Infinitive of Go John Brunner, 2012-07-16 CODE NAME POSTER The first practical matter transmitter was a success or so everyone thought In spite of paranoid security restrictions Justin Williams and Cinnamon Wright co inventors of the device counted on it to revolutionise civilisation and gain them an honoured place in history But the first long distance field test with a human being a diplomatic courier carrying a vital message somehow misfired when the courier killed himself on arrival at his destination To prove his faith in his invention and to escape charges of sabotage Justin had himself posted thousands of miles He came through unchanged It was the world that was somehow different John Brunner Jad Smith, 2013-01-30

Under his own name and numerous pseudonyms John Brunner 1934 1995 was one of the most prolific and influential science fiction authors of the late twentieth century During his exemplary career the British author wrote with a stamina matched by only a few other great science fiction writers and with a literary quality of even fewer importing modernist techniques into his novels and stories and probing every major theme of his generation robotics racism drugs space exploration technological warfare and ecology In this first intensive review of Brunner's life and works Jad Smith carefully demonstrates how Brunner's much neglected early fiction laid the foundation for his classic Stand on Zanzibar and other major works such as The Jagged Orbit The Sheep Look Up and The Shockwave Rider Making extensive use of Brunner's letters columns speeches and

interviews published in fanzines Smith approaches Brunner in the context of markets and trends that affected many writers of the time including Brunner's uneasy association with the New Wave of science fiction in the 1960s and 70s This landmark study shows how Brunner's attempts to cross fertilize the American pulp tradition with British scientific romance complicated the distinctions between genre and mainstream fiction and between hard and soft science fiction and helped carve out space for emerging modes such as cyberpunk slipstream and biopunk

The Avengers of Carrig John Brunner, 2011-09-29 Once the city of Carrig stood supreme on this planet that had been settled by space refugees in the distant forgotten past From every corner of this primitive lost world caravans came to trade and to view the great King Hunt the gruesome test by which the people of Carrig chose their rulers Then from space came new arrivals And with them came their invincible death guns and their ruthless all powerful tyranny Now there would be no King Hunt in Carrig or hope for the planet unless a fool hardy high born named Saikmar and a beautiful Earthling space spy named Maddalena could do the impossible First published 1969
