The Navajo Progressive In Discourse A Study In Temporal Semantics History And Language:

The Navajo Progressive in Discourse Sally Midgette, 1995 This study examines the question of how linguistic categories may influence thinking with respect to the perception of time Investigating the verb system of Navajo the author determines that the notion of aspect is crucial she describes one category the Progressive as it is used in various types of discourse She concludes that as studies of color terms and perception have shown no direct link can be established between language categories and ways of perceiving the world and yet there exist idealized cognitive models which suggest important differences between linguistic groups

The Languages of Native North America Marianne Mithun, 2001-06-07 This book provides an authoritative survey of the several hundred languages indigenous to North America These languages show tremendous genetic and typological diversity and offer numerous challenges to current linguistic theory Part I of the book provides an overview of structural features of particular interest concentrating on those that are cross linguistically unusual or unusually well developed These include syllable structure vowel and consonant harmony tone and sound symbolism polysynthesis the nature of roots and affixes incorporation and morpheme order case grammatical distinctions of number gender shape control location means manner time empathy and evidence and distinctions between nouns and verbs predicates and arguments and simple and complex sentences and special speech styles Part II catalogues the languages by family listing the location of each language its genetic affiliation number of speakers major published literature and structural highlights Finally there is a catalogue of languages that have evolved in contact situations
