

Sophocles

The Classical Heritage

Edited by
R.D. Dawe

Sophocles The Classical Heritage

Theodore George

Sophocles The Classical Heritage:

Sophocles Roger David Dawe, 1996 Linked by their common setting in Thebes Antigone Oedipus the King and Oedipus at Colonus stand at the fountainhead of world drama This volume presents a new and accurate yet poetic and playable translation by playwright Don Taylor who has also directed plays for a BBC TV production *Sophocles (Routledge Revivals)* Roger Dawe, 2014-02-04 Sophocles The Classical Heritage first published in 1996 contains a diverse collection of reflection ranging from the 16th century to the 20th on one of the three great Attic tragedians the author of perhaps the most famous play of all time With the entire notion of Western culture under duress the need to establish continuity from antiquity to modernity is as pressing as ever Each essay selected by Professor Dawe explores a theme or concept derived from the tragic vision of the Sophoclean universe which is still of relevance today An enormous range of topics is investigated in a variety of modes and styles the linguistic challenges of translation the psychology of Sigmund Freud Enlightenment critiques the history of performance conventions dramatic structure and technique and issues facing the modern director Overall Professor Dawe offers a staggering selection of responses which cumulatively demonstrate the continuing importance and fascination of Sophocles legacy The Classical Heritage and Its Beneficiaries R. R. Bolgar, Robert Ralph Bolgar, 1954 Since its first publication in 1954 The Classical Heritage has become established as a classic introduction to cultural and intellectual history from the Carolingian age to the end of the Renaissance The Classical Heritage of the Middle Ages Henry Osborn Taylor, 1901 **The Classical Heritage of the Middle Ages** Henry Osborn Taylor (historien.), 1911

Classical Heritage and European Identities Lærke Maria Andersen Funder, Troels Myrup Kristensen, Vinnie Nørskov, 2019-02-11 Classical Heritage and European Identities examines how the heritages of classical antiquity have been used to construct European identities and especially the concept of citizenship in Denmark from the eighteenth century to the present day It implements a critical historiographical perspective in line with recent work on the reception of classical antiquity that has stressed the dialectic relationship between past present and future Arguing that the continuous employment and appropriation of classical heritages in the Danish context constitutes an interesting case of an imagined geography that is simultaneously based on both national and European identities the book shows how Denmark's imagined geography is naturalized through very distinctive uses of classical heritages within the educational and heritage sectors Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Scapegoat Carnivale's Tragic Trilogy** Lynn Kozak, 2023-04-01 Between 2010 and 2017 Canada experienced an efflorescence of Greek tragedy led by independent Montreal theatre company Scapegoat Carnivale's energetic performances of Euripides's Medea and Bacchae and Sophocles's Oedipus Tyrannus The performances featured crisp new translations by co-artistic director Joseph Shragge large casts and full-throated sung choruses Scapegoat Carnivale's trilogy of these familiar but rarely performed plays is at

the core of this volume which includes all three novel play scripts the company's stage directions and helpful annotations that elucidate Greek names and cultural references and place the textual choices in the context of the productions themselves as well as the long manuscript traditions germane to each tragedy The result sheds light on both the ancient Greek texts and contemporary performance practice as do accompanying essays introducing the reader to Greek tragedy in fifth century Athens reception theories each play's themes and cultural resonances and how Scapegoat's approach to each play fits into broader global trends of performance and reception Scapegoat Carnivale's Tragic Trilogy invites readers from all backgrounds to encounter these plays whether they are looking at Greek tragedy for the first time or the fiftieth It gives everyone the tools to understand where these plays came from offers insights into how they can and should be performed now and shows why they are more relevant than ever in contemporary theatre and in life

The Emergence of Subjectivity in the Ancient and Medieval World Jon Stewart, Jon Bartley Stewart, 2020 This volume presents a philosophical analysis of the development of Western civilization from antiquity to the Middle Ages by tracing the various self-conceptions of different cultures as they developed historically reflecting different views of what it is to be human and the rise of the concept of subjectivity

Classical Heritage in Byzantine and Near Eastern Art Kurt Weitzmann, 1981 *Volume 2, Tome II: Kierkegaard and the Greek World - Aristotle and Other Greek Authors* Katalin Nun, 2016-12-05 The articles in this volume employ source work research to trace Kierkegaard's understanding and use of authors from the Greek tradition A series of figures of varying importance in Kierkegaard's authorship are treated ranging from early Greek poets to late Classical philosophical schools In general it can be said that the Greeks collectively constitute one of the single most important body of sources for Kierkegaard's thought He studied Greek from an early age and was profoundly inspired by what might be called the Greek spirit Although he is generally considered a Christian thinker he was nonetheless consistently drawn back to the Greeks for ideas and impulses on any number of topics He frequently contrasts ancient Greek philosophy with its emphasis on the lived experience of the individual in daily life with the abstract German philosophy that was in vogue during his own time It has been argued that he modeled his work on that of the ancient Greek thinkers specifically in order to contrast his own activity with that of his contemporaries

Tragic Props and Cognitive Function Colleen Chaston, 2010 By applying aspects of cognitive psychology to a study of three key tragic props this book examines the importance of visual imagery in ancient Greek tragedy The shield the urn and the mask are props which serve as controls for investigating the connection between visual imagery and the spectators intellectual experience of tragic drama As vehicles for conceptual change the props point to a function of imagery in problem solving Connections between the visual and the cognitive in tragedy particularly through image shape and its potential for various meanings add a new perspective to scholarship on the role of the visual in ancient performance These connections also add weight to the importance of imagery in contemporary problem solving and creative thought

Oedipus Lowell Edmunds, 2006-11-22 As a volume in the Gods and Heroes series this book

explores a key figure in ancient myth incisively and accessibly yet with enough scholarly detail to be an all you need to know for lower level courses a platform for further study at a more advanced level or as a reference book of key information for researchers academics

Greek Theatre Performance David Wiles, 2000-05-25 Specially written for students and enthusiasts David Wiles introduces ancient Greek theatre and cultural life

A Companion to Ancient Greek and Roman Music Tosca A. C. Lynch, Eleonora Rocconi, 2020-07-08 A COMPANION TO ANCIENT GREEK AND ROMAN MUSIC A comprehensive guide to music in Classical Antiquity and beyond Drawing on the latest research on the topic A Companion to Ancient Greek and Roman Music provides a detailed overview of the most important issues raised by the study of ancient Greek and Roman music An international panel of contributors including leading experts as well as emerging voices in the field examine the ancient Art of the Muses from a wide range of methodological theoretical and practical perspectives Written in an engaging and accessible style this book explores the pervasive presence of the performing arts in ancient Greek and Roman culture ranging from musical mythology to music theory and education as well as archaeology and the practicalities of performances in private and public contexts But this Companion also explores the broader roles played by music in the Graeco Roman world examining philosophical psychological medical and political uses of music in antiquity and aspects of its cultural heritage in Mediaeval and Modern times This book debunks common myths about Greek and Roman music casting light on yet unanswered questions thanks to newly discovered evidence Each chapter includes a discussion of the tools or methodologies that are most appropriate to address different topics as well as detailed case studies illustrating their effectiveness This book Offers new research insights that will contribute to the future developments of the field outlining new interdisciplinary approaches to investigate the importance of performing arts in the ancient world and its reception in modern culture Traces the history and development of ancient Greek and Roman music including their Near Eastern roots following a thematic approach Showcases contributions from a wide range of disciplines and international scholarly traditions Examines the political social and cultural implications of music in antiquity including ethnicity regional identity gender and ideology Presents original diagrams and transcriptions of ancient scales rhythms and extant scores that facilitate access to these vital aspects of ancient music for scholars as well as practicing musicians Written for a broad range of readers including classicists musicologists art historians and philosophers A Companion to Ancient Greek and Roman Music provides a rich informative and thought provoking picture of ancient music in Classical Antiquity and beyond

An Anatomy of Thought Ian Glynn, 1999 Drawing on a dazzlingly wide array of disciplines physiology neurology psychology anthropology linguistics and philosophy the renowned Cambridge scientist Ian Glynn presents a tour de force exploration of the workings of the human mind 48 line drawings

Dolos and Dikê in Sophokles' Elektra Leona MacLeod, 2017-07-31 The main problem facing critics of Sophokles Elektra has always been understanding the presentation of the vengeance and the nature of justice it represents This volume addresses the ethical issues of this play through an analysis of the language

and argumentation which the characters use to explain and justify their behaviour The focus is on the examination of the themes of aid s and dolos and the way in which each contributes to our overall understanding of the vengeance as an act which for all its justice remains shameful By exploring the union between these two contradictory elements this study exposes the ethical complexity of Sophokles treatment of the vengeance theme Dolos Dik contains a useful critique of recent interpretative approaches to the play a full bibliography and a complete index of passages cited

Choruses, Ancient and Modern Joshua Billings,Felix Budelmann,Fiona Macintosh,2013-09-19 The ancient singing and dancing chorus has exerted a powerful influence in the modern world This is the first book to look systematically at the points of similarity and difference between ancient and modern choruses across time and place in their ancient contexts in modern theatre opera dance musical theatre and in political debate

Tragedies of Spirit Theodore George,2012-02-01 In Tragedies of Spirit Theodore D George engages Hegel s Phenomenology of Spirit to explore the philosophical significance of tragedy in post Kantian continental thought George follows lines of inquiry originally developed by Nietzsche Heidegger Gadamer and Derrida and takes as his point of departure the concern that Hegel s speculative philosophy forms a summit of modernity that the present historical time is called to interrogate Yet George argues that Hegel s larger speculative ambitions in the Phenomenology compel him to turn to the resource of tragedy in order to give voice to issues of incommensurability discontinuity otherness strife and crisis From this standpoint Hegel s interest in the tragic proves to be more pervasive and to run deeper than has previously been recognized The author shows that Hegel s reliance upon the tragic not only stretches and tests assumptions of speculative philosophy but also illuminates original insights into human finitude While situating Hegel s approach to tragedy as part of a broader response to Kant George also contextualizes Hegel s interest in tragedy with reference to figures in German Idealism and Romanticism such as Schelling Hlderlin and Schlegel

The ^AJoyless Economy Tibor Scitovsky,1992-03-26

Sibling Action Stefani Engelstein,2017-12-05 The sibling stands out as a ubiquitous yet unacknowledged conceptual touchstone across the European long nineteenth century Beginning in the late eighteenth century Europeans embarked on a new way of classifying the world devising genealogies that determined degrees of relatedness by tracing heritage through common ancestry This methodology organized historical systems into family trees in a wide array of new disciplines transforming into siblings the closest contemporaneous terms on trees of languages religions races nations species or individuals In literature a sudden proliferation of siblings often incestuously inclined negotiated this confluence of knowledge and identity In all genealogical systems the sibling term not quite same and not quite other serves as an active fault line necessary for and yet continuously destabilizing definition and classification In her provocative book Stefani Engelstein argues that this pervasive relational paradigm shaped the modern subject life sciences human sciences and collective identities such as race religion and gender The insecurity inherent to the sibling structure renders the systems it underwrites fluid It therefore offers dynamic potential but also provokes counterreactions such as isolationist theories of

subjectivity the political exclusion of sisters from fraternal equality the tyranny of intertwined economic and kinship theories conflicts over natural kinds and evolutionary speciation and invidious anthropological and philological classifications of Islam and Judaism Integrating close readings across the disciplines with panoramic intellectual history and arresting literary interpretations Sibling Action presents a compelling new understanding of systems of knowledge and provides the foundation for less confrontational formulations of belonging identity and agency

Sophocles The Classical Heritage Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is actually remarkable.
