The Islamic Movement In North Africa:

The Islamic Movement in North Africa François Burgat, William Dowell, 1997 Burgat has added an epilogue to bring the book up to the present and an index of names to help identify the valuable and original source materials from North Africa Thus the reader learns about the modern Islamic movement from the founders of the movement themselves *Political Ascent* Emad Eldin Shahin, 1997-02-27 Islamic movements in North Africa have historically been distinguished from their counterparts in other parts of the Arab world because they have demonstrated a marked willingness to work within the political system and have at times even been officially recognized and allowed to participate in local and national elections As a result Islamic thinkers from the Maghrib have produced important writing about the role of Islam and the state democracy and nonviolent change In this book Emad Shahin offers a comparative analysis of the Islamic movements in Algeria Tunisia and Morocco exploring the roots of their development the nature of their dynamics and the tenets of their ideology He argues that the formation and expansion of Islamic movements since the late 1960s has come in response to the marginalization of Islam in state and society and to a perceived failure of imported models of development to resolve socioeconomic problems or to incorporate the Muslim belief system into a workable plan for social transformation *Islamist Radicalisation in North Africa* George Joffe, 2012-06-12 In the current climate of political extremism and violence much attention has been directed towards radicalisation as the reasons behind such courses of action along with a conviction that those who are radicalised represent an irrational deviation from the conventionally accepted norms of social and political behaviour This book focuses on the current issues and analytical approaches to the phenomenon of radicalisation in North Africa Taking a comprehensive approach to the subject it looks at the processes that lead to radicalisation rather than the often violent outcomes At the same time chapters expand the discussion historically and conceptually beyond the preoccupations of recent years in order to develop a more holistic understanding of a complex individual and collective process that has represented a permanent challenge to dominant political social and on occasion economic norms With contributions from academics and policy makers within and outside the region the book is a comprehensive investigation of Islamist Radicalisation As such it will be of great interest to academics and students investigating North Africa and terrorism as well as specialists in radicalism and extremism Islamic Movement In Egypt Walid M. Abdelnasser, 2013-10-28 First published in 1994 This book is focussed is on the global vision of the various components of the Islamic movement in Egypt from 1967 to 1981 It is in fact a case study of the perception of foreign policy issues and the international system by the Islamic movement **Islamism and Secularism in North Africa** NA NA, 2016-04-30 This book provides an excellent handbook to the Islamic movements in Morocco Tunisia Algeria and Libya and fills a major gap in the scholarship on Islam and the Arab West *The Muslim Brotherhood in Jordan* Joas Wagemakers, 2020-09-17 Since its founding in 1945 the Jordanian Muslim Brotherhood has enjoyed decades of almost continuous parliamentary presence and state acceptance in Jordan participating in elections

organising events and even establishing a hospital In this detailed account of the Muslim Brotherhood's ideological and behavioural development in Jordan Joas Wagemakers focusses on the group's long history and complex relationship with the state its parliament and society It shows how age old concepts derived from classical Islam and the writings of global Islamist scholars have been used and reused by modern day Jordanian Islamists to shape their beliefs in the context of the present day nation state Far from its reputation as a two faced global conspiracy bent on conquering the West the Muslim Brotherhood is a deeply divided group that has nevertheless maintained a fascinating internal ideological consistency in its use of similar religious concepts As such it is part of and continues to build on trends in Muslim thought that go back hundreds of years

The Receding Shadow of the Prophet Ray Takeyh, Nikolas K. Gvosdev, 2004-06-30 The tragic events of September 11 2001 in the United States renewed fears of an Islamist wave destabilizing the countries of the Muslim world Yet the alarm raised over a previous wave of Islamism in the early 1990s which threatened to overwhelm Egypt and Algeria and spill into the Balkans and Central Asia proved to be unfounded Takeyh and Gvosdev assert that while Islamism has been successful as an oppositional ideology of wrath it has failed to provide Islamic societies with any feasible alternative to undertaking fundamental political and economic reforms By detailing the defeat of Islamist movements in the Middle East the Balkans and Central Asia over the last decade this book encourages us not to overestimate the Islamist threat in the current climate and the years to come Radical Islamists have been successful in mobilizing opposition to corrupt regimes yet they have failed to translate their utopian vision into reality Furthermore their emphasis on violence alienates and frightens the middle class and other potential allies Iran's revolution failed to create a model Islamic republic and its government is increasingly losing legitimacy to demands for genuine democracy Islamist governments in Afghanistan and Sudan relied upon violence to remain in power and ultimately collapsed Islamist movements proved unable to dislodge the existing regimes in Egypt and Algeria In the Balkans and Central Asia Islamism has had little attraction for Western oriented populations Indeed throughout the entire Islamic world former radicals are seeking a new accommodation between Islamic values and liberal democracy Takeyh and Gvosdev succinctly and accessibly explore the rise of radical Islam as well as its ultimate demise in various nations

the 1920s to today's struggles between reformers and hardliners Capturing the views of four generations of Muslim activists Farhang Rajaee describes how the extremism of the 1960s gave confidence to Islam minded Iranians and radicalized the Muslim world Presenting thought provoking discussions of religious thinkers such as Ha eri Burujerdi Bazargan and Shari ati along with contemporaries such as Kadir Soroush and Shabestari Rajaee sheds light on contemporary Islamic thinking in Iran A comprehensive study of politics religion society and identity Islamism and Modernism offers crucial new insight into the aftermath of the Iranian Constitutional Revolution and its ramifications for the newest generation of Iranians to face the crossroads of modernity and Islamic discourse *The Politics of Islamic Reassertion (RLE Politics of Islam)* Mohammed Ayooob, 2014-03-26 The Iranian Revolution has catalysed the preconceptions holding sway in the Western World about the character of Islam and its politics based as they are on a mixture of imagined cultural superiority and a latent fear of a resurgence similar to the Arab conquests of the seventh and eighth centuries of the long Ottoman domination of Eastern Europe This book constitutes a counterweight to such monolithic perceptions of Islam It surveys the nature of opinion and of government in the larger Muslim regions of the world and the position of Muslims in states where they are not the dominant population Each contributor expresses his own assessment of the regional data and the editor's concluding chapter draws together the threads of a work which will form an important contribution to international understanding and a first breach in the Green Curtain dividing East and West First published in 1981 **Revolution and War** Stephen M. Walt, 2013-08-09 Revolution within a state almost invariably leads to intense security competition between states and often to war In Revolution and War Stephen M Walt explains why this is so and suggests how the risk of conflicts brought on by domestic upheaval might be reduced in the future In doing so he explores one of the basic questions of international relations What are the connections between domestic politics and foreign policy Walt begins by exposing the flaws in existing theories about the relationship between revolution and war Drawing on the theoretical literature about revolution and the realist perspective on international politics he argues that revolutions cause wars by altering the balance of threats between a revolutionary state and its rivals Each state sees the other as both a looming danger and a vulnerable adversary making war seem both necessary and attractive Walt traces the dynamics of this argument through detailed studies of the French Russian and Iranian revolutions and through briefer treatment of the American Mexican Turkish and Chinese cases He also considers the experience of the Soviet Union whose revolutionary transformation led to conflict within the former Soviet empire but not with the outside world An important refinement of realist approaches to international politics this book unites the study of revolution with scholarship on the causes of war **Revolutionaries and Reformers** Barry Rubin, 2012-02-01 Islamist movements seeking power today are faced with difficult choices regarding strategy ranging from armed struggle to electoral efforts An emerging alternative consists of a rethinking of Islamist politics where the goal of a totally Islamic polity would be abandoned in favor of some form of Islamic oriented society In this reformulation Islamist politics would function as a

pressure group to make society more Islamic reinforcing the walls of semi separate internal communities and reinterpreting Islam in more liberal ways The September 11 2001 terror attack on the United States however demonstrates that the radical approach remains attractive to many Islamists Addressing these issues the contributors look at the countries where Islamist movements have been most important Case studies of revolutionary and reformist groups are followed by chapters discussing future alternatives for Islamist politics presenting arguments both advocating and critical of a potential liberal reformist interest group Islamism
