history Representing more than twenty years of research the book explores the stylistic categories that show the intersection between music and culture the different chapters treat musical materials musical practices and musical contexts in turn Informed by critical approaches to musical aesthetics in ethnomusicology as well as musicology and anthropology the book focuses upon a native discourse about musical style highlighting a contemporary apprehension about the appropriate constitution of a national identity The argument over style discloses competing conceptions of Turkish space and time where definitions of the east and the west and interpretations of the past and the present respectively were hotly contested John Morgan O Connell makes a significant contribution to the study of Turkish music in particular and Turkish history in general Conceived as a historical ethnography the book brings together archival sources and ethnographic materials to provide a critical revision of Turkish historiography music providing a locus for interrogating singular representations of a national past
