*The Intelligence Wars: Logos Versus Mythos* Joe Dixon, 2018-03-07 The most apocalyptic war of all is coming The battleground of Armageddon is being prepared The war will not be between the forces of good and evil but between the intelligent and the stupid Intelligent humanity 10% of the human race will take on Stupid humanity the remaining 90% The legions of dunces clowns idiots and Dunning Kruger fantasists will expect to use their sheer force of numbers to overwhelm the smart But they will never even see their enemy let alone engage them The smart people will be using weapons that they will deploy from thousands of miles away The dunces won't know what hit them They will be praying to their gods or meditating when they are engulfed by the Apocalypse Too late they will grasp that knowledge is power that prayers and meditation have never achieved a single worthwhile thing The Logos species have always lacked the will to beat the Mythos species Once they have the will nothing will stop them The End Game is coming It's time to choose your side

*Vaidik Entrepreneurship: Ancient Wisdom for Modern Ventures* Parveen Chauhan,B. S. Rathore,Anil,2025-08-12 Step into the cathedral of modern commerce The air is electric with the dialect of disruption the litanies of lean startups and the fervent prayers for a billion dollar valuation The high priests of venture capital preach from the gospel of growth while founders and their teams make daily offerings at the altar of the algorithm Our sacred texts are pitch decks our mantras are Key Performance Indicators and our ultimate salvation is a successful exit This is the world of the 21st century entrepreneur a world of breathtaking velocity dazzling intellectual power and ferocious world shaping ambition And yet within these gleaming walls a quiet heresy is spreading It is a feeling a deep and unsettling ache that persists even after the funding round is closed or the growth targets are met It is the modern entrepreneur s dilemma We build ventures designed to connect the world only to feel more isolated ourselves We create platforms to save people time only to find our own lives consumed by them We are celebrated for our grit and our hustle but privately we confess to an overwhelming sense of sophisticated exhaustion Burnout is no longer a risk it has become a rite of passage Ethical compromises once seen as shocking betrayals are now quietly rationalized as the necessary cost of competition We are masters of the how but we have become tragically estranged from the why This is more than just a personal crisis for a few overworked founders It is a systemic failure The operating model that has powered global capitalism for the last century a model built on the singular unwavering pursuit of shareholder value is proving itself profoundly insufficient for holistic

success It is a paradigm that in its relentless drive to extract financial value has systematically externalized its true costs onto its other stakeholders The environment bears the cost of our resource depletion The community bears the cost of our social dislocation Our employees bear the cost of our unsustainable work cultures And we the entrepreneurs bear the cost in our own depleted souls The engine is powerful but it is running on the wrong fuel and it is filling the air with a toxic smog of purpose fatigue The call for a new paradigm is no longer a gentle whisper it is a deafening roar This book is an answer to that call It proposes that the blueprint for a more conscious sustainable and fulfilling form of enterprise does not lie in the next tech trend or management fad It lies waiting to be rediscovered in one of the most ancient and profound sources of human wisdom the Vaidik tradition of India Let us be clear from the outset this is not a book about religion It is a book about philosophy It is not an attempt to advocate for any dogma or ritual but to engage with the Vedas and their philosophical offshoots the Upanishads the Bhagavad Gita the Yoga Sutras as a timeless and universal framework for conscious creation The root of the word Veda is Vid which means to know The Vaidik tradition is at its core a science of knowledge both of the outer world and most importantly the inner world Vaidik Entrepreneurship as we will explore it is a practical methodology for building ventures that are simultaneously prosperous purposeful and deeply aligned with the natural order of things It is a system that integrates the pursuit of material success with the quest for spiritual and ethical fulfillment It offers a set of powerful time tested principles that provide a stable inner compass for navigating the chaotic outer world of the modern market It is a path that honors the full spectrum of human life refusing to sacrifice our well being our values or our planet for the sake of a narrowly defined profit This book is designed to be your guide on a transformative journey It will take you from the highest peaks of ancient philosophy to the most practical on the ground realities of running your business Our journey will be structured in three parts First we will lay the philosophical bedrock We will reframe the Vedas as a source of universal knowledge not just ritual We will introduce the core concepts of Ritam the cosmic harmony that a successful venture must align with and the Rishi the archetypal seer who serves as our model for the conscious innovator We will then construct a new holistic scorecard for success based on the four Purusharthas the legitimate aims of a human life Purpose Dharma Prosperity Artha Delight Kama and Legacy Moksha Next we will delve into the Vaidik Entrepreneur's Playbook translating these profound ideas into actionable strategy We will begin with the sacred inner work of discovering your Svadharma your authentic niche ensuring the business you build is a true expression of who you are We will re imagine your venture not as a machine but as a Yajna a sacred offering and your products as Prasad a blessed gift to your community We will explore the three Gunas as a powerful framework for building a balanced and harmonious team and we will learn the art of Karma Yoga the path of detached action that builds unshakeable resilience in a leader Finally we will bring this ancient wisdom firmly into the 21st century We will expand our vision to embrace our global responsibility through the principles of Loka Sangraha for the welfare of the world and Vasudhaiva Kutumbakam the world is one family We will build a new

practical dashboard for measuring what truly matters moving beyond a narrow ROI to a holistic assessment of your venture's health. We will look at real world case studies and crucially we will confront the most difficult challenges and criticisms of this path head on. This book is an invitation. It is an invitation to step beyond the hustle culture and to begin a search for a deeper meaning in your work. It is a promise that you do not have to choose between success and significance, between wealth and well being. It offers a map and a compass to a different way, a way to build a venture that not only succeeds in the world but also enriches it, a venture that not only scales but also has a soul. The journey begins now. **My Experiment With Failures**
