Word and Image in Japanese Cinema Dennis Washburn, Carole Cavanaugh, 2001 Word and Image in Japanese Cinema examines the complex relationship between the temporal order of linguistic narrative and the spatiality of visual spectacle a dynamic that has played an important role in much of Japanese film The tension between the controlling order of words and the liberating fragmentation of images has been an important force that has shaped modern culture in Japan and that has also determined the evolution of its cinema In exploring the rift between word and image the essays in this volume clarify the cultural imperatives that Japanese cinema reflects as well as the ways in which the dialectic of word and image has informed the understanding and critical reception of Japanese cinema in the West

High, 2003 From the late 1920s through World War II film became a crucial tool in the state of Japan Detailing the way Japanese directors scriptwriters company officials and bureaucrats colluded to produce films that supported the war effort Imperial Screen is a highly readable account of the realities of cultural life in wartime Japan High's treatment of the Japanese film world as a microcosm of the entire sphere of Japanese wartime culture demonstrates what happens when conscientious artists and intellectuals become enmeshed in a totalitarian regime This English language edition is revised and expanded from the original Japanese edition
