**The Journal of Joshua Gilpin, 1809**

Joshua Gilpin, 1765 1841 was an American merchant and manufacturer who toured industrial Britain at the very end of the eighteenth century On his return home in 1801 he introduced to America the technique of chemically bleaching paper stuff in 1804 and following his second trip 1811 1815 his brother Thomas Gilpin jr manufactured in 1817 the first paper making machine in America The American Magazine and Historical Chronicle ,1985 *The Western Pennsylvania Historical Magazine* ,1976 **From Sugar Camps to Star Barns** Sally Ann McMurry, 2001 Rural

Pennsylvania s landscapes are evocative richly textured testimonies to the lives and skills of generations of builders architects as well as local builders and craft workers Farmhouses and barns silos and fences even field patterns attest to how residents over the years have had a sense of place that was not only functional but also comfortable and aesthetically appropriate for the time From Sugar Camps to Star Barns tells the story of one such place a landscape that evolved in southwestern Pennsylvania s Somerset County Sally McMurry traces the rural life and landscape of Somerset County as it evolved from the earliest settlement days Eighteenth century residents were a forest people living on sparsely built farmsteads and making free use of the heavily forested landscape The makeshift sugar camp typified their hardscrabble lives In the nineteenth century the people of this area turned to farming Prompted by the market revolution that had come to Somerset County they pursued a highly varied agriculture combining a subsistence base with robust production of commodities shipped to distant cities Their landscape reflected this combination of the local and the cosmopolitan a combination that reached its full expression in the distinctive two story banked farmhouse with double decker porch flanked by a substantial Pennsylvania barn The twentieth century brought a more industrialized agriculture to Somerset County But the shift to profit and loss farming also meant the accentuation of landscape elements specific to market products The magnificent star barns of this era overshadowed the houses and ancillary structures such as peep houses and silos spoke to the pressures of efficiency and mass production The subsequent rise of coal mining helped to stimulate this trend both by supplying local markets and by creating an incentive for farmers to visually distinguish their landscapes from those of the coal patch towns Illustrated with over 100 photographs maps drawings and diagrams From Sugar Camps to Star Barns demonstrates how much we can learn about the economy and culture of a particular place simply by being attentive to the built landscape **The Papers of Thomas Jefferson, Retirement Series, Volume 2** Thomas Jefferson, 2018-06-05 The

as president to remove Edward Livingston from a valuable property in New Orleans other legal complications involving his landholdings and the settlement of estates he had inherited long before his plans to breed merino sheep and share them gratis with his fellow Virginians and his ongoing interest in the Republican party's success Highlights include a long list of books on agriculture that Jefferson probably compiled to guide the Library of Congress in its purchases descriptions of inventions by Robert Fulton and more obscure figures such as the New Orleans engineer Godefroi Du Jareau Jefferson's draft letter criticizing the Quakers as unpatriotic much of which he later deleted the letter in which he ordered a set of silver tumblers that have become known as the Jefferson Cups and an important treatise on taxation by the distinguished French political economist Pierre Samuel Du Pont de Nemours published here for the first time

On the Edge of Freedom: The Fugitive Slave Issue in South Central Pennsylvania, 1820-1870 David G. Smith, 2013 David Smith's *On The Edge of Freedom* is the most nuanced detailed and sophisticated study of the Underground Railroad in rural Pennsylvania that I have ever read Based on a wide variety of primary sources this study offers a series of fresh insights about how the fugitive crisis along the Mason Dixon Line directly impacted the wider national struggle over slavery and union Matthew Pinkser Dickinson College David G Smith has delivered a revelatory portrait of one of the most important political battlegrounds of antebellum America where networks of fugitive slaves slave catchers informers and Underground Railroad activists lived side by side in a tangled web He sheds much new light on the struggle of the abolitionism to take route in southern Pennsylvania's difficult soil and challenges cherished preconceptions of the North as solidly anti slavery and friendly to fugitive slaves In the process he has given us a deeper understanding of the daunting moral complexities of life in the pre Civil War borderland This is a book to be reckoned with Fergus M Bordewich author of *America's Great Debate* Henry Clay Stephen A Douglas and the Compromise that Preserved the Union In this well wrought and powerful narrative Smith examines the vital borderland of south central Pennsylvania Challenging scholars to re think our understanding of the fugitive slave law Smith examines that issue through white and black perspectives over nearly fifty years of sectional conflict war and reconstruction This is an important contribution to our understanding of how war itself intensified the fugitive slave issue and redirected it Smith's thorough appendices demonstrate remarkable and comprehensive research reflected in this important narrative Orville Vernon Burton author of *The Age of Lincoln*

**Accommodating the Republic** Kirsten E. Wood, 2023-11-08 People have gathered in public drinking places to drink relax socialize and do business for hundreds of years For just as long critics have described taverns and similar drinking establishments as sources of individual ruin and public disorder Examining these dynamics as Americans surged westward in the early nineteenth century Kirsten E Wood argues that entrepreneurial improvement minded men integrated many village and town taverns into the nation's rapidly developing transportation network and used tavern spaces and networks to raise capital promote innovative businesses

practice genteel sociability and rally support for favored causes often while drinking the staggering amounts of alcohol for which the period is justly famous White men s unrivaled freedom to use taverns for their own pursuits of happiness gave everyday significance to citizenship in the early republic Yet white men did not have taverns to themselves Sharing tavern spaces with other Americans intensified white men s struggles to define what and for whom taverns should be At the same time temperance and other reform movements increasingly divided white men along lines of party conscience and class In both conflicts some improvement minded white men found common cause with middle class white women and Black activists who had their own stake in rethinking taverns and citizenship

Singing The City Laurie Graham,2010-06-15 Singing the City is an eloquent tribute to a way of life largely disappearing in America using Pittsburgh as a lens Graham is not blind to the damage industry has done both to people and to the environment but she shows us that there is also a rich human story that has gone largely untold one that reveals in all its ambiguities the place of the industrial landscape in the heart Singing the City is a celebration of a landscape that through most of its history has been unabashedly industrial Convinced that industrial landscapes are too little understood and appreciated Graham set out to investigate the city s landscape past and present and to learn the lessons she sensed were there about living a good life The result told in both her voice and the distinctive voices of the people she meets is a powerful contribution to the literature of place Graham begins by showing the city as an outgrowth of its geography and its geology the factors that led to its becoming an industrial place She describes the human investment in the area the floods of immigrants who came to work in the mills in the late nineteenth and early twentieth centuries their struggles within the domains of Andrew Carnegie and Henry Clay Frick She evokes the superhuman aura of making steel by taking the reader to still functioning mills and uncovers for us a richness of tradition in ethnic neighborhoods that survives to this day

Martin,2012-01-12 Scott C Martin examines leisure as a contested cultural space in which nineteenth century Americans articulated and developed ideas about ethnicity class gender and community This new perspective demonstrates how leisure and sociability mediated the transition from an agricultural to an industrial society Martin argues persuasively that southwestern Pennsylvanians used leisure activities to create identities and define values in a society being transformed by market expansion The transportation revolution brought new commercial entertainments and recreational opportunities but also fragmented and privatized customary patterns of communal leisure By using leisure as a window on the rapid changes sweeping through the region Martin shows how southwestern Pennsylvanians used voluntary associations private parties and public gatherings to construct social identities better suited to their altered circumstances The prosperous middle class devised amusements to distinguish them from workers who in turn resisted reformers attempts to constrain their use of free time Ethnic and racial minorities used holiday observances and traditional celebrations to define their place in American society while women tested the boundaries of the domestic sphere through participation in church fairs commercial recreation and other leisure activities This study illuminates the cultural history of the region and offers broader insights into perceptions of free time leisure and community in antebellum America **Archaeological Assessment and Data Recovery of the Gallatin Sawmill at 36 Fa 428, the Eberhart Grist Mill, Dam, and Gallatin Sawmill** ,1995 *National Union Catalog* ,1973 Includes entries for maps and atlases **The Writers Directory** ,1984 **AB Bookman's Yearbook** ,1981 *America, History and Life* ,1982 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide
