The Revolution Will Not be Televised Noriko Manabe, 2015 Nuclear power has been a contentious issue in Japan since the 1950s and in the aftermath of the Fukushima nuclear power plant disaster the conflict has only grown Government agencies and the nuclear industry continue to push a nuclear agenda while the mainstream media adheres to the official line that nuclear power is Japan s future Public debate about nuclear energy is strongly discouraged Nevertheless antinuclear activism has swelled into one of the most popular and passionate movements in Japan leading to a powerful wave of protest music The Revolution Will Not Be Televised Protest Music After Fukushima shows that music played a central role in expressing antinuclear sentiments and mobilizing political resistance in Japan Combining musical analysis with ethnographic participation author Noriko Manabe offers an innovative typology of the spaces central to the performance of protest music cyberspace demonstrations festivals and recordings She argues that these four spaces encourage different modes of participation and methods of political messaging The openness mobile accessibility and potential anonymity of cyberspace have allowed musicians to directly challenge the ethos of silence that permeated Japanese culture post Fukushima Moving from cyberspace to real space Manabe shows how the performance and reception of music played at public demonstrations are shaped by the urban geographies of Japanese cities While short on open public space urban centers in Japan offer protesters a wide range of governmental and commercial spaces in which to demonstrate with activist musicians tailoring their performances to the particular landscapes and soundscapes of each Music festivals are a space apart from everyday life encouraging musicians and audience members to freely engage in political expression through informative and immersive performances Conversely Japanese record companies and producers discourage major

label musicians from expressing political views in recordings forcing antinuclear musicians to express dissent indirectly through allegories metaphors and metonyms The first book on Japan s antinuclear music *The Revolution Will Not Be Televised* provides a compelling new perspective on the role of music in political movements **Billboard** ,1983-03-05 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends In the Weeds Tom Vitale,2021-10-05 Nominated for the 2022 BookTube Prize in Nonfiction Anthony Bourdain s long time director and producer takes readers behind the scenes to reveal the insanity of filming television in some of the most volatile places in the world and what it was like to work with a legend In the nearly two years since Anthony Bourdain s death no one else has come close to filling the void he left His passion for and genuine curiosity about the people and cultures he visited made the world feel smaller and more connected Despite his affable confident and trademark snarky TV persona the real Tony was intensely private deeply conflicted about his fame and an enigma even to those close to him Tony s devoted crew knew him best and no one else had a front row seat for as long as his director and producer Tom Vitale Over the course of more than a decade traveling together Tony became a boss a friend a hero and sometimes a tormentor In the *Weeds* takes readers behind the scenes to reveal not just the insanity that went into filming in some of the most far flung and volatile parts of the world but what Tony was like unedited and off camera From the outside the job looked like an all expenses paid adventure to places like Borneo Vietnam Iran the Democratic Republic of Congo and Libya What happened off camera was far more interesting than what made it to air The more things went wrong the better it was for the show Fortunately everything fell apart constantly *When Music Migrates* Jon Stratton,2016-02-17 *When Music Migrates* uses rich material to examine the ways that music has crossed racial faultlines that have developed in the post Second World War era as a consequence of the movement of previously colonized peoples to the countries that colonized them This development which can be thought of in terms of diaspora can also be thought of as postmodern in that it reverses the modern flow which took colonizers and sometimes settlers from European countries to other places in the world Stratton explores the concept of song careers referring to how a song is picked up and then transformed by being revisioned by different artists and in different cultural contexts The idea of the song career extends the descriptive term cover in order to examine the transformations a song undergoes from artist to artist and cultural context to cultural context Stratton focuses on the British faultline between the post war African Caribbean settlers and the white Britons Central to the book is the question of identity For example how African Caribbean people have constructed their identity in Britain can be considered through an examination of when *Police on My Back* was written and how it has been revisioned by Lethal Bizzle in its most recent iteration At the same time this song written by the Guyanese migrant Eddy Grant for his mixed race group The Equals crossed the racial faultline when it was picked up by the punk rock group The
