Congress Senate, 1941 *Islands, Identity and the Literary Imagination* Elizabeth McMahon, 2016-07-09 Australia is the planet s sole island continent This book argues that the uniqueness of this geography has shaped Australian history and culture including its literature Further it shows how the fluctuating definition of the island continent throws new light on the relationship between islands and continents in the mapping of modernity The book links the historical and geographical conditions of islands with their potent role in the imaginaries of European colonisation It prises apart the tangled web of geography fantasy desire and writing that has framed the Western understanding of islands both their real and material conditions and their symbolic power from antiquity into globalised modernity The book also traces how this spatial imaginary has shaped the modern man who is imagined as being the island s mirror The inter relationship of the island fantasy colonial expansion and the literary construction of place and history created a new man the dislocated and alienated subject of post colonial modernity This book looks at the contradictory images of islands from the allure of the desert island as a paradise where the world can be made anew to their roles as prisons as these ideas are made concrete at moments of British colonialism It also considers alternatives to viewing islands as objects of possession in the archipelagic visions of island theorists and writers It compares the European understandings of the first and last of the new worlds the Caribbean archipelago and the Australian island continent to calibrate the different ways these disparate geographies unified and fractured the concept of the planetary globe In particular it examines the role of the island in this process specifically its capacity to figure a graspable globe in the mind The book draws on the colonial archive and ranges across Australian literature from the first novel written and published in Australia by a convict on the island of Tasmania to both the ancient dreaming and the burgeoning literature of Aboriginal and Torres Strait Islanders in the twenty first century It discusses Australian literature in an international context drawing on the

long traditions of literary islands across a range of cultures The book s approach is theoretical and engages with contemporary philosophy which uses the island and the archipelago as a key metaphor It is also historicist and includes considerable original historical research

Managing risk in the overseas territories Great Britain: National Audit Office, 2007-11-16
The UK retains responsibility for 14 overseas territories 11 of which are permanently populated and opt to remain under British sovereignty
These territories are not constitutionally part of the UK They have their own constitutions legal systems and most have a democratically elected government
Most of these territories also share common features including relative isolation exposure to disasters and dependence on one or two key industries
The great majority of territory citizens are entitled to full British Citizenship
The Foreign and Commonwealth Office leads overall policy and maintains the main UK presence in the territories
The NAO's last report on this subject was in 1997 HCP 13 session 1997 98 ISBN 9780102610987
This report reviews subsequent progress
It considers whether UK government departments work effectively in conjunction with territory governments to manage and mitigate risk
Whether there are suitable and sufficient resources available by the UK Government to manage the risk to the UK from its relationship with overseas territories
The report sets out a number of recommendations including that other UK government departments should be required to set out their arrangements for dealing with overseas territory issues
the FCO with the support of relevant agencies such as the Treasury FSA SOCA should

develop a strategy to ensure stronger investigative and prosecution capacity that the FCO needs to make real progress in developing territory administration The NAO further concludes that while some progress has been made in managing risk the degree of success in individual territories and across key areas has been mixed
