Why do people choose authoritarianism over freedom The classic study of the psychological appeal of fascism by a New York Times bestselling author The pursuit of freedom has indelibly marked Western culture since Renaissance humanism and Protestantism began the fight for individualism and self determination This freedom however can make people feel unmoored and is often accompanied by feelings of isolation fear and the loss of self all leading to a desire for authoritarianism conformity or destructiveness It is not only the question of freedom that makes Fromm s debut book a timeless classic In this examination of the roots of Nazism and fascism in Europe Fromm also explains how economic and social constraints can also lead to authoritarianism By the

Ways of Knowing Mary Lindemann, 2021-10-01 Knowing itself is a problematic concept and what was once seen as the clear objective of knowing that is to discover truth or reality has become increasingly less certain This is even more the case when scholars move from the present to examine epistemology in the past Two fundamental questions arise What constituted knowledge in the context of early modern Germany and how was knowledge gathered assembled organized deployed and interpreted *Ways of Knowing* seeks to answer these questions Taking their cues from a range of interdisciplinary perspectives including art German literature social political medical and religious history the contributors offer readers a rich and insightful portrait of knowing and knowledge in early modern Germany Investigators look at what people knew in early modern Germany and how they knew it Four essays in part one consider how knowledge was created and organized In part two six authors examine how knowledge was evaluated and how it functioned especially in the realms of belief law politics and medicine Contributors include Robert Beachy Susan R Boettcher Jason Coy Pia F Cuneo Mitchell Lewis Hammond Mary Lindemann Francisca Loetz Terence McIntosh Janice L Neri Elisabeth W gh ll Nivre and Helen Watanabe O Kelly

Love, Sexuality, and Matriarchy Erich Fromm, 2024-02-27 A fascinating collection of essays on the complicated relations between men and women from the New York Times bestselling author of *The Art of Loving* The New York Times Book Review The renowned social psychologist delves deep into the fraught relationship between genders drawing upon the influential insights of Bachofen Freud Marx and Briffault Not primarily interested in the existence of anatomical and biological differences between the sexes Fromm instead analyzes how these differences have been made use of throughout human history Drawing from Bachofen's *Mother Right* Fromm expounds on how matriarchal and patriarchal social structures determine relations between the sexes in essential ways and how they are shaped by the dominant orientation of the social character at any given time He posits that the most important question concerning gender relations is which characterological orientation determines human relationships love or hate love of life or fascination with force Thus it will not be gender conflict that will determine humanity's future but whether we opt for love of life or love of death As these essays show Fromm was a wide ranging thinker whose writings sometimes manifested brilliant insights or practical wisdom Kirkus Reviews
