The Hermaphrodite Album:

The Hermaphrodite Album Peter Redgrove, Penelope Shuttle, 1973 **The Hermaphrodite Album [by] Peter Redgrove [and] Penelope Shuttle** Peter Redgrove, 1973 **Sex Determination in Plants** CC Ainsworth, 2004-08-02

Indispensable for all plant biologists this is a fascinating and thorough examination of those factors which affect the sex determination of plant species describing all of the main classes of plant with unisexual flowers hermaphrodite monoecious and **Scientist of the Strange** Paul Bently, 2002-06 The present study uncovers the psychical stakes and dramas involved in Redgrove's practice and in turn relates these stakes and dramas to the marked element of cultural critique to be found in Redgrove's nonfiction but which is virtually absent from the poems BOOK JACKET *Women Coauthors* Holly A. Laird, 2000

Until recently collaborative authorship has barely been considered by scholars when it has the focus has been on discovering who contributed what and who dominated whom in the relationship and in the writing In *Women Coauthors* Holly Laird reads coauthored texts as the realization of new kinds of relationship Through close scrutiny of literary collaborations in which women writers have played central roles *Women Coauthors* shows how partnerships in writing between two women or between a woman and a man provide a paradigm of literary creativity that complicates traditional views of both author and text and makes us revise old habits of thinking about writing Focusing on the social dynamics of literary production including the conversations that precede and surround collaborative writing *Women Coauthors* treats its coauthored texts as representations as well as acts of collaboration Holly A Laird discusses a wide array of partial and full coauthorships to reveal how these texts blur or remap often uncanny boundaries of self status race reason and culture that of the Delany sisters and Amy Hill Hearth on *Having Our Say* lesbian couples whose lives and writings were intertwined including Katherine Bradley and Edith Cooper Michael Field and Gertrude Stein and Alice B Toklas and the Native American wife and husband authors Louise Erdrich and Michael Dorris Framed in time by the feminist and abolitionist movements of the mid nineteenth century and the ongoing social struggles surrounding gender race and sexuality in the late twentieth century the partnerships and texts observed in *Women Coauthors* explore collaboration as a path toward equity both socioliterary and erotic For the authors here who collaborate most fully with each other two are much better than one **British Poetry from the 1950s to the 1990s** Gary Day, Brian Docherty, 1997-07-13 This collection looks at the developments in British poetry from the Movement until the present The introduction not only provides a context for these changes but also argues that poetry criticism has been debilitated by the quest for political respectability a trend which can only be reversed by reconsidering the idea of tradition The essays themselves focus on general themes or individual authors Written in a clear and informed manner they provoke the reader into a fresh awareness of the nature of poetry and its relation to society
