

University of California, Berkeley Foundation
Investment Policy Statement

Adopted by BEMCO on February 26, 2015

Ratified by UCBF on February 27, 2015

Effective Date: March 1, 2015

The University of California, Berkeley Foundation ("UCBF") is the fiduciary for long term endowment assets (collectively, "General Endowment Pool" or "GEP") designated for the support of UC Berkeley. UCBF has delegated certain aspects of investment oversight to Berkeley Endowment Management Company ("BEMCO") pursuant to standing corporate resolutions and an Investment Management Services Agreement between UCBF and BEMCO.

In accordance with its delegated authorities, BEMCO serves as the investment manager with day-to-day oversight of investment activity and implementation through its Board of Directors ("BEMCO Board"), Chief Investment Officer ("CIO") and staff, while UCBF retains ultimate authority over BEMCO's policies and practices.

As of the date of adoption by UCBF, this document will become UCBF's current Investment Policy Statement ("IPS") and supersede all previous investment policy statements. BEMCO will thereafter carry out its responsibilities for the investment of the General Endowment Pool in a manner consistent with and subject to this IPS.

I Objectives

Support of UC Berkeley

The primary objective of the GEP is to generate returns sufficient to meet UCBF's desired financial support to UC Berkeley over the long term, while maintaining real purchasing power, sufficient liquidity and acceptable volatility. UCBF intends that the key terms used in the statement of the primary objective have the following meanings:

- "Long Term" means rolling ten year periods.
- "Real Purchasing Power" means UCBF's actual spending rate adjusted by the CPI-U.
- "Sufficient Liquidity" means holding assets:
 - That can be readily turned into cash to meet annual payout needs, and
 - Such that BEMCO can effectively rebalance the GEP's exposures.
- "Acceptable Volatility" means variations in payout are not unreasonably disruptive to the GEP's support of UC Berkeley's programs.

The Investment Policies Of Foundations:

The Investment Policies of Foundations Ralph Lowell Nelson, 1967-12-31 Focuses on the 133 largest foundations endowed by individuals or families each of which in 1960 held assets of more than 10 million While representing less than one percent of the total number they account for the majority of income endowment and spending of all foundations The author describes the economic dimensions of foundation activities in the context of the general economy and private philanthropy He examines the process by which the foundations were established when and how they received initial endowments their investment patterns over a period of years and the policies governing investment of their endowed funds *Trustee*

Investment Strategy for Endowments and Foundations Chris Russell, 2006-07-11 Trustees are responsible for the stewardship of assets and for implementing the mission of their endowment or foundation Almost invariably trustees delegate the management of those assets to agents who are investment professionals In this increasingly sophisticated and litigious financial world there can be a growing gap of comprehension exacerbated by mathematics and jargon between trustees who are responsible and agents who are accountable This book aims to fill that gap The book draws on the author's own experience and research and that of generations of investment professionals and academics to explain the fundamentals of investment strategy Key features are therefore Foreword by George Keane founder and former president of Commonfund won the first ever Lifetime Achievement Award from Foundation Endowment Money Management one of the icons of endowment fund management in the US Aimed at professional trustees An holistic approach to strategy Avoidance of jargon and mathematics Focus on principles underlying asset strategy *Foundation and Endowment Investing* Lawrence E.
