began the process of integrating these several modeling systems into a coherent package Thereafter a number of regional scientists have exploited the ideas and insights proposed by Miyazawa especially the notion of the interrelational income multiplier and the ideas of internal and external multipliers **Social Indicators** ,1980 Introductory material and statistical tables on 11 topics e g public safety social participation and use of leisure time Appendixes include sources used and glossary Index **A History of National Accounting** André Vanoli,2005 In A History of National Accounting Andre Vanoli focuses on the history of accounting in the second part of the 20th century The book is about the relations between economic theories and the observation of the present and the past looked at from the viewpoint of economic measurement Some parts of the book are especially devoted to the French experience in this field but the point of view is deliberately universal The publication is about The birth of national accounting The evolution of systems of accounts and accounting issues in the perspective of international harmonization National accounts as a statistical synthesis Concepts and their relations with economic theory Uses and status of national accounting Summaries of Projects Completed National Science Foundation (U.S.), **Demographic Accounting and Model-building** Richard Stone,1971 **Summaries of Projects Completed in Fiscal Year ...** ,1979 **Development Economics Research Trends** Gustavo T.
