The Judgment Of Paris:

The Judgment of Paris Hubert Damisch, 1996-06-15 Drawing on Freudian theories of sexuality and Kant's conception of the beautiful French art historian Hubert Damisch considers artists as diverse as Raphael, Picasso, Watteau and Manet to demonstrate that beauty has always been connected to ideas of sexual difference and pleasure. Damisch's tale begins with the judgment of Paris in which Paris awards Venus the golden apple and thus forever links beauty with desire. The casting of this decision as a mistake in which desire is rewarded over wisdom and strength is then linked to theories of the unconscious and psychological drives. In his quest for an exposition of the beautiful in its relation to visual pleasure, Damisch employs what he terms analytic iconology, following the revisions and repetitions of the motif of the judgment through art history, philosophy, aesthetics and psychoanalysis. This translation brings an important figure of the French art historical tradition to Anglo-American audiences. *The Judgment of Paris* Ross King, 2009-05-26 With a novelist's skill and the insight of an historian, bestselling author Ross King recalls a seminal period when Paris was the artistic center of the world and the rivalry between Meissonier and Manet. *The Judgment of Paris* chronicles the dramatic decade between two famous exhibitions: the scandalous Salon des Refusés in 1863 and the first Impressionist showing in 1874, set against the rise and dramatic fall of Napoleon III and the Second Empire after the Franco-Prussian War. A tale of many artists, it revolves around the lives of two described as the two poles of art: Ernest Meissonier, the most famous and successful painter of the 19th century, hailed for his precision and devotion to history; and Edouard Manet, reviled in his time, who nonetheless heralded the most radical change in the history of art since the Renaissance. Out of the fascinating story of their parallel lives, illuminated by their legendary supporters and critics: Zola, Delacroix, Courbet, Baudelaire, Whistler, Monet, Hugo, Degas, and many more, Ross King shows that their contest was not just about art; it was about competing visions of a rapidly changing world. *The Judgment of Paris* John Weldon, 1999-01-01 The 18th century was a wealth of knowledge, exploration, and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time, these high-quality digital copies of original 18th-century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. Western literary study flows out of eighteenth-century works by Alexander Pope, Daniel Defoe, Henry Fielding, Frances Burney, Denis Diderot, Johann Gottfried Herder, Johann Wolfgang von Goethe, and others.
