The Hebrides:

The Hebrides John Morton Boyd, I. L. Boyd, 1990 *The Hebrides* Paul Murton, 2024-07-04 Paul Murton has spent half a lifetime exploring some of the most beautiful islands in the world the Hebrides He has travelled the length and breadth of the Scotland's rugged six thousand mile coast line and sailed to over eighty islands In this new and updated edition of his acclaimed book Paul visits each of the Hebridean islands in turn introducing their myths and legends history culture and extraordinary natural beauty In addition he also meets the people who live there and learns their story He has met crofters fishermen tweed weavers Gaelic singers clan chiefs artists postmen and bus drivers people from every walk of life who make the islands tick This blend of the contemporary and the traditional creates a vivid account of the Hebrides and serves as a unique guide to the less well known aspects of life among the islands **Love of Country** Madeleine Bunting, 2017-04-11

Excellent Almost the perfect marriage of travelogue to the inner landscape of political ideas and cultural reflections a super read New Statesman Few landscapes are as striking as that of the Hebrides the hundreds of small islands that speckle the waters off Scotland's northwest coast The jagged rocky cliffs and roiling waves serve as a reminder of the islands dramatic geological history Facing the Atlantic the Hebrides were at the center of ancient shipping routes and have a remarkable cultural history After years of hearing about Scotland as a place interwoven with the story of her family Madeleine Bunting went to see for herself this place so full of history Over six years Bunting returned again and again to the Hebrides fascinated by the question of what it means to belong there With great sensitivity she takes readers through the Hebrides history of dispossession and displacement a history that can be understood only in the context of Britain's imperial past and she shows how the Hebrides have been repeatedly used to define and imagine Britain *Love of Country* is a revelatory journey through one of the world's most remote beautiful landscapes that encourages us to think of the many identities we wear as we walk our paths A remarkably thorough digest of the many histories of the Hebrides Wall Street Journal Moving and wonderful Both the author and reader of this book end up losing themselves not just in politics and history and the details of nature but a sense of wonder The Guardian Makes you feel you are there even if you have just left Observer Best Books of the Year

the start of James Macpherson's famous but much disputed Ossian project and it fell to the Revd Patrick Macdonald to finish and subsequently publish his younger brother's collection. Karen McAulay traces the complex history of Scottish song collecting and the publication of major Highland and Lowland collections over the ensuing 130 years. Looking at sources, authenticity, collecting methodology and format, McAulay places these collections in their cultural context and traces links with contemporary attitudes towards such wide-ranging topics as the embryonic tourism and travel industry, cultural nationalism, fakery and forgery, literary and musical creativity and the move from antiquarianism and dilettantism towards an increasingly scholarly and didactic tone in the mid to late Victorian collections. Attention is given to some of the performance issues raised either in correspondence or in the paratexts of published collections and the narrative is interlaced with references to contemporary literary, social and even political history as it affected the collectors themselves. Most significantly, this study demonstrates a resurgence of cultural nationalism in the late nineteenth century.

Shipwreck and Island Motifs in Literature and the Arts, 2015-05-19 The motifs of island and shipwreck have been present in literature and the arts from ancient times. Whether they occur as plot elements as part of literary or film imagery, as symbols in paintings, as leitmotifs in songs or as concepts in philosophical theories, both have always been a source of fascination to authors, artists and scholars. In *Shipwreck and Island Motifs in Literature and the Arts*, Brigitte Le Juez and Olga Springer have gathered essays that explore shipwreck and island figures in texts as historically, culturally and artistically diverse as Walter Scott's *The Lord of the Isles*, Cristina Fernánde's *Cuba's The Lighthouse*, reality TV series *Treasure Island*, pop songs of the BBC Radio programme *Desert Island Discs* or The Otolith Group's essay film *Hydra*, *Decapita*.
