The High Priests Of American Politics The Role Of Lawyers In American Political Institutions:

The High Priests of American Politics Mark Carlton Miller, 2002-03 Using a multidisciplinary approach Mark C Miller draws in large part on interviews he conducted with members of the U S House of Representatives the Ohio legislature and the Massachusetts legislature From this rich data he shows how American lawyers are socialized into a common legal ideology which in turn shapes the behavior of individual lawyer politicians legislative committees dominated by lawyers and the entire legislative institutions of government *The High Priests of American Politics* Mark C. Miller, **21st Century**

Political Science: A Reference Handbook John T Ishiyama, Marijke Breuning, 2011 Offering full coverage of major subthemes and subfields within political science this reference handbook includes entries on topics from theory and methodology to international relations and institutions *The Puzzle of Judicial Behavior* Lawrence Baum, 2009-10-22 How do we explain judges decisions **The Economics and Politics of Choice No-Fault Insurance** Edward L. Jr.

Lascher, Michael R. Powers, 2012-12-06 In recent years choice no fault has emerged as a popular but controversial proposal for addressing the problem of high automobile insurance rates Choice plans offer consumers the option of a lower cost insurance policy with restrictions on filing lawsuits or a higher cost policy with full tort rights Some American states have implemented choice programs and major federal choice legislation is now pending in the United States Congress Choice no fault has caught the attention of policy makers the insurance industry and academics Until now however no single book has pulled together the available research on the topic *The Economics and Politics of Choice No Fault Insurance* fills that gap Edited by scholars from different disciplines each of whom has written extensively on automobile insurance issues the book includes some of the best work in the area Former Massachusetts Governor and presidential candidate Michael S Dukakis wrote the foreword Contributors include University of Virginia Law Professor Jeffrey O Connell widely considered the father of no fault as well as authors of the influential RAND study of the potential effects of choice no fault on insurance rates The book chapters most of which were written especially for this volume cover topics ranging from the impact of choice no fault on accidents and driving behavior to the effects of choice on medical care usage to alternative approaches for resolving accidents involving both no fault and tort electors to the political feasibility of choice legislative proposals Emphasis on the potential advantages of choice no fault is balanced by consideration of possible ill effects *To Enlarge the Machinery of Government* William James Hull Hoffer, 2007-08-16 How did the federal government change from the weak apparatus of the antebellum period to the large administrative state of the Progressive Era *To Enlarge the Machinery of Government* explores the daily proceedings of the U S House and Senate from 1858 to 1891 to find answers to this question Through close readings of debates centered around sponsorship supervision and standardization recorded in the Congressional Globe and Congressional Record during this period William James Hull Hoffer traces a critical shift in ideas that ultimately ushered in Progressive legislation the willingness of American citizens to allow and in fact ask for federal intervention in their daily lives

He describes this era of congressional thought as a second state distinct from both the minimalist approaches that came before and the Progressive state building that developed later The second state era Hoffer contends offers valuable insight into how conceptions of American uniqueness contributed to the shape of the federal government The Judicial Tug of War Adam Bonica, Maya Sen, 2021 Presents a novel theory explaining how and why politicians and lawyers politicise courts

Making Climate Lawyers Kimberly K. Smith, 2024-04-11 Why did it take so long for American law schools to start teaching about climate change Although most environmental law professors were aware of climate change by 1990 it took nearly fifteen years for them to incorporate the topic into their curriculum In her innovative new work Kimberly K Smith explores how American environmental law professors have addressed climate change identifying the barriers they faced how they overcame them and how they created climate law as a domain of legal specialization Making Climate Lawyers explores the history of why American law schools were resistant to teaching about climate change and how that changed over the course of a forty year period resulting in law schools across the country incorporating climate change into their curricula with many even establishing centers on the environment Smith challenges dominant explanations of why the United States was slow to develop climate policy it wasn't just political opposition or short sightedness Creating climate legal professionals required changing the fundamentals of legal education Based on dozens of interviews with faculty and students Making Climate Lawyers fills a gap in the literature on the intellectual history of climate change most of which focuses on the history of climate science Smith focuses instead on how the climate problem fits or doesn't fit into the structure of American law She uses this story as a lens through which to understand both the transformation of legal education since the 1980s and the nature of climate change as a policy problem

Lawyers as Leaders Deborah L. Rhode, 2013-08-02 Why do we look to lawyers to lead and why do so many of them prove to be so untrustworthy and unprepared In Lawyers as Leaders eminent law professor Deborah Rhode not only answers these questions but crafts an essential manual for attorneys who need to develop better leadership skills The Politics of Automobile Insurance Reform Edward L. Lascher Jr., 1999-07-21 American state and Canadian provincial governments have dealt with rapidly rising auto insurance rates in different ways over the last two decades a difference many attribute to variances in political pressure exerted by interest groups such as trial attorneys and insurance companies Edward L Lascher Jr argues that we must consider two additional factors the importance of politicians beliefs about the potential success of various solutions and the role of governmental institutions Using case studies from both sides of the border Lascher shows how different explanations of the problem and different political structures affect insurance reform In his conclusion Lascher moves beyond auto insurance to draw implications for regulation and policymaking in other areas

Pluralism, Democracy and Political Knowledge Hans Blokland, 2016-04-22 The political discontent or malaise that typifies most modern democracies is mainly caused by the widely shared feeling that the political freedom of citizens to influence the development of their society and related to this their personal life has become rather limited We can only address this discontent when we rehabilitate politics the deliberate joint effort to give direction to society and to make the best of ourselves In *Pluralism Democracy and Political Knowledge* Hans Blokland examines this challenge via a critical appraisal of the pluralist conception of politics and democracy This conception was formulated by above all Robert A Dahl one of the most important political scholars and democratic theorists of the last half century Taking his work as the point of reference this book not only provides an illuminating history of political science told via Dahl and his critics it also offers a revealing analysis as to what progress we have made in our thinking on pluralism and democracy and what progress we could make given the epistemological constraints of the social sciences Above and beyond this the development and the problems of pluralism and democracy are explored in the context of the process of modernization The author specifically discusses the extent to which individualization differentiation and rationalization contribute to the current political malaise in those countries which adhere to a pluralist political system
