Illustrated, Etc** William Cullen Bryant, 1871 **The Song of the Sower** Godfrey Blount, 1898 *The Sower's Book* Jay Cormier, 1989-09 Like the sower in the Gospel parable homilists scatter seeds of faith each Sunday calling forth growth in the hearts of their hearers But such sowing requires a range of supportive accompanying work seeding planing harvesting gleaning The Sower s Book has been written for homilists and preachers who believe that preaching is a ministry indeed the most important communication they have with the communities they serve It is designed to provide a framework by which homilists can think through and develop the Sunday homily over an entire Liturgical year **Songs of the Cross and the Crown: Melodious Words Concerning Nature and Grace Selected for the Dreary and Doubtful**, 1874 **Engraving the Savage** Michael Gaudio, 2008 In 1585 the British painter and explorer

John White created images of Carolina Algonquian Indians. These images were collected and engraved in 1590 by the Flemish publisher and printmaker Theodor de Bry and were reproduced widely establishing the visual prototype of North American Indians for European and Euro American readers. In this innovative analysis Michael Gaudio explains how popular engravings of Native American Indians defined the nature of Western civilization by producing an image of its savage other. Going beyond the notion of the savage as an intellectual and ideological construct, Gaudio examines how the tools, materials, and techniques of copperplate engraving shaped Western responses to indigenous peoples. Engraving the Savage demonstrates that the early visual critics of the engravings attempted without complete success to open a comfortable space between their own civil image making practices and the savage practices of Native Americans such as tattooing, bodily ornamentation, picture writing, and idol worship. The real significance of these ethnographic engravings, he contends, lies in the traces they leave of a struggle to create meaning from the image of the American Indian. The visual culture of engraving and what it shows, Gaudio reasons, is critical to grasping how America was first understood in the European imagination. His interpretations of de Bry's engravings describe a deeply ambivalent pictorial space in between civil and savage, a space in which these two organizing concepts of Western culture are revealed in their making. Michael Gaudio is assistant professor of art history at the University of Minnesota.

Visions of the Lamb of God Andrew Scott Brake, 2019-09-17 This commentary on Revelation is for those who are looking for an easy to read, biblically central, and Christologically focused commentary on one of the most intriguing books of the Bible. It is a shame that pastors and followers of Jesus avoid the book of Revelation because of the confusing theories they heard about in the past or just too many movies. This commentary attempts to get away from the needless debate, though different views are presented, and focus the reader's attention on the primary focus of the book: the Lamb of God. The Lamb holds history in his hand by virtue of his eternal authority and his invested authority because of the blood that he spilled and his testimony. Therein lies his victory, and therein lies the victory for those who follow him.
