Tell Taannek 1963-1968, IV/2 Frank S. Frick, 2000 , *Textiles and Cult in the Ancient Mediterranean* Cecilie Brøns, Marie-Louise Nosch, 2017-07-31 Twenty four experts from the fields of Ancient History Semitic philology Assyriology Classical Archaeology and Classical Philology come together in this volume to explore the role of textiles in ancient religion in Greece Italy The Levant and the Near East Recent scholarship has illustrated how textiles played a large and very important role in the ancient Mediterranean sanctuaries In Greece the so called temple inventories testify to the use of textiles as votive offerings in particular to female divinities Furthermore in several cults textiles were used to dress the images of different deities Textiles played an important role in the dress of priests and priestesses who often wore specific garments designated by particular colours Clothing regulations in order to enter or participate in certain rituals from several Greek sanctuaries also testify to the importance of dress of ordinary visitors Textiles were used for the furnishings of the temples for example in the form of curtains draperies wall hangings sun shields and carpets This illustrates how the sanctuaries were potential major consumers of textiles nevertheless this particular topic has so far not received much attention in modern scholarship Furthermore our knowledge of where the textiles consumed in the sanctuaries came from where they were produced and by who is extremely limited Textiles and Cult in the Ancient Mediterranean examines the topics of textile production in sanctuaries the use of textiles as votive offerings and ritual dress using epigraphy literary sources iconography and the archaeological material itself **Tell Taannek 1963-1968** Khaled Nashef, 2000

Household Archaeology in Ancient Israel and Beyond Assaf Yasur-Landau, Jennie R. Ebeling, Laura B. Mazow, 2013-02-06 Despite the large number of well preserved domestic contexts in Bronze and Iron Age sites household archaeology has not been a common approach to studying the material culture of Ancient Israel Until recently the dictates of Biblical Archaeology led to a narrow set of questions that ignored issues such as gender status and production within the household The present volume which grew out of a session at the 2008 Annual Meeting of the American Schools of Oriental Research attempts to redress this issue The seventeen papers herein reflect innovative viewpoints on the theory and praxis of household archaeology in this region The next step in household research is presented here with the use of tailor made data collection strategies designed to answer specific questions posed by household archaeology The neglect of households and the archaeology of the activities of its members are ambitiously attended to in this volume Its exceptional breadth of various modes of inquiry coupled with the application thereof justifies the household as a topic of discussion I would highly recommend this book for institutions libraries scholars and students interested in any aspect of daily life in the southern Levant and I very much look forward to the future research projects it will inspire Cynthia Shafer Elliot William Jessup University as a whole the work is impressive and most contributions are commendable for their sophistication in engaging interdisciplinary research in order to understand the nature and function of households in ancient Israel and surrounding

areas Carol Meyers Duke University **A Wayside Shrine in Northern Moab: Excavations in the Wadi ath-Thamad** P. M. Michele Daviau, Margreet L. Steiner, 2017-08-31 Major recent excavations have shed much light on the complexity of Iron Age society and religion in southern Palestine a region where both Judeans and Edomites lived However it is not clear whether the religious practices attested at these sites were a reflection of localised customs or were common rituals for peoples of Cisjordan and we do not know their extent An isolated shrine site at Wadi ath Thamad Site WT 13 in northern Moab which contained numerous finds of Iron Age figurines and statues has been the subject of detailed excavation The rich harvest of figurines ceramic statues beads miniature ceramic vessels architectural models faunal remains and shells and fossils constitutes the evidence for repeated cultic activities Although dating to the Iron Age at the time of the consolidation of the kingdom of Moab there is insufficient evidence at present to determine the full range of cultic practices and deities venerated by the peoples of the lands within ancient Moab and by those visitors to the shrine The links between WT 13 and the surrounding town sites is only now coming to light with excavation at Atarus and Khirbat al Mudayna as well as at the Ammonite site of Tall Damiyah in the Jordan Valley where a comparable shrine has recently been uncovered WT 13 clearly serves as a link between the Jordan Valley and the Negev adding to our knowledge of local and foreign influences in the region during the Iron Age **Phoenician Aniconism in Its Mediterranean and Ancient Near Eastern Contexts** Brian R. Doak, 2015-11-05 A close look at Phoenician religion The Hebrew Bible contains a prohibition against divine images Exod 20 2 5a Explanations for this command are legion usually focusing on the unique status of Israel s deity within the context of the broader Near Eastern and Mediterranean worlds Doak explores whether or not Israel was truly alone in its severe stance against idols This book focuses on one particular aspect of this iconographic context in Israel s Iron Age world that of the Phoenicians The question of whether Phoenicians employed aniconic as opposed to iconic representational techniques has significance not only for the many poorly understood aspects of Phoenician religion generally but also for the question of whether aniconism can be considered a broader trend among the Semitic populations of the ancient Near East Features More than fifty images and illustrations Examination of textual and archaeological evidence Application of art historical methods **Poetic Heroes** Mark S. Smith, 2014-09-15 Warfare exerts a magnetic power even a terrible attraction in its emphasis on glory honor and duty In order to face the terror of war it is necessary to face how our biblical traditions have made it attractive even alluring In this book Mark Smith undertakes an extensive exploration of poetic heroes across a number of ancient cultures in order to understand the attitudes of those cultures toward war and warriors Smith examines the Iliad and the Gilgamesh Ugaritic poems commemorating Baal Aqhat and the Rephaim and early biblical poetry including the battle hymn of Judges 5 and the lament of David over Saul and Jonathan in 2 Samuel 1 Smith s Poetic Heroes analyzes the importance of heroic poetry in early Israel and its disappearance after the time of David building on several strands of scholarship in archaeological research poetic analysis and cultural reconstruction *Ugarit at Seventy-Five* K. Lawson

Younger Jr.,2007-06-30 In the spring of 1928 a Syrian farmer was plowing on the Mediterranean coast near a bay called Minet el Beida His plow ran into a stone just beneath the surface When he examined the obstruction he found a large man made flagstone that led into a tomb in which he found some valuable objects that he sold to a dealer Little did he know what he had discovered In April of 1929 C F A Schaeffer began excavation of the tombs but a month later he moved to the nearby tell of Ras Shamra On the afternoon of May 14 the first inscribed clay tablet came to light thus the beginnings of the study of Ugarit and the Ugaritic language Seventy five years have passed and the impact of this extraordinary discovery is still being felt Its impact on biblical studies perhaps has no equal In February 2005 some of the preeminent Ugaritologists of the present generation gathered at the Midwest Regional meetings of the American Oriental Society to commemorate these 75 years by reading the papers that are now published in this volume The first five essays deal with the Ugaritic texts while the last three deal with archaeological or historical issues

From Conquest to Coexistence K. Van Bekkum,2011-01-11 This meticulous study of Joshua 9 1 13 7 and archaeology offers a new historical picture of the Late Bronze Iron Age transition in the Southern Levant and defines the ideology and antiquarian intent of the Israelite historiographers reworking this episode

Tell Taannek 1963-1968 Glenda Friend,1998 Yavneh Raz Kletter,Irit Ziffer,Wolfgang Zwickel,2010 In the words of late Professor Moshe Kochavi the Philistine repository pit at Yavneh is the kind of discovery made only once every fifty years It is the richest repository pit ever found from Bronze and Iron Ages Israel Palestine containing thousands of cultic finds originating from a temple including an unprecedented number more than a hundred of cult stands so called architectural models carrying rich figurative art dozens of fire pans chalices and other objects The present volume includes the full publication of the excavation the stratigraphy the cult stands and the figures detached from cult stands several clay and stone altars and some pottery vessels related to burning of plant material most likely incense This exceptional book raises a host of highly important and intriguing questions Is this a favissa or even a genizah Why are many cult stands badly broken while some are intact were cult stands broken on purpose What is the explanation for the unique stratigraphy and for the layer of gray ash in the pit was fire kindled inside as part of a ritual How do we know that these finds are Philistine Are they part of the furniture of the temple or objects dedicated by worshippers as votives Do the figures on the cult stands represent mortal beings or divinities If divinities can we relate them with Biblical or extra biblical data on the gods of the Philistines What was the function s of cult stands Were they models of buildings supports for images offering tables altars or perhaps incense burners Why are female figures dominant while male figures are virtually absent In discussing such topics Yavneh I treats issues that are central to many fields of study religion and cult in Iron Age Israel Palestine the history and archaeology of the Philistines and their western relations Near Eastern iconography the meaning of cult stands architectural models and the understanding of votive objects and of repository pits in general Literally salvaged from the teeth of a bulldozer these rare finds are now published Generations of scholars will discuss and reinterpret them there is no final word for such finds

and hence this final excavation volume is not an end but a beginning

Late Bronze and Iron Age Chalices in Canaan and Ancient Israel Robert Grutz, 2007 This study arranges in chronological order approximately 450 ceramic artefacts known as chalices found in more than 50 excavations in Late Bronze and Iron Age strata within Canaan and Ancient Israel The study also proposes a typology for these chalices

Judges 1 Mark S. Smith, Elizabeth Bloch-Smith, 2021 This groundbreaking volume presents a new translation of the text and detailed interpretation of almost every word or phrase in the book of Judges drawing from archaeology and iconography textual versions biblical parallels and extrabiblical texts many never noted before Archaeology also serves to show how a story of the Iron II period employed visible ruins to narrate supposedly early events from the so called period of the Judges The synchronic analysis for each unit sketches its characters and main themes as well as other literary dynamics The diachronic redactional analysis shows the shifting settings of units as well as their development commonly due to their inner textual reception and reinterpretation The result is a remarkably fresh historical critical treatment of 1 1 10 5
