**P. Eric Louw**

## **The Journalist In Platos Cave:**

**The Journalist in Plato's Cave** Jay Newman,1989 A provocative study of the complex relations between philosophy and journalism The discussion addresses such subjects as the essential nature of journalism news value the relation of journalism to education the ideal of a free press and practical strategies for press reform and the improvement of journalism

**Journalism Ethics Goes to the Movies** Howard Good,2008 Journalism Ethics Goes to the Movies poses urgent questions about journalism ethics and offers candid answers As the title suggests the authors some of the nation s leading journalism scholars investigate popular movies to illustrate the kind of ethical dilemmas journalists *Journalism* Gordon Stuart Adam,Roy Peter Clark,2006 By combining engaging readings and practical instruction this textbook integrates journalism theory and practice Students are guided through the craft while enhancing their critical thinking skills and overall understanding of the field of journalism

**The Routledge Handbook of Religion and Journalism** Kerstin Radde-Antweiler,Xenia Zeiler,2020-10-29 The Routledge Handbook of Religion and Journalism is an outstanding reference source to the key topics challenges past and present global issues and debates in this exciting subject The first collection of its kind this volume comprises over 25 chapters by a team of international contributors This Handbook is divided into five parts each taking global developments in the field into account Theoretical Reflections Power and Authority Conflict Radicalization and Populism Dialogue and Peacebuilding Trends Within these sections central issues debates and developments are examined including religious and secular press ethics globalization gender datafication differentiation journalistic religious literacy race and religious extremism This volume is essential reading for students and researchers in journalism and religious studies This Handbook will also be very useful for those in related fields such as sociology communication studies media studies and area studies

**The Mind of a Journalist** Jim Willis,2010 What propels an individual into becoming a professional observer and chronicler of society joining a group that is often targeted for criticism by the general public Can a journalist really have an objective view of the world and the way it operates or do journalists each operate from a specific worldview parts of which are held in common by all journalists Do journalists feel they can become involved in normal social and civic activities or is the world a detached storehouse of ideas for stories Is the journalist most effective on the sidelines of society or in getting involved in the action or taking to the field as a referee or field judge If journalists are so devoted to the ideals of objectivity detachment truth and providing an accurate view of the world why do so many of them leave journalism and move into public relations media consulting and advertising These are just some of the issues explored in The Mind of a Journalist How Reporters See Themselves Their Stories and the World For students and would be journalists this book analyzes the rational processes journalists use in defining themselves their world and their relation to that world Written by veteran journalist and noted professor Jim Willis with many observations from working and recently retired journalists from both print and broadcast the goal of the book is to put this discussion of

journalist thinking into the classroom alongside discussion of reporting and writing techniques Ultimately the book provides added insights to how journalists think and why they do what they do Features Benefits Included throughout the book are many observations interviews from working journalists at such media outlets as The Los Angeles Times The Boston Globe CNN The Memphis Commercial Appeal WRTV Television in Indianapolis and The Daily Oklahoman A running single story example President s Bush s decision to invade Iraq in 2003 shows how the same story was treated by several different journalist mindsets and thereby examining how these different mindsets defined the issues of truth ethics and legality for this story

Morals and the Media Nick Russell,1994 Confronted daily with decisions on how to present their stories whatto write and what not to write journalists and the media are frequently accused of sensationalizing of choosing to report the badnews and of misquoting those they interview In this substantially updated edition of Morals and the Media Nick Russell addresses many of the concerns the public has about the media as he examines why the media behave the way they do He also discusses how values have been developed and applied and suggests value systems that can be used to judge special situations

**Twilight of Press Freedom** John C. Merrill, Peter J. Gade, Frederick R. Blevens, 2001-04-01 This volume offers a historical philosophical and practical critique of public and civic journalism a movement that gained momentum in the final decade of the 20th century During that period proponents of the movement have published nearly a dozen books expanding upon and expounding the virtues of journalism seeking to repair what is thought to be the torn social political and moral fabric in America Although previous works have established a strong practical underpinning for public and civic journalism none has examined its philosophical roots or challenged its methodology and grounding in neoliberal constructs This volume does just that tracing its origins in early philosophy to the current newsroom policies and practices that conflict with traditional constructs in libertarian press theory Twilight of Press Freedom postulates that institutionalized journalism is fading away and world journalism prompted by the people is veering toward more order and social harmony and away from the traditional idea of the great value of press freedom The volume provides a critical examination of the trend toward public journalism and considers how press freedom will be impacted by this trend in coming years Scholars and students in journalism public opinion and media studies will find this book insightful and invaluable

*Controversies in Media Ethics* A. David Gordon, John Michael Kittross, John C. Merrill, William Babcock, Michael Dorsher, 2012-05-23 *Controversies in Media Ethics* offers students instructors and professionals multiple perspectives on media ethics issues presenting vast gray areas and few if any easy answers This third edition includes a wide range of subjects and demonstrates a willingness to tackle the problems raised by new technologies new media new politics and new economics The core of the text is formed by 14 chapters each of which deals with a particular problem or likelihood of ethical dilemma presented as different points of view on the topic in question as argued by two or more contributing authors The 15th chapter is a collection of mini chapters allowing students to discern first hand how to deal with ethical problems Contributing authors John A Armstrong Peter J

Gade Julianne H Newton Kim Sheehan and Jane B Singer provide additional voices and perspectives on various topics under discussion This edition has been thoroughly updated to provide discussions of issues reflecting the breadth and depth of the media spectrum numerous real world examples broad discussion of confidentiality and other timely topics A Companion Website [www.routledge.com/textbooks/9780415963329](http://www.routledge.com/textbooks/9780415963329) supplies resources for both students and instructors You can also join the Controversies community on Facebook <http://www.facebook.com/CME3rd> Developed for use in media ethics courses Controversies in Media Ethics provides up to date discussions and analysis of ethical situations across a variety of media including issues dealing with the Internet and new media It provides a unique consideration of ethical concerns and serves as provocative reading for all media students

**From Yahweh to Yahoo!** Doug Underwood, 2010-10-01 Presenting religion as journalism's silent partner From Yahweh to Yahoo provides a fresh and surprising view of the religious impulses at work in contemporary newsrooms Focusing on how the history of religion in the United States entwines with the growth of the media Doug Underwood argues that American journalists draw from the nation's moral and religious heritage and operate in important ways as personifications of the old religious virtues Underwood traces religion's influence on mass communication from the biblical prophets to the Protestant Reformation from the muckraker and Social Gospel campaigns of the late nineteenth and early twentieth centuries to the modern age of mass media While forces have pushed journalists away from identifying themselves with religion they still approach such secular topics as science technology and psychology in reverential ways Underwood's thoughtful analysis covers the press's formulaic coverage of spiritual experience its failure to cover new and non-Christian religions in America and the complicity of the mainstream media in launching the religious broadcasting movement

**The Government Factor** Richard T. Kaplar, Patrick D. Maines, 1995 The role of government in determining journalists' ethical decision making

**The Big Picture** Jeffrey Scheuer, 2012-09-10 Freedom of the press is the cornerstone of democracy But as countless recent examples of lapsed standards in the press since the Jayson Blair affair have shown the First Amendment is no guarantee that American journalism will be first rate A press in crisis is a democracy endangered argues Jeffrey Scheuer cultural critic and author of The Sound Bite Society In his new book The Big Picture Scheuer argues that in order for a democracy to thrive it is not enough for its press simply to be free the press must be exceptional This book explores journalistic excellence and its essential relationship with democracy explaining why democracies depend on it and are only as good as their journalism In The Big Picture Scheuer explores journalistic excellence from three broad perspectives First from the democratic perspective he shows how journalism is a core democratic function and journalistic excellence a core democratic value Then from an intellectual perspective he explores the ways in which journalism addresses basic concepts of truth knowledge objectivity and ideology Finally from an institutional perspective he considers the role and possible future of journalism education the importance of journalistic independence and the potential for nonprofit journalism to meet the journalistic needs of a democratic society In lucid and accessible prose

The Big Picture provocatively demonstrates why we must all be vigilant about the quality of journalism today      **Media Ethics Goes to the Movies** Howard Good, Michael J. Dillon, 2002-03-30 Certain films seem to encapsulate perfectly the often abstract ethical situations that confront the media from truth telling and sensationalism to corporate control and social responsibility Using these movies including *Ace in the Hole* *All the President's Men* *Network* and *Twelve Angry Men* as texts authors Howard Good and Michael Dillon demonstrate that when properly framed and contextualized movies can be a powerful lens through which to examine media practices Moreover cinema can present human moral conduct for evaluation and analysis more effectively than a traditional case study can By presenting ethical dilemmas and theories within a dramatic framework *Media Ethics Goes to the Movies* offers a unique perspective on what it means for media professionals to be both technically competent and morally informed      *The Media Effect* Jim Willis, 2007-06-30 In a postmodern age where the media's depictions of reality serve as stand ins for the real thing for so many Americans how much government policy is being made on the basis of those mediated realities and on the public reaction to them When those mediated depictions deviate from the truth of the actual situation how serious a situation is that Time and again both anecdotal evidence and scientific research seem to confirm that the news media often influence government action At the least they speed up policy making that would otherwise take a slower more reasoned course Sometimes the media serve as the communication link among world leaders who may be ideological enemies Because of the enduring popularity of television news government leaders monitor the networks story selections and track public opinion trends generated by interviews done in these stories These then become the substance of proposed legislation and or executive action as politicians strive to prove themselves able listeners to the heartland of America and also prove themselves worthy of re election This book examines many specific events that show how major news operations either painted a truthful or distorted picture of national and international events and how governmental leaders responded following those representations      **The Oxford Handbook of George Orwell** , 2025-02-02 The Oxford Handbook of George Orwell offers a wide ranging reconsideration of Orwell's life and work focusing on the extensive connections between his novels essays diaries columns letters and reviews Accessible to general readers and to established scholars alike forty eight chapters written by an international team of Orwell specialists address familiar topics such as Orwell's journalism broadcasting literary criticism and politics as well as less well trodden areas of his output such as his accounts of stupidity kindness and justice and his connections with contemporaries like Jack Common Katharine Burdekin Wyndham Lewis and Victor Serge Sections on Orwell's professional activities his main literary influences his politics his intellectual fixations his literary contemporaries and his legacies structure the book which moves thematically and topically through the full scope of his output The first section looks at how Orwell spent his time as a writer reader and broadcaster Chapters on writers from Shakespeare to the modernists investigate the determinants of Orwell's literary practice The book then turns to a set of political contexts in which Orwell's writing can be understood The Fixations section

covers the familiar such as Orwell's account of Englishness and the unfamiliar such as his account of the absurd. The fifth section relates Orwell to several politically minded contemporaries tracing connections and differences between their writing. The final section of the Handbook reflects on how Orwell sounds through several literary and socio-political legacies and includes innovative considerations of feminism, Afrofuturism and queer speculative fiction.

**Inauthentic Culture and Its Philosophical Critics** Jay Newman, 1997. Despite the pervasive feeling that much of the culture of Western democracies has increasingly become inauthentic or phoney, contemporary cultural critics and observers have paid little attention to the traditional philosophical criticism of inauthentic culture.

**The Creation of Reality** Bernhard Poerksen, 2013-07-09. Constructivism has been traded as a new paradigm by its advocates and criticised by its opponents as legitimating deceit and lies as justifying a trendy post-modern 'Anything goes'. In this book Bernhard Poerksen draws up a new rationale for constructivist thinking and charts out directions for the imaginative examination of personal certainties and the certainties of others of ideologies great and small. The focus of the debate is on the author's thesis that our understanding of journalism and in particular the education and training of journalists would profit substantially from constructivist insights. These insights instigate the claim is an original kind of scepticism; they provide the underpinnings of a modern type of didactics oriented by the autonomy of learners and they supply the sustaining arguments for a radical ethic of responsibility in journalism.

**The Media and Political Process** Eric Louw, 2010-03-12. How have professional communicators transformed the business of politics? How do political bodies use the media to sell domestic and foreign policies to the public? This fully revised new edition of *The Media and Political Process* assesses the impact of spin-doctoring and media activity in liberal democracies that are just as concerned with impression management and public relations as with policy. Political processes never stand still and this revised second edition explores the mediatization of the political process in light of recent developments from Vladimir Putin's growth into a political celebrity to the activities of spin-doctors in the 2008 US Presidential Elections. Providing a comprehensive overview of the evolution, operation and terminology of political communication, this text is an accessible, lively resource for students of political communication and media and politics and will be important further reading for students of journalism, public relations and cultural studies.

**Moral Reasoning for Journalists** Steven Knowlton, Bill Reader, 2008-12-23. Despite the fact that the public's trust in the news media is at historic lows, despite the fact that hardly a day goes by without another report of unethical behavior by news professionals, journalists and teachers remain dedicated to ethical issues, perhaps more so now than at any other time in history. News companies are developing rigorous codes of conduct, journalists and editors are vigorously reporting on ethical lapses by their peers and many journalism schools are creating standalone courses in journalism ethics and hiring faculty members who are devoted to ethics research and instruction. Using more than two dozen actual cases from around the world to examine and apply those principles of ethical journalism, Knowlton and Reader suggest an easy-to-follow commonsense approach to making ethical decisions in the newsroom as deadlines loom.

Moral Reasoning for Journalists serves as an introduction to the underpinnings of journalism ethics and as a guide for journalists and journalism teachers looking for ways to make ethical choices beyond going with your gut     *Discovering Journalism* Warren G. Bovee, 1999-04-30 Journalism is the branch of mass communications that provides people with the knowledge they need to make informed decisions about issues affecting their personal and public lives Journalism not only provides news but also presents interpretation evaluation and persuasion Any discussion about journalism requires a common understanding of basic terms and concepts By defining what journalism is this book provides the answers to many current questions and debates about the current state of the mass media What is news Is journalism concerned with more than news What are the purposes of editorials Is it good or bad to combine journalism and fiction Is it possible to report the news objectively How are public relations and advertising related to journalism This book will appeal to all persons seeking a solid understanding and knowledge about the functions and responsibilities of journalism Terms are specifically defined and related to the broad context of mass communications     The Media and Political Process P. Eric Louw, 2005-05-20 The Media and Political Process examines the increasingly topical subject of the political process and assesses The nature of the relationship between mass media and the political process The impact of media ization on existing political frameworks The implications of media ized politics Eric Louw uses a number of case studies including political celebrity war and terrorism to provide a media studies perspective on how media workers journalists public affairs officers spin doctors impact upon the political process The book also considers the media s role in promoting a range of twentieth century ideologies and emerging dominant discourses

### **The Journalist In Platos Cave Introduction**

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In todays fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free The Journalist In Platos Cave PDF books and manuals is the internets largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free The Journalist In Platos Cave PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries,

ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of The Journalist In Platos Cave free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

### FAQs About The Journalist In Platos Cave Books

1. Where can I buy The Journalist In Platos Cave books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
