The Invention Of Prose:

The Invention of Prose Simon Goldhill, 2002-05-16 This is the first general study of the earliest writers of Greek prose for students and teachers alike Looking at history medicine science philosophy and rhetoric it asks why and how these new genres of writing came about in the fifth and fourth centuries BCE It is thus a study of the cultural and political revolution known as the Greek enlightenment which has proved so influential and important for modern Western thought and society Questions discussed include how and why rhetoric played such a role in democracy how history written in prose changes a view of the past and how science and philosophy construct new models of understanding what authority is An exploration is offered of how literary history and social and political history interact Written in a lively and clear style the book makes a perfect introduction to the classical world of Athens

The Invention of Greek Ethnography Joseph E. Skinner, 2012-09-27 The Invention of Greek Ethnography offers a fresh approach to the origins and development of ethnographic thought Greek identity and narrative history

The Invention of the Self Andrew Spira, 2020-06-25 This book is an examination of personal identity exploring both who we think we are and how we construct the sense of ourselves through art It proposes that the notion of personal identity is a psycho social construction that has evolved over many centuries While this idea has been widely discussed in recent years Andrew Spira approaches it from a completely new point of view Rather than relying on the thinking subject s attempts to identify itself consciously and verbally it focuses on the traces that the self sense has unconsciously left in the fabric of its environment in the form of non verbal cultural conventions Covering a millennium of western European cultural history it amounts to an anthropology of personal identity in the West Following a broadly chronological path Spira traces the self sense from its emergence from the collectivity of the medieval Church to its consummation in the individualistic concept of artistic genius in the nineteenth century In doing so it aims to bridge a gap that exists between cultural history and philosophy Regarding cultural history especially art history it elicits significances from its material that have been thoroughly overlooked Regarding philosophy it highlights the crucial role that material culture plays in the formation of philosophical ideas It argues that the sense of personal self is as much revealed by cultural conventions and as a cultural convention as it is observable to the mind as an object of philosophical enquiry

The Oxford History of Historical Writing Andrew Feldherr, Grant Hardy, 2011-02-17 The Oxford History of Historical Writing is a five volume series that explores representations of the past from the beginnings of writing to the present day and from all over the world Volume I offers essays by leading scholars on the development and history of the major traditions of historical writing including the ancient Near East Classical Greece and Rome and East and South Asia from their origins until c AD 600 It provides both an authoritative survey of the field and an unrivalled opportunity to make cross cultural comparisons

Greek Drama and the Invention of Rhetoric David Sansone, 2012-07-30 GREEK DRAMA and the Invention of Rhetoric An impressively erudite

elegantly crafted argument for reversing what everybody knows about the relation of two literary genres that played before mass audiences in the Athenian city state Victor Bers Yale University Sansone's book is first rate and should be read by any scholar interested in the origins of Greek rhetorical theory or for that matter interested in Greek tragedy That Greek tragedy contains elements properly described as rhetorical is familiar but Sansone goes far beyond this understanding by putting Greek tragedy at the heart of a counter narrative of those origins Edward Schiappa The University of Minnesota This book challenges the standard view that formal rhetoric arose in response to the political and social environment of ancient Athens Instead it is argued it was the theater of Ancient Greece first appearing around 500 BC that prompted the development of formalized rhetoric which evolved soon thereafter Indeed ancient Athenian drama was inextricably bound to the city state's development as a political entity as well as to the birth of rhetoric Ancient Greek dramatists used mythical conflicts as an opportunity for staging debates over issues of contemporary relevance civic responsibility war and the role of the gods The author shows how the essential feature of dialogue in drama created a counterpoint an interplay between the actor making the speech and the character reacting to it on stage This innovation spurred the development of other more sophisticated forms of argumentation which ultimately formed the core of formalized rhetoric **The Invention of Hebrew** Seth L. Sanders, 2011 How choosing a language created a people **The Creation of Heaven and Earth** George H. van Kooten, 2004-12-01 This volume discusses the narrative of the creation of heaven earth and light in the first chapter of Genesis and focuses extensively on its later interpretations in different cultural and religious contexts After an introductory paper on the text of Genesis itself the authors deal with receptions of this theme in the Prophet Jeremiah Early Judaism and the Dead Sea Scrolls They comment on creation accounts in the Ancient Near East Ancient Greece and ancient philosophy reconstructing the earliest known receptions of Genesis 1 in ancient philosophers like Numenius and Galen They trace its influence in the Johannine Petrine and Pauline traditions of Early Christianity and follow it right through the Middle Ages up till the present day discussion of design in Nature The Mind on Paper David R. Olson, 2016-11-07 Shows why reading and writing are essential to developing a consciousness of language that in turn lies at the core of rationality The Natural History of Pliny Plinius Secundus, 1900 Epic, Novel and the Progress of Antiquity Ahuvia Kahane, 2025-08-21 This book rethinks the characterization of two highly contrastive forms of ancient literary tradition epic and novel and re frames their function as dynamic points of reference in the history of ideas and in our understanding of the interface between antiquity and the modern Epic and novel have often been construed in terms of sharp contrasts temporally with the epic anchored in the canonical beginnings of classical literature as opposed to the novel which rises only late in the ancient era hierarchically with epic regularly occupying the canonical core while the novel often resided in the periphery and in terms of specific highly contrasting attributes sublime vs subversive an aspiration to oral song vs an intimate association with book culture heroic vs anti heroic or mock heroic Ahuvia Kahane argues for the fallibility of each of several major differential attributes to the point

of generic disintegration He then constructs a new understanding of epic and novel in antiquity as part of a more fragile dynamic framework governed by intertextuality and openness on the one hand and by fragmented interpretive traditions on the other

The Natural History of Pliny Pliny (the Elder.),1890

Narcissus and the Invention of Personal History Kenneth J. Knoespel,2015-08-14 Originally published in 1985 This investigation of Ovid's fable takes a different tack to previous studies of the love lyric or the themes but looks at the creation of narrative strategies to explain Narcissus' experience The story has always been understood as literally impossible but invites readers to ask what is meant by the puzzling tale of deception and death The limits placed on the fable by the commentaries of the medieval period allow us to appreciate the narrative expansion of the fable in twelfth and thirteenth century poetry Themes in this book are the way the fable is used as a means for knowledge of physical nature and the development of science the importance of language in the fable and in its settings when rewritten in other texts and psychoanalytic aspects of Echo and Narcissus The fable has the capacity to represent mental life and psychological crisis within other narratives and this is also an important discussion point based around the medieval text *Roman de la Rose* The book also considers the wider *Metamorphoses* and Ovid's importance for literature

Judith Lawrence M. Wills,2019-11-05 Judith tells the story of a beautiful Jewish woman who enters the tent of an invading general gets him drunk and then slices off his head thus saving her village and Jerusalem This short novella was somewhat surprisingly included in the early Christian versions of the Old Testament and has played an important role in the Western tradition ever since This commentary provides a detailed analysis of the text's composition and its meaning in its original historical context and thoroughly surveys the history of Judith scholarship Lawrence M Wills not only considers Judith's relation to earlier biblical texts how the author played upon previous biblical motifs and interpreted important biblical passages but also addresses the rise of Judith and other Jewish novellas in the context of ancient Near Eastern and Greek literature as well as their relation to cross cultural folk motifs Because of the popularity of Judith in art and culture this volume also addresses the book's history of interpretation in paintings sculpture music drama and literature A number of images of artistic depictions of Judith are included and discussed in detail

The Invention of Sodomy in Christian Theology Mark D. Jordan,1998-10-15 In this reexamination of what it means to have a tradition Catholic and otherwise Mark D Jordan offers a powerful and provocative study of the sin of erotic love between men The *Invention of Sodomy* reveals the theological fabrication of arguments for categorizing genital acts between members of the same sex

Religious Giving and the Invention of Karma in Theravada Buddhism James Egge,2013-12-16 Demonstrates that Buddhists appropriated the practice vocabulary and ideology of sacrifice from Vedic religion and discusses the relationship of this sacrificial discourse to ideas of karma in the Pali canon and in early Buddhism

Greek Religion and Culture, the Bible and the Ancient Near East Jan Bremmer,2008-04-30 In the last decades there has been an increasing interest in the relationship between Greek religion culture and the Ancient Near East This challenging book contributes greatly to this

interest by studying the Near Eastern background of important Greek myths such as those of the creation of the world and the first woman the Flood the Golden Fleece the Titans and travelling seers but also of the births of Attis and Asclepius as well as the origins of the terms paradise and magic It also shows that in turn Greek literature influenced Jewish stories of divine epiphanies and that the Greek scapegoat myths and rituals contributed to the central Christian notion of atonement

The Invention of the Countryside Donna Landry,2001-08-20 Today s hunting debate began in the eighteenth century when the idea of the countryside was being invented through the imaginative displacement of agricultural production in favour of country sports and landscape tourism Between the Game Act of 1671 and its repeal in 1831 writers on walking and hunting often held opposed views but contributed equally to the origins of modern ecology while sharing a commitment to trespass that preserved common rights in an era of growing privatization *Sketches of the History of Literature and Learning in England from the Norman Conquest to the accession of Elizabeth. With specimens of the principal writers. (ser. 2. From the accession of Elizabeth to the Revolution of 1688.-ser. 3. From the Revolution of 1688 to the present day.)* George Lillie CRAIK,1862 The Creation of Sacred Literature Richard Elliott Friedman,1981-01-01
