**STRATEGIES FOR REFLECTIVE TEACHING PRACTICES** Dr. N. S. Sumamol, 2019-06-27 A nation's progress is determined by the quality of education imparted to its citizens. Education aims at the development of the power of adaptation to the ever-changing social environment. It is the most powerful instrument whose effective use requires the strength of will, dedicated work and sacrifice. Since this instrument is in the hands of teachers, they must possess the above-mentioned qualities for its effective use. Thus, education is responsible for the development of desirable habits, skills and attitudes which make an individual a good citizen. The need of the society is always fulfilled through the education system prevailing in that society. *Jigsaw Process In Education: The Way For Joyful Self Learning* P.K. Sudheesh Kumar, P.
