The Heritage of Soviet Oriental Studies Michael Kemper, Stephan Conermann, 2011-02-01 This book examines the Russian Soviet intellectual tradition of Oriental and Islamic studies which comprised a rich body of knowledge especially on Central Asia and the Caucasus The Soviet Oriental tradition was deeply linked to politics probably even more than other European Orientalisms It breaks new ground by providing Western and post Soviet insider views especially on the features that set Soviet Oriental studies apart from what we know about its Western counterparts for example the involvement of scholars in state supported anti Islamic agitation the early and strong integration of Orientals into the scientific institutions the spread of Oriental scholarship over the Oriental republics of the USSR and its role in the Marxist reinterpretation of the histories of these areas The authors demonstrate the declared emancipating agenda of Soviet scholarship with its rhetoric of anti colonialism and anti imperialism made Oriental studies a formidable tool for Soviet foreign policy towards the Muslim World and just like in the West the Iranian Revolution and the mujahidin resistance to the Soviet occupation of Afghanistan necessitated a thorough redefinition of Soviet Islamic studies in the early 1980s Overall the book provides a comprehensive analysis of Soviet Oriental studies exploring different aspects of writing on Islam and Muslim history societies and literatures It also shows how the legacy of Soviet Oriental studies is still alive especially in terms of interpretative frameworks and methodology after 1991 Soviet views on Islam have contributed significantly to nation building in the various post Soviet and Russian Muslim republics

Kazakhstan and the Soviet Legacy

Jean-François Caron, 2019-03-26 This book examines Kazakhstan's struggle to distance itself from its Soviet past over 25 years after its independence. To a very large extent, the affirmation of its sovereignty and a unique Kazakhstani way remain largely a matter of rhetoric. This book looks to explain the various aspects that show the continuity of Kazakhstan's political system and governance with its colonial legacy: namely through its foreign policy, the country's environmental policies, the judicial system, the management of religious diversity, the way youth organizations are structured and administered, or how those who were born after the collapse of the Soviet Union are still showing a typical Soviet behavioral attitude towards the political sphere. What are the reasons for this reluctance or incapacity to break away from these ties of the past? Will the unavoidable political transition that will bring new individuals to the head of the state contribute to a real change? Will this lead to a break with the country's past and a radical shift in the country's policies, or will things remain as they have been since 1991? This book provides some valuable insights on what may happen in the near future to the biggest country of Central Asia.

Ethnicity and Territory in the Former Soviet Union Dr. James Hughes, Gwendolyn Sasse, 2014-09-25 The collapse of the Soviet empire in 1991 removed a decades-long system of successful control of potential ethnic and regional conflict. The result was the eruption of numerous conflicts over state building, some of which degenerated into violence and some of which were resolved or prevented by strategies of accommodation. This volume explores the common trends and differences in the responses of the new post-Soviet states to the problems of state building in ethnically and regionally divided societies, focusing on the impact of ethnic and regional conflicts on post-communist transition and institutional development. The book will be essential reading for specialists and students alike who are interested in conflict regulation and post-Soviet politics.

Film and Identity in Kazakhstan Rico Isaacs,2018-02-07 Cinema and nationalism are two fundamentally modern phenomena but how have films shaped our understanding of the creation the imagining of Central Asian nations Here Rico Isaacs uses cinema as an analytical lens to explore how the Kazakh national identity has been constructed and contested Drawing on an analysis of Kazakh films from the last century and featuring new interviews with directors and critics involved in the Central Asian film industry his book traces the construction of nationalism within Kazakh cinema from the country s inception as a Soviet Republic to a modern independent nation Isaacs identifies four narratives since the collapse of the Soviet Union a warrior like ethnic narrative rooted in the 18th Century struggles against the Mongolian Oirat tribes a civic inspired narrative cemented in the Stalinist deportations of the 1930s and 40s a religious narrative founded within the mystic and philosophical religion of Tengrism and the cult of the Sky God and a socio economic narrative which roots Kazakh nationhood and identity in contemporary social divisions the lived day to day experiences of ordinary citizens and the struggles they face with authority These last two tropes demonstrate how cinema has emerged as a site of dissent against the country s authoritarian regime under President Nazarbayev Film and Identity in Kazakhstan advances our understanding of Kazakhstan and nationalism by demonstrating the multiple and inessential character of each and illustrates the important role of cinema in contesting political power in the post Soviet space
