The Kautiliya Arthashastra Volii:

Kautilya's Arthashastra Medha Bisht, 2019-08-16 This book examines in detail the strategic relevance of the Arthashastra. Attributed to the fourth century B C this classical treatise on state and statecraft rests at the intersection of political theory and international relations. Adopting a hermeneutic approach the book discusses certain homologies related to concepts such as power order and morality. Underlining the conceptual value of the Arthashastra and classical texts such as Hitopdesha and Pancatantra this volume highlights the non western perspectives related to diplomacy and statecraft. It shows how a comparative analysis of these texts reveals a continuity rather than a change in the styles tactics and political strategies. The book also showcases the value these ancient texts can bring to the study of contemporary international relations and political theory. This volume will be of interest to students scholars and teachers of political studies Indian political thought and philosophy South Asian studies political theory and international relations.

The Arthashastra for Children Deepa Agarwal, 2023-10-23 India's gift to the world Kautilya's Arthashastra addresses almost every aspect of governance from the duties and objectives of the ruler to social welfare financial management town planning law and justice and foreign affairs. Lost for centuries it was miraculously rediscovered by Rudrapatna Shamasastri a Sanskrit scholar in 1905 CE. This version especially adapted for young readers aims to acquaint them with a heritage work while providing insights into the nitty gritty of running a country. Using examples from history as well as current geopolitics it attempts to illustrate how Kautilya's theories of governance remain as relevant as they were two thousand years ago.

Mapping Feminist International Relations in South Asia Shweta Singh, Amena Mohsin, 2024-12-30 This book provides a comprehensive overview of feminist international relations in South Asia. It highlights the key contentions, debates, and tensions in the field and studies how the trajectory of feminist international relations in the region has been marked by dialogue, dissidence, and difference with the Global North. In doing so, the volume draws attention to different feminist histories, herstories, and differing ways of knowing, seeing, and doing global politics. It particularly foregrounds a feminist intersectional postcolonial lens to a diverse range of issues such as women, peace, and the security agenda, populism, and nationalism, militarism, and militarisation, and underlines the rich, textured contours of feminist epistemologies in South Asia. An important contribution, the book will be of great interest to scholars, teachers, and students of feminism, international relations, postcolonialism, women's studies, gender studies, security studies, and South Asian studies. ARTHASHASTRA Kautilya, 2000-10-14 An extraordinary, detailed manual on statecraft and the science of living by one of classical India's greatest minds. Kautilya, also known as Chanakya and Vishnugupta, wrote the Arthashastra not later than 150 AD, though the date has not been conclusively established. Legend has it that he was either a Brahmin from Kerala or from north India; however, it is certain that Kautilya was the man who destroyed the Nanda dynasty and installed Chandragupta Maurya as the King of Magadha. A master strategist who was well-versed in the Vedas and adept at creating intrigues and devising political stratagems, Kautilya's genius is reflected in his Arthashastra, which is the most comprehensive treatise of statecraft of classical times. The text contains fifteen books which cover numerous topics, viz. the King, a complete code of law, foreign policy, secret and occult practices, and so on. The Arthashastra is written mainly in prose but also incorporates 380 shlokas. Artha, literally wealth, is one of four supreme aims prescribed by Hindu tradition. However, it has a much wider significance, and the material well-being of individuals is just a part of it. In accordance with this, Kautilya's Arthashastra maintains that the state or government of a country has a vital role to play in maintaining the material status of both the nation and its people. Therefore, a significant part of the Arthashastra has to do with the science of economics. When it deals with the science of politics, the Arthashastra describes in detail the art of government in its widest sense: the maintenance of law and order, as also of an efficient administrative machinery. **Kautilyan Arthashastra** M. Justin: Epitome of the Philippic History of Pompeius Trogus: Volume II: Books 13-15 Marcus Junianus Justinus, 2011-12-15 Pompeius Trogus, a Romanized Gaul living in the age of Augustus, wrote a forty-four book universal history, *The Philippic History of the non-Roman Mediterranean world*. This work was later abbreviated by M. Junianus Justinus. Alexander the Great's life has been examined in minute detail by scholars for many decades, but the period of chaos that ensued after his death in 323 BC has received much less attention. Few historical sources recount the history of this period; consecutively, Justin's abbreviated epitome of the lost Philippic history of Pompeius Trogus is the only relatively continuous

account we have left of the events that transpired in the 40 years from 323 BC This volume supplies a historical analysis of this unique source for the difficult period of Alexander s Successors up to 297 BC a full translation and running commentary on Books 13 15 **Studies in Indo-Muslim History by S.H.
