SOCIOLOGY

Sociology is the scientific study of human society, social relationships, and the patterns of social behavior. It examines how individuals and groups interact, the formation of social institutions, and the influence of social structures on people's lives. Sociology aims to understand issues of inequality, power, culture, and social change.

ANTHROPOLOGY

Anthropology is the study of humans, past and present, in their cultural, social, and biological contexts. It seeks to understand the diversity of human cultures, beliefs, practices, and behavior across time and space.
