**Headings** Library of Congress, Library of Congress. Office for Subject Cataloging Policy, 2011      **Studies in the Text of the Old Testament** Dominique Barthélemy, 2012-11-01

Studies in the Text of the Old Testament offers to the English speaking world the combined introductions to the first three volumes of Dominique Barthélemy's *Critique Textuelle de l'Ancien Testament* CTAT was the culmination of the Hebrew Old Testament Text Project launched by the United Bible Societies in 1969 and carried out by an international team of Old Testament textual critics under the leadership of Eugene Nida. As Emanuel Tov has stated these introductions form an almost complete introduction to the textual criticism of the Hebrew Bible. They hold an important place in Old Testament textual criticism and can stand alone apart from the detailed discussions of the textual problems found in the volumes. Part one surveys the history of OT textual criticism from its origins to J. D. Michaelis and presents the Hebrew Old Testament Text Project and its goals. Part two describes in detail the background of the modern versions that the HOTTP took into account in its work. Part three the most extensive section discusses the textual witnesses the different forms of the Hebrew text and the contribution of the ancient versions. As his concluding program for a critical edition makes clear the groundbreaking work of Barthélemy and the HOTTP served as the basis for the new *Biblia Hebraica Quinta* which began publication in 2004. UBS undertook the HOTTP to offer Bible translators help in applying the results of textual criticism to their work but there is no doubt that many others will benefit from this work as well as the other volumes in the series *Textual Criticism and the Translator*.
