**Create a World Class Soccer Defense** Chest Dugger, 2019-10-15 Do you want to learn how to improve your defensive game? Or looking for ways to solidify your team's defense? This book is your answer. As was said by a great soccer manager, "Offense wins games, defense wins titles." This is the case with every level of the professional and amateur game in all countries across the globe. Although there is a correlation between scoring the most goals and winning leagues, it does not seem to be quite as strong as having a watertight defense. So we might conclude that while scoring goals thrills the crowd and helps a team to win, to be a champion it is even more important that the defense is as strong as it can possibly be. We hope that we have made our case. Defense is key to a team's success. But there is another important reason for this coaching book on a team's defensive unit. We can coach

attacking play set moves individual skills and so forth can all help a team to create and score chances However goals often result from a touch of magic The thirty yard screaming shot the piece of dribbling brilliance the through pass hit with precision and vision These are hard attributes to train Or they can result from an error by the opposition A mishit clearance a goal keeping mistake a positional defect or communication lapse Consistent training and coaching can make a bigger impact with defense than can be with offensive players Movement that becomes second nature knowledge technique experience and positional awareness allied to teamwork and communication these are the elements that come together to produce a defense hard to breach They are all factors which the coach can improve with their team through drills team and individual coaching It is true if not often said that attackers thrill the crowd while defenders win matches at whatever level we play the game from professional to Under ten teams playing on a Sunday morning And it is there with the match winning defense that a coach earns his salt

It Pays to Win on Offense James E. Jordan, 2015-02-24 It Pays to Win on Offense is a book for soccer coaches who are looking for the most effective way to engage all of their players all of the time in order to teach them attacking soccer concepts The book provides an all encompassing framework for instilling a relentless attacking mindset in soccer players By combining educational theory and making everything a competition coaches can maximize their practice time and teach that attacking concepts are not just limited to certain players e g the forwards or attacking midfielders Traditional coach centered soccer coaching where the coach directly instructs the players what to do when and how to do it can be an effective form of teaching for some players However it does not encourage all players to become independent decision makers who can creatively solve problems on and off the field Just as direct instruction lecture format is starting to be seen as one of many teaching strategies in the classroom

so the guide on the side model of coaching is coming to the fore in soccer By utilizing Guided Discovery a method of teaching in which the coach coaches by asking questions players are encouraged to come up with their own solutions to problems The questions can be lower or higher order questions concrete and simple to abstract and complex but this is a difficult skill for experienced professional soccer coaches let alone volunteer coaches who may not have a strong soccer background As such this book comes complete with a ready made set of guided discovery questions that only focus on the attacking side of the game By emphasizing attack only it affords all players the opportunity to deeply learn the offensive principles such as penetration support width mobility and creativity improvisation As this book focuses on developing the attacking mindset the discussion and analysis will focus on those areas of the game however my second book It Pays to Win on Defense A Game based Approach to Developing Highly Effective Defenders centers on how to train defenders and teach defending concepts is now available Throughout this book I will profile some of the best attacking players I have coached These players are included to reveal a player s perspective on Game based Soccer but also they may spark an idea in your head about a player that you have that you can better utilize in a different position or unleash their attacking potential I want to be clear this book is a collection of games activities etc that have worked for me over the years I believe the principles and benefits are transferable but if I have learned one thing from coaching it is that there is no single best way to do something I hope you find this book informative and that it helps you train your players to score more goals Soccer Technique for Winning Derek Smethurst,2014-06 Former NASL star Derek Smethurst takes you step by step through the skills of soccer in a fun easy to read style Through clear diagrams photographs he covers the following topics Striking the mechanics of kicking Heading Controlling Turning Faking Dribbling Shielding Goalscoring Goalkeeping Tackling Defense This is an invaluable
