December of 2012 the Mayan Calendar's Great Cycle will come to an end. Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed. What is certain however is that a rare galactic alignment will occur one so unique that it is found at the core of many wisdom traditions from around the globe. Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982. Far from confining his research to the Maya who provide the most prominent predictions indicating this date will herald significant changes for humanity, he has studied the prophetic traditions of other cultures including the Tibetan, Chinese, Jewish, Ethiopian, and tribal cultures from around the globe to show the kind of convergence of cosmic purposes happening along a number of parallel tracks. This book offers an extensive study of many modern theories including Terence McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles. Sifting through all the scientific research and speculation that the year 2012 has inspired, Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date. *The Miracle of Plant Medicine and The Practice of Yoga* Colette Marie, 2018-04-15. The contents of this book reveal some of the hidden truths regarding the use of psychedelic and psychoactive plant medicine as a form of expanding consciousness through the practice of yoga and meditation. It is this bond of plant medicine and the practice of yoga that Colette Marie chooses to explore and therefore share her findings compiled from a variety of worthy sources to support her claims and query regarding the ancient practice of yoga and its connection to various plant medicine rituals still experienced today. Colette Marie shares her own life experience as a highly regarded teacher of yoga combined with the experience of engaging with plant medicine, psychedelic and psychoactive in nature to elevate, expand and explore her own consciousness. *Apocalyptic Anxiety* Anthony Aveni, 2016-05-02. *Apocalyptic Anxiety* traces the sources of American culture's obsession with predicting and preparing for the apocalypse. Author Anthony Aveni explores why Americans take millennial claims seriously, where and how end of the world predictions emerge, how they develop within a broader historical framework, and what we can learn from doomsday predictions of the past. The book begins with the Millerites, the nineteenth century religious sect of Pastor William Miller who used biblical calculations to predict October 22, 1844 as the date for the Second Advent of Christ. Aveni also examines several other religious and philosophical movements that have centered on apocalyptic themes: Christian millennialism, the New Age movement, and the Age of Aquarius, and various other nineteenth and early twentieth century religious sects, concluding with a focus on the Maya mystery of 2012 and the contemporary prophets who connected the end of the world as we know it with the overturning of the Maya calendar. *Apocalyptic Anxiety* places these seemingly never ending stories of the world's end in the context of American history. This fascinating exploration of the deep historical and cultural roots of America's voracious appetite for apocalypse will appeal to students of American history and the histories of religion and science as well as lay readers interested in American culture and doomsday prophecies. *Aya Awakenings* Rak Razam, 2013-11-05. Experiential
