian neighbour Further it challenges the idea that this period of history was infused by the spirit of nationalism in which the majority Timorese partook and which contended with other competing western isms including colonialism communism neo colonialism and fascism In contrast the book argues that the Timorese majority had little understanding of any of these alien political abstractions and that the period can be most effectively explained and understood in terms of the contrast between the political culture of Dili the capital and the political culture of the rest of the country In turn David Hicks highlights how the period of 1974 1975 can offer lessons to government and international policy makers alike who are trying to bring about a transformation in governance from the traditional to the legal and convert individuals from peasants to citizens The result of extensive fieldwork and interviews this book will be of interest to students and scholars of Southeast Asian studies international relations post conflict studies and post colonial studies **Security, Development and Nation-Building in Timor-Leste** Vandra Harris, Andrew Goldsmith, 2012-03-29

Despite Timor Leste s high expectations when it became independent from Indonesia in 2002 the country is ranked among the least developed countries in the world This book draws together the perspectives of practitioners policy makers and academics on the international efforts to rebuild the world s newest nation Tourism, Culture and Development Stroma Cole, 2008 This book provides a holistic multi stakeholder picture of the first twenty years of tourism development in a remote region of Eastern Indonesia It is a rich description of how tourism is intertwined with life

in an non western marginal community Based on anthropological methods this ethnography is about tourism and socio cultural change tourists conflict globalisation poverty and powerlessness Inside Austronesian Houses James J. Fox, 2006-09-01

Dwellings Social life Customs Southeast asia Oceania **Ancestor Worship and Korean Society** Roger Janelli, Dawnhee Janelli, 1992-08-01

The study of ancestor worship has an eminent pedigree in two disciplines social anthropology and folklore Goody 1962 14 25 Newell 1976 Fortes 1976 Takeda 1976 Despite obvious differences in geographical specialization and intellectual orientation researchers in both fields have shared a common approach to this subject both have tried to relate the ancestor cult of a given society to its family and kin group organization Such a method is to be expected of social anthropologists given the nature of their discipline but even the Japanese folklorist Yanagita Kunio whose approach to folk culture stems from historical and nationalist concerns began his work on ancestors with a discussion of Japan's descent system and family structure Yanagita 1946 Indeed connections between ancestor cults and social relations are obvious As we pursue this line of analysis we shall see that rural Koreans themselves are quite sophisticated about such matters Many studies of ancestor cults employ a combination of social and psychological approaches to explain the personality traits attributed to the dead by their living kin Particular attention has long been given to explaining the hostile or punitive character of the deceased in many societies Freud 1950 Opler 1936 Gough 1958 Fortes 1965 Only recently however has the popularity of such beliefs been recognized in China Korea and Japan Ahern 1973 A Wolf 1974b Kendall 1977 1979 Yoshida 1967 Kerner 1976 Lebra 1976 The earliest and most influential studies of ancestor cults in East Asia produced by native scholars Hozumi 1913 Yanagita 1946 Hsu 1948 overemphasize the benign and protective qualities of ancestors Some regional variations notwithstanding this earlier bias appears to reflect a general East Asian reluctance to acknowledge instances of ancestral affliction Such reticence is not found in all societies with ancestor cults however nor in Korea China and Japan is it equally prevalent among men and women Therefore we seek not only to identify the social experiences that give rise to beliefs in ancestral hostility but to explain the concomitant reluctance to acknowledge these beliefs and its varying intensity throughout East Asia In view of the limited amount of ethnographic data available from Korea we have not attempted a comprehensive assessment of the ancestor cult in Korean society instead we have kept our focus on a single kin group We have drawn on data from other communities however in order to separate what is apparently true of Korea in general from what may be peculiar to communities like Twisongdwi a village of about three hundred persons that was the site of our fieldwork In this task we benefited substantially from three excellent studies of Korean ancestor worship and lineage organization Lee Kwang Kyu 1977a Choi Jai seuk 1966a Kim Taik Kyoo 1964 and from two recent accounts of Korean folk religion and ideology Dix 1977 Kendall 1979 Yet we are still a long way from a comprehensive understanding of how Korean beliefs and practices have changed over time correlate with different levels of class status or are affected by regional variations in Korean culture and social organization Because we want to provide a monograph accessible to a rather diverse

readership we avoid using Korean words and disciplinary terminology whenever possible Where a Korean term is particularly important we give it in parentheses immediately after its English translation Korean alphabet orthographies for these words appear in the Character List with Chinese character equivalents for terms of Chinese derivation As for disciplinary terminology we have adopted only the anthropological term lineage which is of central importance to our study We use lineage to denote an organized group of persons linked through exclusively male ties agnatically to an ancestor who lived at least four generations ago

Women and the Politics of Gender in Post-Conflict Timor-Leste Sara Niner, 2016-08-05 This book presents a wide ranging overview of the position of women in Timor Leste 15 years after the country secured its independence It considers the role of women in Timor Leste s history explores their role in the present day economy and politics and discusses their contribution to culture and society The contested meaning of gender itself is investigated in the contemporary culture of this new society It applies a wide range of different feminist theories and approaches and concludes with a discussion of what new directions gender studies in Timor Leste might take

Property and Social Resilience in Times of Conflict Daniel Fitzpatrick, Andrew McWilliam, Susana Barnes, 2016-04-15 Peace building in a number of contemporary contexts involves fragile states influential customary systems and histories of land conflict arising from mass population displacement This book is a timely response to the increased international focus on peace building problems arising from population displacement and post conflict state fragility It considers the relationship between property and resilient customary systems in conflict affected East Timor The chapters include micro studies of customary land and population displacement during the periods of Portuguese colonization and Indonesian military occupation There is also analysis of the development of laws relating to customary land in independent East Timor Timor Leste The book fills a gap in socio legal literature on property custom and peace building and is of interest to property scholars anthropologists and academics and practitioners in the emerging field of peace and conflict studies

Guilty Pleas in International Criminal Law Nancy Amoury Combs, 2007 International crimes such as genocide and crimes against humanity are complex and difficult to prove so their prosecutions are costly and time consuming As a consequence international tribunals and domestic bodies have recently made greater use of guilty pleas many of which have been secured through plea bargaining This book examines those guilty pleas and the methods used to obtain them presenting analyses of practices in Sierra Leone East Timor Cambodia Argentina Bosnia and Rwanda Although current plea bargaining practices may be theoretically unsupportable and can give rise to severe victim dissatisfaction the author argues that the practice is justified as a means of increasing the proportion of international offenders who can be prosecuted She then incorporates principles

drawn from the domestic practice of restorative justice to construct a model guilty plea system to be used for international crimes

Cultural Responses to Occupation in Japan Adam Broinowski, 2016-01-14 Cultural Responses to Occupation in Japan examines how the performing arts and the performing body specifically have shaped and been shaped by the political and historical conditions experienced in Japan during the Cold War and post Cold War periods This study of original and secondary materials from the fields of theatre dance performance art film and poetry probes the interrelationship that exists between the body and the nation state Important artistic works such as Ankoku Butoh dance of darkness and its subsequent re interpretation by a leading political performance company Gekidan Kaitaisha theatre of deconstruction are analysed using ethnographic historical and theoretical modes This approach reveals the nuanced and prolonged effects of military cultural and political occupation in Japan over a duration of dramatic change Cultural Responses to Occupation in Japan explores issues of discrimination marginality trauma memory and the mediation of history in a ground breaking work that will be of great significance to anyone interested in the symbiosis of culture and conflict

The Dark Side of Humanity Robert Parkin, 2012-10-12 Robert Parkin s book gives a reading of each of these texts before going on to show their subsequent influence on anthropologists in particular Hertz s activities as reviewer and pamphleteer are also covered The introductory biographical chapter drawing on Hertz s surviving papers in the Coll ge de France shows his own ambivalence towards his academic career and it also attempts to clarify the circumstances leading up to his apparently gratuitous death in the First World War Two further chapters attempt to situate his work in the broader context of Durkheimian sociology

Evil in Our Midst David E. Jones, 2013-02-05 Evil in Our Midst provides a chilling glimpse of fifty dark angels each of which represents a culture s greatest fears Every chapter opens with a story that shares the legend of a demon and then offers fascinating information on the culture that in many cases perpetuates this belief For those who believe in these creatures this book gives reason to fear the unknown For those who do not believe in demons it provides terrifying reading for a stormy night
