Mentoring Health Science Professionals Sana Loue, 2011. This volume goes beyond examining traditional mentoring agendas by comprehensively addressing contemporary issues relating to mentoring. This unique reference covers ethical and legal matters/issues pertaining to diversity, aligning learning and teaching styles between mentee and mentor, and cross-cultural mentoring. Chapters provide an integration of current mentoring literature across diverse settings and conclude with detailed case studies of successful mentoring relationships. The book considers the theoretical underpinnings of mentoring and covers the mentoring relationship with faculty, students, and professionals in the early stages of growth. It also contains insight on how to develop and evaluate a mentoring program. **Mentoring Health Science Professionals** ultimately provides an invaluable blueprint for successful mentoring that considers the process, content, goals, and outcomes of modern-day mentoring in the health sciences. Key features: Offers guidance for aligning mentor and mentee teaching and learning styles; Discusses evaluation of and stages of growth within the mentoring relationship; Examines ethical and legal issues in mentoring such as diversity, discrimination, sexual harassment, control of the research process, evaluations, and more; Highlights case studies of successful mentoring relationships; Promotes the development of an organizational culture of mentorship.

Internet of Things and Data Analytics Handbook Hwaiyu Geng, 2017-01-10. This book examines the Internet of Things (IoT) and Data Analytics from a technical application and business point of view. **Internet of Things and Data Analytics Handbook** describes essential technical knowledge, building blocks, processes, design principles, implementation, and marketing for IoT projects. It provides readers with knowledge in planning, designing, and implementing IoT projects. The book is written by experts on the subject matter, including international experts from nine countries in the consumer and enterprise fields of IoT. The text starts with an overview and anatomy of IoT ecosystem, IoT communication protocols, networking, and available hardware, both present and future applications and transformations, and business models. The text also addresses big data, analytics, machine learning, cloud computing, and consideration of sustainability that are essential to be both socially responsible and successful. Design and implementation processes are illustrated with best practices and case studies in action. In addition, the book examines cloud computing, data analytics, and sustainability and how they relate to IoT, over the scope of consumer, government, and enterprise applications. Includes best practices, business model, and real-world case studies. Hwaiyu Geng, P.E., is a consultant with Amica Research, www.AmicaResearch.org, Palo Alto, California, promoting green planning, design, and construction projects. He has had over 40 years of manufacturing and management experience working with Westinghouse, Applied Materials, Hewlett-Packard, and Intel on multi-million high-tech projects. He has written and presented numerous technical papers at international conferences. Mr. Geng is a patent holder.
