The Healthy Body Man And Medicine Series:

The Journal of Health, 1852 Homeopathy Dinesh Kumar Jain, 2022-05-25 Taking a critical view Homeopathy An Illusion of Effectiveness is a treasure trove of information regarding the homeopathic system of medicine reasoning through various unanswered questions concerning its principles and the scientific basis of its remedies This book posits that the principles of homeopathy are inaccurate and homeopathic drugs have no therapeutic utility Features Includes studies observations analysis and conclusions of Dr Samuel Hahnemann the founder of homeopathy Proves that principles of homeopathy are scientifically baseless and homeopathic drugs have no therapeutic effect Provides a platform for creative and rational thinking Promotes evidence based medicine This book is the only one of its kind explaining how Hahnemann framed the laws of this therapeutic system inaccurately due to lack of knowledge At present homeopathy is misleading the public and increasing morbidity and mortality because it is interfering with the application of modern medical science This book will be useful in the medical community as well as the non medical community dispelling several myths associated with homeopathy by developing a rational approach based on scientific facts National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1972 First multi year cumulation covers six years 1965 70 *Consuming the Body* Dawn Woolley, 2022-09-08 Consuming the Body examines contemporary consumerism and the commodified construction of ideal gendered bodies paying particular attention to the new forms of interaction produced by social networking sites Describing the behaviours of an ideal neoliberal subject Woolley identifies modes of discipline forms of pleasure and opportunities for subversion in an examination of how individuals are addressed and the ways in which they are expected to respond Key modes of address that compel the consumer to consume are sadistic commands communicated in adverts TV programmes and magazine articles a fetishistic gaze that dissects the body into parts to be improved through commodification and a hystericized insistent presence that compels the consumer to present their body for critique and appreciation that is exemplified in the selfie Woolley interprets the visual characteristics of different types of selfies including fitspiration thinspiration fatspiration and bodypositivity to understand how they relate to current body ideals Healthism and culture bound illnesses such as hysteria and eating disorders are examined to demonstrate the impact of commodified body ideals on consumers bodies An analysis of thinspiration images photographs of emaciated bodies shared on pro eating disorder blogs and websites suggests that the anorexic body represents the logical and fatal end point for the idealised body in consumer culture Fat acceptance selfies suggest there is a fourth mode of address empowering presence that has the potential to liberate consumers from the trap of visibleness produced by the other three modes of address In conclusion the book identifies some creative methods for producing selfies that evade commoditisation and discipline *The Herald of Health, and Journal of Physical Culture* Anonymous, 2023-03-07 Reprint of the original first published in 1872 *Appendix to the Journals of the House of Representatives of New Zealand* New Zealand. Parliament. House of Representatives, 1919

Masculinity and Men's Health Elianne Riska, 2004-06-16 Are men truly marked by their personality to fall victim to coronary heart disease CHD Far from being immutable medical categorizations of men prone to heart attacks rely heavily on cultural stereotypes of masculinity So argues this book which explores the social construction of one of men's major health problems in modern American medicine Elianne Riska traces the course of sociological and gender theory on men and masculinities and argues that we must look beyond the middle class male paradigm to consider the nuances of race class and sexual orientation Applying a sociology of knowledge framework to the scientific literature on high CHD rates among men the author examines various personality theories that have been deployed over time Her genealogical approach traces the scientific discovery of and the measurement techniques for mapping at risk personality types Type A the hardy man and the John Henry or race man The book analyzes the three psychological categories and argues that they each describe a category of men who occupy specific social positions Using data on men's high death rates from CHD the author illuminates contemporary thinking on how changes in the economic and social order influence men's health *Medicine and the Reformation* Andrew Cunningham, Ole Peter Grell, 2013-05-13 The tremendous changes in the role and significance of religion during Reformation and the Catholic Counter Reformation affected all of society Yet there have been few attempts to view medicine and the ideas underpinning it within the context of the period and see what changes it underwent Medicine and the Reformation charts how both popular and official religion affected orthodox medicine as well as more popular healers Illustrating the central part played by medicine in Lutheran teachings the Calvinistic rationalization of disease and the Catholic responses the contributors offer new perspectives on the relation of religion and medicine in the early modern period It will be of interest to social historians as well as specialists in the history of medicine *The Nature of Suffering and the Goals of Medicine* Eric J. Cassell, 2004-03-25 This is a revised and expanded edition of a classic in palliative medicine originally published in 1991 With three added chapters and a new preface summarizing our progress in the area of pain management this is a must have for those in palliative medicine and hospice care The obligation of physicians to relieve human suffering stretches back into antiquity But what exactly is suffering One patient with metastatic cancer of the stomach from which he knew he would shortly die said he was not suffering Another someone who had been operated on for a minor problem in little pain and not seemingly distressed said that even coming into the hospital had been a source of pain and not suffering With such varied responses to the problem of suffering inevitable questions arise Is it the doctor's responsibility to treat the disease or the patient And what is the relationship between suffering and the goals of medicine According to Dr Eric Cassell these are crucial questions but unfortunately have remained only queries void of adequate solutions It is time for the sick person Cassell believes to be not merely an important concern for physicians but the central focus of medicine With this in mind Cassell argues for an understanding of what changes should be made in order to successfully treat the sick while alleviating suffering and how to actually go about making these changes with the methods and training techniques firmly

rooted in the doctor's relationship with the patient Dr Cassell offers an incisive critique of the approach of modern medicine Drawing on a number of evocative patient narratives he writes that the goal of medicine must be to treat an individual suffering and not just the disease In addition Cassell's thoughtful and incisive argument will appeal to psychologists and psychiatrists interested in the nature of pain and suffering *Encyclopedia of Wellness* Sharon K.
