Eerdmans Commentary on the Bible: Ecclesiastes and Song of Songs John Jarick, John W. Rogerson, 2003-11-19 This extract from the Eerdmans Commentary on the Bible provides Jarick and Rogerson's introduction to and concise commentary on Ecclesiastes and Song of Songs. The Eerdmans Commentary on the Bible presents in nontechnical language the best of modern scholarship on each book of the Bible including the Apocrypha. Reader-friendly commentary complements succinct summaries of each section of the text and will be valuable to scholars, students, and general readers. Rather than attempt a verse-by-verse analysis, these volumes work from larger sense units, highlighting the place of each passage within the overarching biblical story. Commentators focus on the genre of each text: parable, prophetic oracle, legal code, and so on, interpreting within the historical and literary context. The volumes also address major issues within each biblical book, including the range of possible interpretations and refer readers to the best resources for further discussions.

Voicing the Self Carmen Rueda Ramos, 2011-11-28 Este libro analiza la manera con la que Lee Smith ha dado voz a todos los aspectos de su experiencia tanto como mujer artista que vive en la América contemporánea como nativa de la Appalachia, una región sureña que todavía conserva un fuerte sentimiento de la tradición oral y de vínculos con la comunidad. Smith revisa y altera el lenguaje y los mitos que han condicionado sus búsquedas de la identidad y han silenciado sus voces. Al realizarlo, explora la relación entre el heroísmo femenino y la creatividad de las mujeres como algo distinto a la de los hombres. En su lucha, las heroínas de Smith reflejan el desarrollo personal y artístico de la escritora. La relación conflictiva de sus personajes femeninos con la autoafirmación y con el mundo de la Appalachia revela los propios sentimientos ambivalentes de Smith hacia el concepto de individualidad y hacia sus raíces culturales.

The Music Trade in Georgian England Michael Kassler, 2017-07-05 In contrast to today's music industry whose principal products are recorded songs sold to customers round the world, the music trade in Georgian England was based upon London firms that published and sold printed music and manufactured and sold instruments on which this music could be played. The destruction of business records and other primary sources has hampered investigation of this trade, but recent research into legal proceedings, apprenticeship registers, surviving correspondence, and other archived documentation has enabled aspects of its workings to be reconstructed. The first part of the book deals with Longman, Broderip, arguably the foremost English music seller in the late eighteenth century, and the firm's two successors, Broderip, Wilkinson, and Muzio Clementi's variously styled partnerships who carried on after Longman, Broderip's assets were divided in 1798. The next part shows how a rival music seller, John Bland, and his successors used textual and thematic catalogues to advertise their publications. This is followed by a

comprehensive review of the development of musical copyright in this period a report of efforts by a leading inventor Charles 3rd Earl Stanhope to transform the ways in which music was printed and recorded and a study of Georg Jacob Vollweiler s endeavour to introduce music lithography into England The book should appeal not only to music historians but also to readers interested in English business history publishing history and legal history between 1714 and 1830 [A New English Dictionary on Historical Principles: part 1.
