Hilde,2020-10-01 Analyzing published and archival oral histories of formerly enslaved African Americans Libra R Hilde explores the meanings of manhood and fatherhood during and after the era of slavery demonstrating that black men and women articulated a surprisingly broad and consistent vision of paternal duty across more than a century Complicating the tendency among historians to conflate masculinity within slavery with heroic resistance Hilde emphasizes that while some enslaved men openly rebelled many chose subtle forms of resistance in the context of family and local community She explains how a significant number of enslaved men served as caretakers to their children and shaped their lives and identities From the standpoint of enslavers this was particularly threatening a man who fed his children built up the master s property but a man who fed them notions of autonomy put cracks in the edifice of slavery Fatherhood highlighted the agonizing contradictions of the condition of enslavement and to be an involved father was to face intractable dilemmas yet many men tried By telling the story of the often quietly heroic efforts that enslaved men undertook to be fathers Hilde reveals how formerly enslaved African Americans evaluated their fathers including white fathers and envisioned an honorable manhood **1980 Census of Population:**

Freedom David W. Blight, Jim Downs, 2017-11 This collection of eleven original essays interrogates the concept of freedom and recenters our understanding of the process of emancipation Who defined freedom and what did freedom mean to nineteenth century African Americans both during and after slavery Did freedom just mean the absence of constraint and a widening of personal choice or did it extend to the ballot box to education to equality of opportunity In examining such questions rather than defining every aspect of postemancipation life as a new form of freedom these essays develop the work of scholars who are looking at how belonging to an empowered government or community defines the outcome of emancipation Some essays in this collection disrupt the traditional story and time frame of emancipation Others offer trenchant renderings of emancipation with new interpretations of the language and politics of democracy Still others sidestep academic conventions to speak personally about the politics of emancipation historiography reconsidering how historians have used source material for understanding subjects such as violence and the suffering of refugee women and children Together the essays show that the question of freedom its contested meanings its social relations and its beneficiaries remains central to understanding the complex historical process known as emancipation Contributors Justin Behrend Gregory P Downs Jim Downs Carole Emberton Eric Foner Thavolia Glymph Chandra Manning Kate Masur Richard Newman James Oakes Susan O Donovan Hannah Rosen Brenda E Stevenson **Raising Freedom's Child** Mary Niall Mitchell, 2010-04-09 This work examines slave emancipation and opposition to it as a far reaching national event with profound social political and cultural consequences The author analyzes multiple views of the African American child to demonstrate how Americans contested and defended slavery and its abolition **Playa Wetlands and Wildlife on the Southern Great Plains** R.
