Josh Ostergaard, 2014-03-24 *The Devil's Snake Curve* offers an alternative American history in which colonialism, jingoism, capitalism, and faith are represented by baseball. Personal and political, it twines Japanese internment camps with the Yankees, Walmart with the Kansas City Royals, and facial hair patterns with militarism. Guantanamo and the modern security state. An essay, a miscellany, and a passionate unsettling of Josh Ostergaard's relationship with our national pastime, it allows for both the clover of a childhood outfield and the persistence of the game's service to those in power. America and baseball are both hard to love or leave in this, by turns coruscating and heartfelt debut. Josh Ostergaard holds an MFA in creative writing from the University of Minnesota and an MA in cultural anthropology. He has been an urban anthropologist at the Field Museum and now works at Graywolf Press.

The Confidence Game Maria Konnikova, 2017-01-10 It's a startling and disconcerting read that should make you think twice every time a friend of a friend offers you the opportunity of a lifetime. Erik Larson, 1 New York Times bestselling author of *Dead Wake* and bestselling author of *Devil in the White City*. Think you can't get conned. Think again. The New York Times bestselling author of *Mastermind: How to Think Like Sherlock Holmes* explains how to spot the con before they spot you. An excellent study of con artists' stories, the human need to believe. Neil Gaiman via Twitter. A compelling investigation into the minds, motives, and methods of con artists and the people who fall for their cons over and over again. While cheats and swindlers may be a dime a dozen, true conmen like Bernie Madoff, the Jim Bakkers, the Lance Armstrongs are elegant, outsized personalities, artists of persuasion and exploiters of trust. How do they do it? Why are they successful? And what keeps us falling for it over and over again? These are the questions that journalist and psychologist Maria Konnikova tackles in her mesmerizing new book. From multimillion-dollar Ponzi schemes to small-time frauds, Konnikova pulls together a selection of fascinating stories to demonstrate what all cons share in common, drawing on scientific, dramatic, and psychological perspectives. Insightful and gripping, the book brings readers into the world of the con, examining the relationship between artist and victim. *The Confidence Game* asks not only why we believe con artists but also examines the very act of believing and how our sense of truth can be manipulated by those around us.

The Story of Human Progress Leon Carroll Marshall, 1923 **Curious Exotica (Ink on Paper)** Andrea Zittlau, 2016-01-14 Ethnographic museums have been fundamentally reshaped during recent decades acknowledging contemporary cultural practices recognising aesthetic expressions and encouraging the active involvement of indigenous participants in all processes of museum creation and administration Despite these efforts however this book reveals how the institution of the museum as such continues to be haunted by its previous restrictive ideas of the other while talking about the self It investigates the ethnographic object and its performance in museum displays departing from notions of haunting as expressed by Jacques Derrida and Avery Gordon to think about presence and absence and the tension between object and text The book argues that the tension between satisfying and dissatisfying informational needs is essential to the museum context and that the objects on display have to be arranged in familiar patterns to be recognisable as material knowledge As such the ethnographic museum can be nothing else but a monument to its own history and the ethnographic object remains trapped by the limitations of its category that is inseparable from the museum setting
