### **Snettisham Roman Jewellers Hoard:**

**The Snettisham Roman Jeweller's Hoard** Catherine Johns, Andrew Burnett, 1997 The Roman treasure found in 1985 at Snettisham Norfolk consists of a collection of silver jewellery coins engraved gemstones and scrap silver carefully packed into a small pottery jar and hidden for safe keeping in the middle of the second century AD It was evidently part of the stock of a local jeweller's workshop and as such is so far unique in the Roman world This catalogue illustrated throughout brings together a team of expert contributors from the British Museum and elsewhere to produce an authoritative account of the treasure The hoard as a whole has proved exceptionally informative demonstrating the close association between silver and gold smiths and gem engravers and confirming that silver coins were hoarded and used to make jewellery Although of a modest quality when compared with the many gold ornaments which survive from the period the range of types found within a single workshop at one point in time provides a new and sounder basis for the close dating of other finds of provincial Roman jewellery

**The Jewellery Of Roman Britain** Dr Catherine Johns, Catherine Johns, 2013-02-01 This work provides a survey of the jewellery of Roman Britain Fully illustrated and accessible to both the specialist and amateur enthusiast it surveys the full range of personal ornament worn in Britain during the Roman period the 1st to 4th centuries AD It emphasizes the presence of two distinct cultural and artistic traditions the classical element introduced by the Romans and the indigeneous Celtic background The interaction of these traditions affected all aspects of Romano British life and is illustrated in the jewellery The meaning and significance of personal ornament in a wide range of cultures is discussed including such matters as symbolism and the display of wealth and status The principal types of Romano British jewellery are classified in detail drawing attention to those which can be relatively closely dated The coverage is not restricted to precious metal objects but includes jewellery made of base metals and materials such as bone jet and glass The final chapter is devoted to the techniques of manufacture a subject which has become better understood in recent years as a result of scientific advances The book should appeal to anyone who practices teaches or studies Roman archaeology together with all those with a professional or amateur interest in the history of jewellery and design

**A Cultural History of Shopping in Antiquity** Mary Harlow, Ray Laurence, 2022-06-02 A Cultural History of Shopping was a Library Journal Best in Reference selection for 2022 Covering the period from 500 BCE to 500 CE this is the first book to address the cultural history of shoppers and shopping in antiquity Evidence for the existence of shops has been found across many archaeological sites in Europe North Africa and the Middle East but the study of shops and retailing in antiquity is a relatively new subject From Classical Greece through to the Late Roman Empire shopping shifted from being a means to an end a method of supplementing the family diet or providing material goods the household could not manufacture itself to a form of experience where the processes of browsing and not purchasing became as important as buying This dramatic transformation is a reflection of the changing material desires of these societies and their perspectives on the ways in which the fulfilment of

those desires could be achieved Recurring themes in this interdisciplinary volume include the lives of ordinary people the relationship between gender and shopping the contrast between Greece and Rome the attitudes towards shopkeepers the placing of shops in the cityscape and the zoning of particular crafts and products A Cultural History of Shopping in Antiquity presents an overview of the period with themes addressing practices and processes spaces and places shoppers and identities luxury and everyday home and family visual and literary representations reputation trust and credit and governance regulation and the state

**Iron Age and Roman Coin Hoards in Britain** Roger Bland, Adrian Chadwick, Colin Haselgrove, David Mattingly, 2020-06-30 More coin hoards have been recorded from Roman Britain than from any other province of the Empire This comprehensive and lavishly illustrated volume provides a survey of over 3260 hoards of Iron Age and Roman coins found in England and Wales with a detailed analysis and discussion Theories of hoarding and deposition and examined national and regional patterns in the landscape settings of coin hoards presented together with an analysis of those hoards whose findspots were surveyed and of those hoards found in archaeological excavations It also includes an unprecedented examination of the containers in which coin hoards were buried and the objects found with them The patterns of hoarding in Britain from the late 2nd century BC to the 5th century AD are discussed The volume also provides a survey of Britain in the 3rd century AD as a peak of over 700 hoards are known from the period from AD 253-296 This has been a particular focus of the project which has been a collaborative research venture between the University of Leicester and the British Museum funded by the AHRC The aim has been to understand the reasons behind the burial and non recovery of these finds A comprehensive online database <https://finds.org.uk/database/> underpins the project which also undertook a comprehensive GIS analysis of all the hoards and field surveys of a sample of them

**The Origin of Roman London** Lacey M. Wallace, 2014 Drawing on both published and archived archaeological evidence this copiously illustrated book revolutionises our understanding of early Roman London

**Boudica Britannia** Miranda Aldhouse-Green, 2014-05-01 When Roman troops threatened to seize the wealth of the Iceni people their queen Boudica retaliated by inciting a major uprising allying her tribe with the neighbouring Trinovantes The ensuing clash is one of the most important and dramatic events in the history of Britain standing testament to what can happen when an insensitive colonial power meets determined resistance from a subjugated people head on In this fascinating account of a legendary figure Miranda Aldhouse Green raises questions about female power colonial oppression and whether Boudica would be seen today as a freedom fighter terrorist or martyr

Artefacts in Roman Britain Lindsay Allason-Jones, 2011-02-10 Helps the student understand the numerous artefacts from Roman Britain and what they reveal about life in the province

Roman Artefacts and Society Ellen Swift, 2017-02-09 In this book Ellen Swift uses design theory previously neglected in Roman archaeology to investigate Roman artefacts in a new way making a significant contribution to both Roman social history and our understanding of the relationships that exist between artefacts and people Based on extensive data collection and the close study of artefacts from

museum collections and archives the book examines the relationship between artefacts everyday behaviour and experience The concept of affordances features of an artefact that make possible and incline users towards particular uses for functional artefacts is an important one for the approach taken This concept is carefully evaluated by considering affordances in relation to other sources of evidence such as use wear archaeological context the end products resulting from artefact use and experimental reconstruction Artefact types explored in the case studies include locks and keys pens shears glass vessels dice boxes and finger rings using material mainly drawn from the north western Roman provinces with some material also from Roman Egypt The book then considers how we can use artefacts to understand particular aspects of Roman behaviour and experience including discrepant experiences according to factors such as age social position and left or right handedness which are fostered through artefact design The relationship between production and users of artefacts is also explored investigating what particular production methods make possible in terms of user experience and also examining production constraints that have unintended consequences for users The book examines topics such as the perceived agency of objects differences in social practice across the provinces cultural change and development in daily practice and the persistence of tradition and social convention It shows that design intentions everyday habits of use and the constraints of production processes each contribute to the reproduction and transformation of material culture

**The Roman Baths and Macellum at Wroxeter** Peter Ellis, 2014-04-15 Excavations by Graham Webster at Wroxeter Viroconium Cornoviorum were undertaken on the southern part of the insula containing the baths and market hall macellum the latter one of few known in the province The excavations enable the construction sequence and function of these major public buildings to be unravelled and analysed in detail on an insula untouched by medieval or later buildings The work revealed that timber framed buildings constructed c AD 90 and fronting on Watling Street were swept away to accommodate the public buildings which were built over several decades between the 120s and 160s Changes were introduced in the third century when a swimming pool natatio was filled in and an additional baths suite was built in the exercise yard to one side of the main baths complex Excavations in the street porticoes and on Watling Street revealed a continued use of some of the buildings into the fifth century after their original functions had ceased The artefact and environmental finds reports are on material deriving mainly from the initial building campaign but with some third century groups The report includes and edition and compilation of the accounts of the nineteenth century excavations by Thomas Wright and others

Potter, Catherine Johns, 1992-01-01 Pieces together archaeological evidence with fragmentary writings of Caesar Tacitus and others to give a picture of Roman Britain      **Romano-Celtic Mask Puzzle Padlocks** Jerry Slocum, Dic Sonneveld, 2017-04-30 This book presents a little known and ingenious artefact of the Roman world a small puzzle padlock whose font plate bears a face or mask of Celtic style      *A Smith in Lindsey* David A. Hinton, 2017-12-02 Contents Include An introduction to the grave conservation metallurgical and other analyses a catalogue of organic and inorganic materials and a discussion of dates and context      *Objects in Context, Objects in Use* Luke Lavan, Ellen Swift, Toon Putzeys, 2008-03-31 This book promotes the study of material spatiality in late antiquity not just the study of buildings but of the people dress and

objects used within them drawing on all available source material It seeks to explore the material world as it was lived in late antiquity in an interpretative inquiry rather than simply describing the evidence that has survived until today The volume presents a series of comprehensive bibliographic essays which provide an overview of relevant literature along with discussions of the nature of the sources of relevant approaches and field methods The main section of the book explores domestic space vessels in context dress shops and workshops religious space and military space Synthetic papers drawing on a wide range of archaeological art historical and textual sources are complemented by case studies of context rich late antique sites in the East Mediterranean and elsewhere including Pella Dura Europos Scythopolis and Sagalassos

*Debasement* Kevin Butcher, 2020-04-30 The debasement of coinage particularly of silver was a common feature of pre modern monetary systems Most coinages were issued by state authorities and the condition of a coinage is often seen rightly or wrongly as an indicator of the broader fiscal health of the state that produced it While in some cases the motives behind the debasements or reductions in standards are clear in many cases the intentions of the issuing authorities are uncertain Various explanations have been advanced fiscal motives such as a desire to profit or a to cover a deficit caused by the failure to balance expenditure and revenues monetary motives such as changing demand for coined money or a desire to maintain monetary stability in the face of changing values of raw materials or labour costs pressure from groups within society that would profit from debasement misconduct at the mint or the decline of existing monetary standards due to circulation and wear of the coinage in circulation Certain explanations have tended to gain favour with monetary historians of specific periods partly reflecting the compartmentalization of scholarship Thus the study of Roman debasements emphasizes fiscal deficits whereas medievalists are often more prepared to consider monetary factors as contributing to debasements To some extent these different approaches are a reflection of discrepancies in the amount of documentary evidence available for the respective periods but the divide also underlines fundamentally different approaches to the function of coinage Romanists have preferred to see coins as a medium for state payments whereas medievalists have often emphasized exchange as an important function of currency The volume is inter disciplinary in scope Apart from bringing together monetary historians of different periods it also contains contributions from archaeometallurgists who have experience with the chemical and physical composition of coins and technical aspects of production of base alloys

**Hoards** Eleanor Ghey, 2015 Every so often a remarkable discovery hits the headlines often an account of treasure hunters striking lucky after years of searching the land or perhaps a chance find made by a farmer after ploughing With each new hoard comes a story or a number of possible stories and unanswered questions Who did it belong to Why was it buried or lost and not recovered This fascinating book investigates a broad selection of hoards that have come to light in recent times across the British Isles Here are caches of prehistoric axes pits filled with intricately wrought Iron Age torcs pots of Roman coins spectacular Anglo Saxon military equipment impressive Viking brooches a jeweller s stock from seventeenth century England a sealed glass jar of gold

sovereigns from World War II The author looks at the variety of objects found and at the practice of hoarding itself She also considers who the hoarders were and what might have compelled them economic upheaval war or more complex social and ritual customs

complete solutions to all the new problems to the 6 th edition are included and denoted by all solutions arc comprehensive making this supplement a useful instructional tool for professors and students solutions manual for introduction to the thermodynamics of materials 6th edition gaskell

**introduction to the thermodynamics of materials david r** - Mar 01 2022

mar 13 2008 abstract this classic textbook is the definitive introduction to the thermodynamic behavior of materials systems written as a basic text for advanced undergraduates and first year graduate students in metallurgy metallurgical engineering ceramics or materials science it presents the underlying thermodynamic principles of

*the behavior of solutions 9 v6 introduction to the* - Apr 14 2023

solution thermodynamics is concerned with the vapor pressure temperature composition relationships of the components of a solution this chapter examines the solution thermodynamics in more detail the components of a solution which obeys raoult s law are said to exhibit raoultian behavior

**gaskell 6th solutions solutions manual for** - Sep 19 2023

6th edition gaskell introduction this solutions manual provides worked out answers to all problems appearing in introduction to the thermodynamics of materials 6 th edition with the exception of some of the problems in chapter 5 and problem 9 which are included in the answer section in the back of the book

*introduction to the thermodynamics of materials* - Dec 10 2022

dr gaskell authored the textbooks introduction to metallurgical thermodynamics introduction to the thermodynamics of materials and introduction to transport phenomena in materials engineering

**gaskell thermodynamics solutions manual studylib net** - Jan 31 2022

to begin with finding gaskell thermodynamics solutions manual first thing you should do is locate an internet site that features a comprehensive number of manuals listed the largest of those websites will have literally hundreds of a huge number of different products represented

**introduction to the thermodynamics of materials** - May 15 2023

thermodynamics began with the study of heat and work effects and relations between heat and work some early formation of solutions phase transformations notes on gaskell text 5 other issues might include response of materials to

*gaskell manual solution 4th edition pdf thermodynamic* - Jun 16 2023

some thermodynamic problems require an absolute value of entropy the third law of thermodynamics defines the entropy of a pure substance at absolute zero to be zero the principles of thermodynamics is are nearly fully defined after defining the laws
