Understanding Korean Film Jieun Kiaer, Loli Kim, 2021-11-03 Film viewing presents a unique situation in which the film viewer is unwittingly placed in the role of a multimodal translator finding themselves entirely responsible for interpreting multifaceted meanings at the mercy of their own semiotic repertoire Yet researchers have made little attempt as they have for literary texts to explain the gap in translation when it comes to multimodality It is no wonder then that in an era of informed consumerism film viewers have been trying to develop their own toolboxes for the tasks that they are faced with when viewing foreign language films by sharing information online This is particularly the case with South Korean film which has drawn the interest of foreign viewers who want to understand these untranslatable meanings and even go as far as learning the Korean language to do so *Understanding Korean Film A Cross Cultural Perspective* breaks this long awaited ground by explaining the meaning potential of a selection of common Korean verbal and non verbal expressions in a range of

contexts in South Korean film that are often untranslatable for English speaking Western viewers Through the selection of expressions provided in the text readers become familiar with a system that can be extended more generally to understanding expressions in South Korean films Formal analyses are presented in the form of in depth discursive deconstructions of verbal and non verbal expressions within the context of South Korea s Confucian traditions Our case studies thus illustrate in a more systematic way how various meaning potentials can be inferred in particular narrative contexts [The Journal of Korean Studies, Volume 9, Number 1 \(2004\)](#) John Duncan,Gi-Wook Shin,2004-11-19 The University of Washington Korea Studies Program in collaboration with Rowman Littlefield Publishers is proud to publish the Journal of Korean Studies In 1979 Dr James Palais PhD Harvard 1968 former UW professor of Korean History edited and published the first volume of the Journal of Korean Studies For thirteen years it was a leading academic forum for innovative in depth research on Korea In 2004 former editors Gi Wook Shin and John Duncan revived this outstanding publication at Stanford University In August 2008 editorial responsibility transferred back to the University of Washington With the editorial guidance of Clark Sorensen and Donald Baker the Journal of Korean Studies JKS continues to be dedicated to publishing outstanding articles from all disciplines on a broad range of historical and contemporary topics concerning Korea In addition the JKS publishes reviews of the latest Korea related books To subscribe to the Journal of Korean Studies or order print back issues please click here [*Music of the Korean Renaissance* Jonathan Condit,1984-02-09](#) This book presents a large body of Korean fifteenth century music in transcription **North Korean Graphic Novels** Martin Petersen,2018-08-06 Graphic novels kurimchaek are a major art form in North Korea produced by agents of the regime to set out its vision in a range of important areas This book provides an analysis of North Korean graphic novels discussing the ideals they promote and the tensions within those ideals and examining the reception of graphic novels in North Korea and by North Korean refugees in South Korea Particular themes considered include the ideal family and how the regime promotes this patriotism and its conflict with class identities and the portrayal of the Korean War The Fatherland Liberation War as it is known in North Korea and the subsequent continuing stand off Overall the book demonstrates the importance of graphic novels in North Korea as a tool for bringing up children and for promoting North Korean ideals In addition however the book also shows that although the regime sees the imaginative power of graphic novels as a necessity for effective communication graphic novels are also viewed with caution in that they exist in everyday social life in ways that the regime may be aware of and seeks to control but cannot dominate completely **North Korea's Military-Diplomatic Campaigns, 1966-2008** Narushige Michishita,2009-10-16 This book examines North Korea s nuclear diplomacy over a long time period from the early 1960s setting its dangerous brinkmanship in the wider context of North Korea s military and diplomatic campaigns to achieve its political goals It argues that the last four decades of military adventurism demonstrates Pyongyang s consistent calculated use of military tools to advance strategic objectives vis vis its adversaries It shows how recent

behavior of the North Korean government is entirely consistent with its behavior over this longer period the North Korean government's conduct rather than being haphazard or reactive is rational in the Clausewitzian sense of being ready to use force as an extension of diplomacy by other means The book goes on to demonstrate that North Korea's calculated adventurism has come full circle what we are seeing now is a modified repetition of earlier events such as the Pueblo incident of 1968 and the nuclear and missile diplomacy of the 1990s Using extensive interviews in the United States and South Korea including those with defected North Korean government officials alongside newly declassified first hand material from U S South Korean and former Communist bloc archives the book argues that whilst North Korea's military diplomatic campaigns have intensified its policy objectives have become more conservative and are aimed at regime survival normalization of relations with the United States and Japan and obtaining economic aid

A Korean War Captive in Japan, 1597-1600 JaHyun Kim Haboush, Kenneth R. Robinson, 2013-11-12 Kang Hang was a Korean scholar official taken prisoner in 1597 by an invading Japanese army during the Imjin War of 1592-1598 While in captivity in Japan Kang recorded his thoughts on human civilization war and the enemy's culture and society acting in effect as a spy for his king Arranged and printed in the seventeenth century as Kanyangnok or The Record of a Shepherd Kang's writings were extremely valuable to his government offering new perspective on a society few Koreans had encountered in 150 years and new information on Japanese politics culture and military organization In this complete annotated translation of Kanyangnok Kang ruminates on human behavior and the nature of loyalty during a time of war A neo Confucianist with a deep knowledge of Chinese philosophy and history Kang drew a distinct line between the Confucian values of his world which distinguished self family king and country and a foreign culture that practiced invasion and capture and in his view was largely incapable of civilization Relating the experiences of a former official who played an exceptional role in wartime and the rare voice of a Korean speaking plainly and insightfully on war and captivity this volume enables a deeper appreciation of the phenomenon of war at home and abroad

Samsung Rising Geoffrey Cain, 2020-03-17 An explosive expose of Samsung that reads like a dynastic thriller rolling through three generations of family intrigue embezzlement bribery corruption prostitution and other bad behavior The Wall Street Journal LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD Based on years of reporting on Samsung for The Economist The Wall Street Journal and Time from his base in South Korea and his countless sources inside and outside the company Geoffrey Cain offers a penetrating look behind the curtains of the biggest company nobody in America knows Seen for decades in tech circles as a fast follower rather than an innovation leader Samsung today has grown to become a market leader in the United States and around the globe They have captured one quarter of the smartphone market and have been pushing the envelope on every front Forty years ago Samsung was a rickety Korean agricultural conglomerate that produced sugar paper and fertilizer located in a backward country with a third world economy With the rise of the PC revolution though Chairman Lee Byung chul began a bold

experiment to make Samsung a major supplier of computer chips The multimillion dollar plan was incredibly risky But Lee wowed by a young Steve Jobs who sat down with the chairman to offer his advice became obsessed with creating a tech empire And in Samsung Rising we follow Samsung behind the scenes as the company fights its way to the top of tech It is one of Apple s chief suppliers of technology critical to the iPhone and its own Galaxy phone outsells the iPhone Today Samsung employs over 300 000 people compared to Apple s 80 000 and Google s 48 000 The company s revenues have grown more than forty times from that of 1987 and make up more than 20 percent of South Korea s exports Yet their disastrous recall of the Galaxy Note 7 with numerous reports of phones spontaneously bursting into flames reveals the dangers of the company s headlong attempt to overtake Apple at any cost A sweeping insider account Samsung Rising shows how a determined and fearless Asian competitor has become a force to be reckoned with

Frontiers of Translation in Korean Language Education

Simon Barnes-Sadler, Jieun Kiaer, 2025-02-20 *Frontiers of Translation in Korean Language Education* makes the case for the continuing relevance of translation in Korean as a Foreign Language KFL education. This book presents practical case studies of developing and implementing translation in KFL on scales ranging from extended programs for example the integration of a translation and interpreting internship program which responds to local community needs into the higher education curriculum to single activities such as the comparison of English to Korean literary translations of the same source text to improve linguistic and cultural awareness. More theoretically oriented works on the relationship of translation in KFL with fast developing translation technology the language of South Korean mass media and the social processes of globalisation are included alongside practical contributions. The substantive contributions are bookended by an introduction and conclusion which provide overviews of the history and current disposition of translation in KFL and a prospectus for its future respectively. Drawing on the work of researchers and practitioners based in higher education institutions across North America Europe and South Korea both the practical and theoretical strands included in this collection come together to provide a well rounded account of the most recent developments in Korean language pedagogy which will appeal to language teachers particularly Korean language teachers and the institutions that employ and train them.
