Bindas,2001 It was for stage bands for dancing and for a jiving mood of letting go Throughout the nation swing re sounded with the spirit of good times But this pop genre for a decade America s favorite arose during the worst of times the Great Depression From its peak in the 1930s until bebop r b and country swamped it after World War II swing defined an American

generation and measured America's musical heartbeat. In its heyday swing reached a mass audience of very disparate individuals and united them. They perceived in the tempers and tempos of swing the very definition of modernity. A survey of the thirties reveals that the time was indeed the Swing Era. America's segue into modernity. What social structures encouraged swing's creation, acceptance and popularity? *Swing That Modern Sound* examines the cultural and historical significance of swing and tells how and why it achieved its audience, unified its fans, defined its generation and after World War II fell into decline. What fed the music? And in turn what did the music feed? This book shows that swing manifested the kind of up-to-date allure that the populace craved. Swing sounded modern, happy, optimistic. It flouted the hardship signals of the Great Depression. The key to its rise and appeal, this book argues, was its all-out appropriation of modernity: consumer advertising, the language and symbols of consumption and the public's all too evident wish for goods during a period of scarcity. As it examines the role of race, class and gender in the creation of this modern music, *Swing That Modern Sound* tells how a music genre came to symbolize the cultural revolution taking place in America.

Kenneth J. Bindas is an associate professor of history at Kent State University Trumbull Campus in Warren, Ohio. He is the author of *All of This Music Belongs to the Nation: The WPA's Federal Music Project and American Society, 1935-1939* (Cadence All-years Index, 1976-1992) and *Tom Lord, 1989*.

**Relating** Leslie A. Baxter, Barbara M. Montgomery, 1996-05-17. Drawing upon the dialogism of social theorist Mikhail Bakhtin, the authors reconceive the core ideas of interpersonal communication: relationship development, closeness, certainty, openness, communication competence and the boundaries between self, relationship and society.
