Social Choice Mechanisms:

Social Choice Mechanisms Vladimir Ivanovich Danilov, Alexander I. Sotskov, 2002-02-25 The theory of social choice mechanisms is a comparatively new theory The first results were obtained as early as the beginning of the seventies The book contains the most important results of the theory In two main topics the book describes what mechanisms allow equilibrium solutions at any agents preference profiles and what outcomes can be implemented The answer depends on the equilibrium concept Furthermore the four equilibrium concepts Nash equilibrium strong Nash equilibrium equilibrium in dominant strategies and the core were described in detail

Social Choice Mechanisms Vladimir I. Danilov, Alexander I. Sotskov, 2012-11-02 The theory of social choice deals with both the processes and results of collective decision making In this book we explore some issues in the theory of social choice and mechanism design We examine the premises of this theory the axiomatic approach and the mechanism design approach The main questions are what is collective interest how is it related to individuals interests how should one design social interactions laws and institutions These questions are not new Philosophers social scientists have indeed pondered upon them for years And in fact the organizational structures of many social institutions courts parliaments committees and regulatory boards often lack a sound theoretical base This is not surprising as it is indeed difficult to provide for a comprehensive formalization of the activities of such organizations Nevertheless there has been a definite trend towards providing clear and unambiguous rules for collective decision making These very rules constitute the body of social choice theory and its main object The basic problem of social choice We explain here more precisely what a problem of social choice is what approaches might be used to tackle it and what kind of solutions it leads to We introduce a few basic notions in preliminary fashion and in doing so we stress both motivations and explanations
