Esposito introduces The Iranian Revolution with an explanation of why the present is a turning point for Iran He isolates the export of Islamic revolution as central to the Republic's character A concise description of the complexities of that issue is followed by a discussion of its effects within and outside Iran with the majority of the collection then devoted to insightful analyses of the Republic's impact throughout the Islamic world International experts from Iran Europe Africa and the United States assess worldwide impact of the Iranian Revolution on other Muslim societies and give us a remarkable analysis of the status of Islamic revivalism in a far flung array of Islamic states and societies Lebanon Bahrain Egypt Tunisia Nigeria Turkey the USSR the Philippines Malaysia Indonesia and Iraq The book owes its quality not only to the currency of its subject matter but also to its distinguished contributors who address such issues as the failure of the Iranian revolution to replicate itself in other countries and the extent to which Iran's experience has shaped the politics economics and cultures of other countries Sponsors of the book and of the 1989 conference that inspired it are the Middle East Institute the Johns Hopkins School of Advanced International Studies and Royal Institute of International Affairs This objective and thought provoking assessment of the Islamic Republic of Iran's success to date in implementing its objectives as well as its prospects for the future makes timely reading for anyone seeking an understanding of the revolution's impact Contents Part I Iran 1 Introduction by John L. evolving multipolar order are experiencing economic contraction and governance problems In order to predict further developments the contributors to this volume focus on the types and sources of the diplomatic strategies that must be executed by rising states if they are to preserve domestic advances as well as gain influence regionally and internationally Through a comprehensive examination of case studies from Latin America Africa Asia and the Middle East they show that while there are commonalities among these rising states unique domestic conditions values and traditions impact and predict diplomatic strategizing and the ability for sustained projection on the international scene

From Revolution to War Patrick J. Conge, 2010-05-25 In the history of international relations few events command as much attention as revolution and war Over the centuries revolutionary transformations have produced some of the most ruinous and bloody wars Nevertheless the breakdown of peace in time of revolution is poorly understood Patrick Conge offers a groundbreaking study of the relationship between war and revolution How can we best understand the effect of revolutionary transformations on the politics of war and peace Conge argues that it is only by bringing in first the organizational capacity of revolutionary regimes to extract resources and convert them into military strength and second the power of transformative ideas to transcend national boundaries and undermine the ability of opposing regimes to compromise that we are best able to understand the effect of revolution on the origins and persistence of war By incorporating such key elements this book provides a new more comprehensive explanation of the relationship between revolution war and peace Conditions that lead to and sustain wars in general are identified and placed in the light of revolutionary transformations Once the argument is presented historical case studies are used to test its plausibility Conge demonstrates the importance of the effect of revolutionary organization and ideas on the outcome of conflicts Political scientists historians sociologists and the general reader interested in the politics of war and peace in revolutionary times are given new perspectives on the relationship between revolution and war as well as on the implications of political organization for military power and the process of consolidation of new regimes Patrick J Conge is Assistant Professor of Political Science University of Arkansas

Iran's Persian Gulf Policy Dr Christin Marschall, 2003-12-08 This book examines the foreign policy of the Islamic Republic of Iran towards the states of the Persian Gulf from 1979 to 1998 It covers perceptions Iranians and Arabs have of each other Islamic revolutionary ideology the Iran Iraq war the Gulf crisis the election of President Khatami and finally the role of external powers such as the United States The author argues that over the twenty year period the policy has moved from being ideological to pragmatic and that by tracing its history we can better anticipate its future relationship

The Politics and Security of the Gulf Jeffrey R. Macris, 2010-01-21 Since the 19th century the Gulf region has been an area of intense interest having been influenced first by the British and more recently by the Americans This book charts the changing security and political priorities of these two powers and how they have shaped the region Adopting a narrative approach the author provides background history on British involvement from the 19th century and a detailed analysis of the years after the Second World War when oil supply became more critical He covers the growth of US influence

and the British withdrawal and follows more recent changes as the US built up its military presence following Desert Storm and the invasion of Iraq Looking at the three enduring missions fulfilled by the British maintaining interstate order protecting the free flow of commerce which later included petroleum and keeping out other Great Powers the book demonstrates how these had by 1991 been assumed almost entirely by the American leaders A comprehensive and thorough look at the history of the Gulf and the contemporary issues affecting the region this will be essential reading for students of Middle East history military history and diplomatic history Visit the author s website at www.thepoliticsandsecurityofthegulf.com *The Islamic Republic and the World* Maryam Panah, 2007-09-20 Iran is now in the eye of the storm As events in Iraq deteriorate a US invasion of Iran looms as a real threat This book provides a detailed analysis of Iran s recent history and in particular how the country has been shaped by the 1979 revolution It is often forgotten that modern Iran is a revolutionary republic that arose out of the overthrow of the old secular and very pro western regime Since the revolution this has been replaced by an Islamic State Maryam Panah explores the Iranian revolution in its international context and examines the different forces at play within the country and how these conflicting political interests continue to mould the country today and shape its external relations *Revolutionary Contagion and International Politics* Chad E. Nelson, 2022 A unique theory of what happens when leaders fear a revolution abroad will spread to their own country and how that affects international relations When do leaders fear that a revolution elsewhere will spread to their own polities and what are the international effects of this fear In *Revolutionary Contagion* Chad E Nelson develops and tests a theory that explains how states react to ideological driven revolutions that have occurred in other nations To do this he analyzes four key revolutionary movements over two centuries liberalism communism fascism and Islamism He further explains that the key to understanding the response to revolutions lies in focusing on the extent to which leaders fear upheaval in their own countries According to the theory Nelson argues fear of contagion is driven more by the characteristics of the host rather than the activities of the infecting agents In other words leaders will fear revolutionary contagion when they have significant revolutionary opposition movements that have an ideological affinity with the revolutionary state A powerful theory of the profound effects revolutions have on international relations this book shows why one simply cannot make sense of international politics including patterns of alliances and wars in certain situations without considering the fear of contagion **Freedom in Captivity** Radhika Gupta, 2023-05-11 How do borderland dwellers living along militarised frontiers negotiate regimes of state security and their geopolitical location in everyday life What might freedom mean to those who do not resist captivity engendered by borders Focusing on the predicaments of a double minority *Freedom in Captivity* examines the affective attachments political imaginaries and ethical claims making among the Shia Muslims of Kargil In contrast to calls for freedom in the Kashmir Valley Shias on the frontiers of Kashmir have sought belonging to India Yet they do not entirely succumb to its hegemonic ideological boundaries Departing from the dominant focus on physical cross border mobility this book is an invitation to reimagine borderlands as

cartographies of ideas cutting across spatial scales Based on original ethnographic research conducted between 2008 and 2021 this monograph offers a unique long dur e insight into the lives of people residing at the intersections of the biggest states in Asia **Iran Nuclear Accord and the Remaking of the Middle East** Nader Entessar,Kaveh L.

Afrasiabi,2017-12-20 Entessar Afrasiabi s Iran Nuclear Negotiations Rowman Littlefied October 2015 offered a thorough analysis of the negotiation process between Iran and the 5 1 great powers about its nuclear program This book essentially builds upon it focusing this time on the final nuclear agreement the ensuing debates around it and its global and regional ramifications especially in the Middle East The first section analyzes the agreement through the prism of international relations theories using a constructivist critical theory approach This is followed by an overview of the intense debates in Iran the West and other parts of the world on the nuclear agreement and its various pros and cons not to mention the connected yet separate Iran IAEA agreement The second section covers Iran s foreign policy and its various priorities looking in particular at the impact of the nuclear deal on the country s external relations and orientations contextualized in terms of pre existing issues and concerns and the profound influence of the nuclear agreement on the perceptions of Iranian power in the region and beyond Iran s relations with its Arab Turkish Russian and other neighbors are discussed focusing on both the direct and indirect impact of the nuclear agreement on these relations especially the paradoxical implications of the nuclear deal with respect to the non nuclear crises in the Middle East such as the Syria Iraq crisis and the re alignments that have put Iran at the crossroads of East and West Other issues covered include energy security regional economic cooperation the endemic sectarianism highlighted by Iran Saudi competition and the deadlock on the Middle East peace process The third section then examines the issue of a Middle East nuclear weapons free zone and the likely consequences of the Iran nuclear deal on this prospect which in turn raises the issue of regional proliferation and counterproliferation The last section explores some possible various scenarios and the challenges of implementation as a relatively long term agreement providing specific policy recommendations for the regional actors and the external powers that are stakeholders in the volatile Middle East
