Movie-Struck Girls Shelley Stamp, 2018-06-05 *Movie Struck Girls* examines women s films and filmgoing in the 1910s a period when female patronage was energetically courted by the industry for the first time By looking closely at how women were invited to participate in movie culture the films they were offered and the visual pleasures they enjoyed Shelley Stamp demonstrates that women significantly complicated cinemagoing throughout this formative transitional era Growing female patronage and increased emphasis on women s subject matter did not necessarily bolster cinema s cultural legitimacy as many in the industry had hoped for women were not always enticed to the cinema by dignified uplifting material and once there they were not always seamlessly integrated in the social space of theaters nor the new optical pleasures of film viewing In fact Stamp argues that much about women s films and filmgoing in the postnickelodeon years challenged rather than served the industry s drive for greater respectability White slave films action adventure serial dramas and women s suffrage photoplays all drew female audiences to the cinema with stories aimed directly at women s interests and with advertising campaigns that specifically targeted female moviegoers Yet these examples suggest that women s patronage was built with stories focused on sexuality sensational thrill seeking and feminist agitation topics not normally associated with ladylike gentility And in each case concerns were raised about women s conduct at cinemas and the viewing habits they enjoyed demonstrating that women s integration into motion picture culture was not as smooth as many have thought

Ciris ,2020-12-31 *The Ciris* is a small scale epic poem which relates the myth of Scylla daughter of king Nisus of Megara who betrayed her homeland for love and

was transformed into a sea bird It is one of the poems in the Appendix Vergiliana a collection that has been ascribed to Virgil as his carmina minora Earlier scholarship has mostly been concerned to prove that the Ciris is not by Virgil and then to demonstrate that it is a late and derivative composition of little intrinsic merit The present book argues that Ciris was composed by a contemporary of Virgil a product of the golden age of Latin poetry It aims to bring the poem to the attention of modern readers and to rescue it from ill deserved neglect The introduction presents detailed linguistic literary and historical arguments in support of this early composition date and offers a state of the art account of the textual witnesses and the manuscript tradition The critical text and apparatus are based on a systematic first hand analysis of manuscript evidence as well as the rigorous application of text critical methods The new text as close to the original Ciris as can be achieved includes over one hundred and fifty changes from previous editions By engaging with textual scholarship on the poem from the fifteenth to the twenty first century the line by line commentary provides a comprehensive guide to the numerous textual problems and is an important contribution to the stylistic and linguistic analysis of golden age Latin poetry
