Fallace,2025-05-14 A compelling history of the learning style concept and how it was shaped by shifting ideas in psychology anthropology and education The widely embraced notion that we all process information in one of three distinct modes visual auditory or kinesthetic has informed educational practices for decades In recent years however numerous studies have questioned the effectiveness of aligning instruction with the alleged learning styles of individual students So why is it still commonplace in the literature on beneficial teaching at all levels of education In *You Are Not a Kinesthetic Learner* The Troubled History of a Dangerous Idea historian Thomas Fallace traces the origins evolution and history of the learning style idea demonstrating its relationship to a legacy of unequal education for children of color Fallace argues that the research supporting the learning style idea was problematic from its inception in the 1910s and that it was used to label and justify a diminished curriculum for many Black and Latine students whose cultural differences were perceived as weaknesses In recent years numerous empirical studies have not found the approach to be effective This fascinating history clearly shows the danger of sorting and labeling students with permanent style identities and makes a strong case for removing learning styles as the basis for any educators instructional toolkit The first book length history of learning styles *You Are Not a Kinesthetic Learner* encourages us all to consider the research be open to future developments and updates and question even our most intuitive assumptions **Teaching 101** Jeffrey Glanz,2009-04-21 One of the richest books I have ever read

Jordan,2006 Abstract In this study seventh graders were exposed to a unit focusing on a the formal element of shape b the design element of focal point and c media of watercolor and pen and ink in a homeroom logo project Lessons in the unit were inserted into a matrix suggested by Silver Strong and Perini 2000 that cross indexes learning styles and multiple intelligences According to authors the matrix determines whether a current unit of study meets the learning style and multiple intelligence needs of all students and pinpoints where enhancement of the unit should occur The authors also claim that use of the matrix in unit planning will not only meet all the learning needs of the students but that all students will succeed Data were collected to determine whether use of the matrix in planning a unit of study actually improved the ability of all students to complete the homeroom logo unit successfully Data were collected from a variety of student works results from a Multiple Intelligences Learning Styles inventory a pop vocabulary quiz a regular vocabulary test student written reflections and a final graded artwork While some results were calculated numerically qualitative findings were achieved through content analysis Findings determined the following 1 Each multiple intelligence and each learning style were a strength for at least one student participant supporting the claims that the theories represent each student in the population 2 Use of the matrix as suggested by Silver Strong and Perini 2000 for creation of units that meet the needs of all students learning styles and multiple intelligences will achieve a higher percentage of student success but not 100% 3 Extenuating circumstances e g attendance negative attitude and other factors outside the pervue of the art class or the matrix will negatively impact success of some students no matter how carefully a unit plan may be constructed **Brief Words on**
