Debtors and Creditors in America Peter J. Coleman, 1999

Americans now depend more heavily upon credit than any other society on Earth or any other time in history. Borrowing has become a way of life for millions of families and it is hard to imagine a time when charge accounts did not exist. Nonetheless it would be a mistake to assume that because a wallet filled with plastic instead of cash is a relatively new phenomenon. Americans have not been borrowers and lenders since the colonization of the New World. Author Peter J. Coleman proves otherwise. In one form or another, notes of hand, book credit, commercial paper, mortgages, land contracts, settlers borrowed to pay their passage from Europe to buy and clear land to build and operate mills to purchase slaves and to gamble and drink. Debtors' prison awaited those who could not pay their debts and a pauper's grave received the unfortunate who lacked the private means to feed and clothe himself in prison. While the debtors' prisons described in this book no longer exist, the author maintains that our credit-oriented society has yet to devise cheap, efficient, equitable and humane methods of enforcing contracts for debt.

The American South William J. Cooper Jr., Thomas E. Terrill, Christopher Childers, 2016-07-06. In *The American South: A History*, Fifth Edition, William J. Cooper Jr., Thomas E. Terrill, and Christopher Childers demonstrate their belief that it is impossible to divorce the history of the South from the history of the United States. The authors' analysis underscores the complex interaction between the South as a distinct region and the South as an inescapable part of America. Cooper and Terrill show how the resulting tension has often propelled section and nation toward collision. In supporting their thesis, the authors draw on the tremendous amount of profoundly new scholarship in Southern history. Each volume includes a substantial bibliographical essay completely updated for this edition, which provides the reader with a guide to literature on the history of the South. This first volume also includes updated chapters, tables, preface and prologue.

Agrarian Elites Enrico Dal Lago, 2005-11-01. Between 1815 and 1861, American slaveholders and southern Italian landowners presided over the economic and social life of two predominantly agricultural regions: the U.S. South and Italy's Mezzogiorno. Enrico Dal Lago ingeniously compares these agrarian elites, demonstrating how the study of each enhances our understanding of the other as well as of their shared nineteenth-century world. *Agrarian Elites* charts the parallel developments of plantations and latifondi in relation to changes in the world economy. At the same time, it examines the spread of paternalistic models of family.

relations and of slave and free labor management that accompanied the rise of large groups of American slaveholders and southern Italian landed proprietors in the early to mid 1800s According to Dal Lago the most articulate and enlightened members of both elites combined the pursuit of profit with the implementation of modern contractual practices in dealing with their workforces Both elites also used their economic and social power for political advantage opposing the intervention of their national governments in local affairs The search for ever better protection of their respective interests in slaveholding and landed property led ultimately to their support for the creation of two nations the Confederate States of America and the Kingdom of Italy both in 1861 Dal Lago brings together two subjects that have generated considerable debate and research systems of slave and nominally free labor and the elites who employed them and nineteenth century nationalism With its pathbreaking approach and singular and comparative insights Agrarian Elites will inform not only American and Italian studies but also the very practice of comparative history

The Root of All Evil Kenneth Moore Startup,1997 In *The Root of All Evil* Kenneth Moore Startup looks to the sermons and writings of Protestant clergy to better understand the driving forces behind the antebellum southern economy During this period of unprecedented American expansion he finds clerics of all denominations on both sides of the Mason Dixon line displayed a remarkable unanimity in their condemnation of mammonism the open pursuit of wealth conspicuous consumption lack of charity and contempt of honest labor This trend the clergy argued was diverting both North and South from their best interests and would ultimately destroy the nation *The Root of All Evil* represents a challenge to any notion of an economically disinterested southern mind and culture by revealing an Old South in line ideologically with the mainstream of nineteenth century capitalism and also provides useful insights into southern religious life

The Hollow Parties Daniel Schlozman,Sam Rosenfeld,2025-10-28 A major history from the Founding to our embittered present that explains the void Politico at the center of America s political parties Featured on The Ezra Klein Show and The Weekly Show with Jon Stewart America s political parties are hollow shells of what they could be locked in a polarized struggle for power and unrooted as civic organizations *The Hollow Parties* takes readers from the rise of mass party politics in the Jacksonian era through the years of Barack Obama and Donald Trump Today s parties at once overbearing and ineffectual have emerged from the interplay of multiple party traditions that reach back to the Founding Daniel Schlozman and Sam Rosenfeld paint unforgettable portraits of figures such as Martin Van Buren whose pioneering Democrats invented the machinery of the mass political party and Abraham Lincoln and other heroic Republicans of that party s first generation who stood up to the Slave Power And they show how today s fractious party politics arose from the ashes of the New Deal order in the 1970s Activists in the wake of the 1968 Democratic National Convention transformed presidential nominations but failed to lay the foundations for robust movement driven parties Instead modern American conservatism hollowed out the party system deeming it a mere instrument for power Party hollowness lies at the heart of our democratic discontents With historical sweep and political acuity *The Hollow Parties* offers

powerful answers to pressing questions about how the nation's parties became so dysfunctional and how they might yet realize their promise

Martin van Buren and the American Political System Donald B. Cole, 2014-07-14 Donald Cole analyzes the political skills that brought Van Buren the nickname Little Magician describing how he built the Albany Regency which became a model for political party machines and how he created the Democratic party of Andrew Jackson Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Goldbugs and Greenbacks Gretchen Ritter, 1999-06-13 This is a book about the late nineteenth century money debates in American politics and about the role of history in American political development

Capitalism, Slavery, and Republican Values Allen Kaufman, 2014-07-03 In the troubled days before the American Civil War both Northern protectionists and Southern free trade economists saw political economy as the key to understanding the natural laws on which every republican political order should be based They believed that individual freedom was one such law of nature and that this freedom required a market economy in which citizens could freely pursue their particular economic interests and goals But Northern and Southern thinkers alike feared that the pursuit of wealth in a market economy might lead to the replacement of the independent producer by the wage laborer A worker without property is a potential rebel and so the freedom and commerce that give birth to such a worker would seem to be incompatible with preserving the content citizenry necessary for a stable republican political order Around the resolution of this dilemma revolved the great debate on the desirability of slavery in this country Northern protectionists argued that independent labor must be protected at the same time that capitalist development is encouraged Southern free trade economists answered that the formation of a propertyless class is inevitable to keep the nation from anarchy and rebellion slavery justified by racism must be preserved at any cost Battles of the economists such as these left little room for political compromise between North and South as the antebellum United States confronted the corrosive effects of capitalist development And slavery's retardant effect on the Southern economy ultimately created a rift within the South between those who sought to make slavery more like capitalism and those who sought to make capitalism more like slavery

The Presidency of Martin Van Buren Major L. Wilson, 1984 Martin Van Buren eighth president of the United States has been judged harshly by some historians as a politician by trade and a spoilsman without principles a little magician who was interested only in his own advancement This volume provides a thorough recounting of the events and decisions of Van Buren's White House years 1837-1841 and adds to the positive reappraisal of Van Buren as an able statesman and effective chief executive Wilson stresses that Van Buren faced the major problems of his presidency with courage and consistency and that he brought repose to a nation wrenched both by

sectional differences and by the violent fluctuations of economic expansion and contraction Wilson discusses Van Buren's close relationship with Andrew Jackson and substantially qualifies the persistent interpretation of the Van Buren presidency as the third term of Jackson. Van Buren, a pragmatic Jeffersonian with a statesmanlike concern for order, reversed Jackson's priorities. Wilson describes how Van Buren resolved the crisis with Mexico and succeeded in keeping peace with Britain at a time when incidents arising out of rebellion in Canada and the disputed Maine boundary might have precipitated war. The most distinctive contribution of this volume is its in-depth analysis of the economic and political aspects of Van Buren's domestic policy, especially the Independent Treasury, the issue that gave basic shape to his entire presidency. Jackson had divorced the Treasury from the national bank; Van Buren took one further step and rendered the operations of the Treasury independent of the state banks as well. By the end of his term, debate on the issues of currency and enterprise had brought the second party system in the U.S. to maturity. In 1840, Van Buren's views in this area would cost him reelection. This study sheds light on a turbulent period in American history and contributes to our understanding of Martin Van Buren's achievements. He kept the nation out of war, reduced sectional tensions, and established the basis for a fiscal policy which he believed would bring greater stability to economic development.

Henry Clay James C. Klotter, 2018-07-02 Charismatic, charming, and one of the best orators of his era, Henry Clay seemed to have it all. He offered a comprehensive plan of change for America and he directed national affairs as Speaker of the House, as Secretary of State to John Quincy Adams, the man he put in office, and as acknowledged leader of the Whig party. As the broker of the Missouri Compromise and the Compromise of 1850, Henry Clay fought to keep a young nation united when westward expansion and slavery threatened to tear it apart. Yet despite his talent and achievements, Henry Clay never became president. Three times he received Electoral College votes; twice more he sought his party's nomination, yet each time he was defeated. Alongside fellow senatorial greats Daniel Webster and John C. Calhoun, Clay was in the mix almost every moment from 1824 to 1848. Given his prominence, perhaps the years should be termed not the Jacksonian Era but rather the Age of Clay. James C. Klotter uses new research and offers a more focused, nuanced explanation of Clay's programs and politics in order to answer the question of why the man they called "The Great Rejected" never won the presidency but did win the accolades of history. Klotter's fresh outlook reveals that the best monument to Henry Clay is the fact that the United States remains one country, one nation, one example of a successful democracy, still working, still changing, still reflecting his spirit. The appeal of Henry Clay and his emphasis on compromise still resonate in a society seeking less partisanship and more efforts at conciliation.

American Studies Jack Salzman, 1986-08-29 This is an annotated bibliography of 20th-century books through 1983 and is a reworking of *American Studies: An Annotated Bibliography of Works on the Civilization of the United States*, published in 1982. Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America, it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or

methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00 **Justice Curtis in the Civil War Era** Stuart Streichler, 2005 This book presents a constitutional history of the Civil War era by focusing on Justice Benjamin Robbins Curtis 1809 1874 pref **The Dawning of American Labor** Brian Greenberg, 2017-11-29 A concise history of labor and work in America from the birth of the Republic to the Industrial Age and beyond From the days of Thomas Jefferson Americans believed that they could sustain a capitalist industrial economy without the class conflict or negative socioeconomic consequences experienced in Europe This dream came crashing down in 1877 when the Great Strike one of the most militant labor disputes in US history convulsed the nation s railroads In *The Dawning of American Labor* a leading scholar of American labor history draws upon first hand accounts and the latest scholarship to offer a fascinating look at how Americans perceived and adapted to the shift from a largely agrarian economy to one dominated by manufacturing For the generations following the Great Strike the Labor Problem and the idea of class relations became a critical issue facing the nation As Professor Greenberg makes clear in this lively highly accessible historical exploration the 1877 strike forever cast a shadow across one of the most deeply rooted articles of national faith the belief in American exceptionalism What conditions produced the faith in a classless society What went wrong These questions lie at the heart of *The Dawning of American Labor* Provides a concise comprehensive and completely up to date synthesis of the latest scholarship on the early development of industrialization in the United States Considers how working people reacted both in the workplace and in their communities as the nation s economy made its shift from an agrarian to an industrial base Includes a formal Bibliographical Essay a handy tool for student research Works as a stand alone text or an ideal supplement to core curricula in US History US Labor and 19th Century America Accessible introductory text for students in American history classes and beyond *The Dawning of American Labor* is an excellent introduction to the history of labor in the United States for students and general readers of history alike *Historical Dictionary of the Old South* William L. Richter, 2013-02-28 The South played a prominent role in early American history and its position was certainly strong and proud except for the peculiar institution of slavery Thus it drew away from the rest of an expanding nation and in 1861 declared secession and developed a Confederacy that ultimately lost the war Indeed for some time it was occupied Thus the South has a very mixed legacy with good and bad aspects and sometimes the two of them mixed Which only enhances the need for a careful and balanced approach This can be found in the *Historical Dictionary of the Old South* which first traces its history from colonial times to the end of the Civil War in a substantial chronology Particularly interesting is the introduction which analyzes the rise and the fall the good and the bad as well as the middling and indifferent over nigh on two centuries The details are filled in very amply in over 600 dictionary

entries on the politics economy society and culture of the Old South An ample bibliography directs students and researchers toward other sources of information

Enjoying the Melody of Phrase: An Psychological Symphony within **The Jacksonian Persuasion Politics And Belief**

In some sort of eaten by monitors and the ceaseless chatter of quick connection, the melodic elegance and psychological symphony produced by the written term usually disappear in to the backdrop, eclipsed by the relentless sound and interruptions that permeate our lives. But, set within the pages of **The Jacksonian Persuasion Politics And Belief** a charming fictional treasure overflowing with raw feelings, lies an immersive symphony waiting to be embraced. Crafted by a wonderful composer of language, this charming masterpiece conducts visitors on a psychological journey, well unraveling the hidden melodies and profound impact resonating within each cautiously constructed phrase. Within the depths of the moving assessment, we shall explore the book is key harmonies, analyze their enthralling writing fashion, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
