Carving Out the Commons Amanda Huron, 2018-03-13 An investigation of the practice of commoning in urban housing and its necessity for challenging economic injustice in our rapidly gentrifying cities Provoked by mass evictions and the onset of gentrification in the 1970s tenants in Washington D C began forming cooperative

organizations to collectively purchase and manage their apartment buildings. These tenants were creating a commons taking a resource housing that had been used to extract profit from them and reshaping it as a resource that was collectively owned by them. In *Carving Out the Commons*, Amanda Huron theorizes the practice of urban commoning through a close investigation of the city's limited equity housing cooperatives. Drawing on feminist and anticapitalist perspectives, Huron asks whether a commons can work in a city where land and other resources are scarce and how strangers who may not share a past or future come together to create and maintain commonly held spaces in the midst of capitalism. Arguing against the romanticization of the commons, she instead positions the urban commons as a pragmatic practice. Through the practice of commoning, she contends we can learn to build communities to challenge capitalism's totalizing claims over life. *Seeking Shelter on the Pacific Rim*, Gary Dymski, Dorene Isenberg, 2018-10-24. This innovative book analyzes the changes that financial globalization is bringing about in the housing and home finance markets of the United States, Japan, and South Korea, with special attention to the circumstances of women in obtaining housing credit and personal security. The book's focus on changes in the residential and housing finance markets serves as a window for an integrated examination of how the liberalization of national financial markets has affected the relationship among all players in each of the three economies: government markets and individual citizens. Through this examination, *Housing Finance Futures* develops a new critical response to economic globalization based on a groundbreaking concept: the social efficiency of policy and market shifts.

The Meaning of Housing, David Clapham, 2005-07-20. This book offers a fresh new approach to the study of housing, exploring the meaning that housing has for individuals and households by examining housing pathways. Although drawing on British experiences, the methodology and theoretical framework used are applicable to the study of housing in any national context.
