The Isis Thesis A Study Decoding 870 Ancient Egyptian Signs:

The Isis Thesis Judy Kay King, 2004 Vol 2 has title *The road from Orion a surreal story supporting the Isis thesis*
Shapeshifting and Psychic Possession: Gangstalking Secrets Of The Master Builders Of Illusion Eliza M Parr, This incredible photographic full color 292 page book affirms the reality of shape shifting sacred knowledge guarded and kept hidden by the hierarchs who have controlled the evolution of worldly illusion since the beginning of civilization A shocking expose of the inter dimensional aspect of gang stalking organized harassment and its connection to the Master Builders This sequel is the pictorial companion to its predecessor *Gang stalking and Psychic Possession* Servants of The Master Builders of Illusion which aimed to connect the seemingly opposing relationship between self realization and the existence of the world controlled by the Master Builders Contains the only known genuine footage in step by step frames showing the act of human shape shifting as it occurs Genuine photographs of shape shifting entities portals and UFO phenomena taken covertly by the author a targeted individual and victim of gang stalking over three years How inter dimensional portals and other non worldly phenomena are camouflaged as ordinary 3D phenomena in plain sight Explains how the gang stalking sensitization and bizarre St Theater rituals are used to bring these entities through the veil Shows how the shape shifted human looking entities are formed what directs and inhabits them What prevents us from seeing the shape shifting How the gang stalkers manage to bend the laws of space and time Imbibing blood negative energy and human Chi PSI balls negative electromagnetic energy beings attached to you for control and surveillance Why the shape shifting gang stalkers don't think and act like individuals Contents Include How inter dimensional worlds really work conjoined with this one An inter dimensional symbiosis An introduction to gang stalking and St theater Where do they come from Portals and time frames How does the shapeshifting work 3D printing with the mind Imbibing blood and glowering red eyes Any takers for some negative energy The shape shifted forms are temporary UFO's St theater rituals in disguise Through the keyhole a shape shifting neighbor caught on camera Things are not what they seem Shape shifting in action A true witness account with photographs Their disguises and deceptions Illuminati St theater rituals hidden in plain sight Their concept of time is different than ours Chi human life force is everything to these beings The currency the gang stalkers get paid in is Chi Possible reasons why we can't see the shape shifting What they want Psychic possession Is there a spiritual evolutionary purpose for empaths who are victims of gang stalking organized stalking

Balls of Fire Judy Kay King, 2015-02-20 Spanning 5 000 years of history from ancient Egypt to our technoprogressive 21st century the science reviewed in Balls of Fire builds on The Isis Thesis 2004 and 12 journal articles 2005 2013 The Isis Thesis is a semiotic study of ancient Egyptian literature artwork ritual and architecture showing that ancient Egyptian deities are signs for human and microbial genes and proteins evolving into a hybrid quantum species The deities activities describe the ancient glycolysis gene expression network in our cells and mirror the lifestyles of a complex bacterial virus that uses this ancient developmental pathway Surprisingly other historical religious deities mirror the activities of Egyptian deities so religion has also preserved an evolutionary science for survival of human DNA in a quantum environment Balls of Fire presents evidence that our semiotic system is based on underlying physical and chemical principles inherited from our microbial ancestors so our microbial DNA is ordering our society space Examining human history through the dual lens of contemporary science and human behavior the study shows that human beings have the potential to evolve at death into a unique hybrid species Elite historical rulers have consistently veiled this evolutionary knowledge from humanity However our behavior has stamped an evolutionary viral footprint on the last 12 000 years of human history In line with the methodology of Imre Lakatos 1970 on progressive and degenerating research programs Balls of Fire examines the core hypotheses of the Isis Thesis its predictions and several other auxiliary hypotheses Understanding transdisciplinary ancient Egyptian knowledge is not easy so Balls of Fire uses the same mental model and ritual that the pharaonic priesthood imagined to describe the ancient viral gene expression network in our cells for morphogenesis That model is their ball throwing rite or the game of baseball which originated in ancient Egypt to illustrate a viral protein binding battle over gene bases Although the game of baseball has drifted through the centuries as a popular sport in many cultures it originally expressed microbiological warfare at the level of viral genes and proteins Because ancient Egyptian science mirrors the knowledge of our contemporary sciences the baseball model simplifies the information for readers while explaining the science that the pharaonic priesthood concealed in pyramids and tombs for centuries For the creation of the baseball model a fantasy draft selection of two teams frames the

historical power knowledge grid as well as the scientific argument for and against the Isis Thesis while explaining the necessary context for what the theory predicts and scientific experiments confirm This is accomplished by the draft of dead and living scientists philosophers writers and other creative artists whose ideas are presented in two fantasy teams in order to tackle the mind body problem that has confounded humans for centuries Using this adversarial system the reader determines the truth of the case through a transdisciplinary quest that prioritizes scientific research Also summarizing the author's 12 published scientific papers Balls of Fire presents findings correlative with the history of human ideas along with scientific evidence and mechanistic insights to establish the clear link between nature our behavior and human evolutionary potential The evidence shows that our behavior and the evolution of society in the last 12 000 years has carved a footprint into human history profiling a viral developmental pathway for human evolution Balls of Fire exposes this hidden survival agenda in baseball ancient cultures alchemy literary texts Christianity world visions our sciences and history itself

Sacred Signs Penelope Wilson, 2003 Hieroglyphs were far more than a language They were an omnipresent and all powerful force in communicating the messages of ancient Egyptian culture for over three thousand years used as monumental art as a means of identifying Egyptianess and for rarified communication with the gods In this exciting new study Penelope Wilson explores the cultural significance of the script with an emphasis on previously neglected areas such as cryptography the continuing decipherment post Champollion and the powerful fascination hieroglyphs still hold for us today
