Maurya as the King of Magadha A master strategist who was well versed in the Vedas and adept at creating intrigues and devising political stratagems Kautilya's genius is reflected in his Arthashastra which is the most comprehensive treatise of statecraft of classical times The text contains fifteen books which cover numerous topics viz the King a complete code of law foreign policy secret and occult practices and so on The Arthashastra is written mainly in prose but also incorporates 380 shlokas Artha literally wealth is one of four supreme aims prescribed by Hindu tradition However it has a much wider significance and the material well being of individuals is just a part of it In accordance with this Kautilya's Arthashastra maintains that the state or government of a country has a vital role to play in maintaining the material status of both the nation and its people Therefore a significant part of the Arthashastra has to do with the science of economics When it deals with the science of politics the Arthashastra describes in detail the art of government in its widest sense the maintenance of law and order as also of an efficient administrative machinery
