

An aerial photograph of a vast, snowy mountain landscape. A winding river flows through the center of the image, surrounded by snow-covered hills and valleys. In the foreground, a large, sculptural ice formation, possibly a glacier or ice flow, dominates the lower left and center. The sky is filled with soft, white clouds, and the sun is visible near the horizon, casting a warm glow over the scene.

**Restoring the Soul of the World** David Fideler, 2014-11-20 Humanity s creative role within the living pattern of nature Explores important scientific discoveries that reveal the self organizing intelligence at the heart of nature Examines the idea of a living cosmos from its roots in the earliest cultures to its eclipse during the Scientific Revolution to its return today Reveals ways to reengage our creative partnership with nature and collaborate with nature s intelligence For millennia the world was seen as a creative interconnected web of life constantly growing developing and restoring itself But with the arrival of the Scientific Revolution in the 16th and 17th centuries the world was viewed as a lifeless clock like mechanism bound by the laws of classical physics Intelligence was a trait ascribed solely to human beings and thus humanity was viewed as superior to and separate from nature Today new scientific discoveries are reviving the ancient philosophy of a living interconnected cosmos and humanity is

learning from and collaborating with nature's intelligence in new life enhancing ways from ecological design to biomimicry Drawing upon the most important scientific discoveries of recent times David Fideler explores the self organizing intelligence at the heart of nature and humanity's place in the cosmic pattern He examines the ancient vision of the living cosmos from its roots in the world soul of the Greeks and the alchemical tradition to its eclipse during the Scientific Revolution to its return today He explains how the mechanistic worldview led to humanity's profound sense of alienation for if the universe only functioned as a machine there was no longer any room for genuine creativity or spontaneity He shows how this isn't the case and how even at the molecular level natural systems engage in self organization self preservation and creative problem solving mirroring the ancient idea of a creative intelligence that exists deep within the heart of nature Revealing new connections between science religion and culture Fideler explores how to reengage our creative partnership with nature and new ways to collaborate with nature's intelligence

**Vision**, 1890 **The Sword of the Spirit** John R. Knott Jr., 2011-12-16 This book focuses on the imaginative character of Puritan writing especially as revealed through the use of biblical images and themes Knott illustrates the richness and power of the best Puritan writing by analyzing the work of five writers Richard Sibbes Richard Baxter Gerrard Winstanley John Milton and John Bunyan Although these writers differ from one another in many important respects together they illustrate the range of responses to the Bible among those who in one way or another resisted the versions or orthodoxy imposed by the Anglican Church The chapters on Sibbes Baxter and Winstanley implicitly make a case for considering these writers as part of the canon of seventeenth century literature Sibbes because he exemplifies the best qualities of spiritual preaching as opposed to the witty or metaphysical preaching of John

Donne Baxter because his *Saints Everlasting Rest* one of the most influential works in its time offers a compelling statement on some of the central themes of Puritan spirituality and Winstanley because his visionary prose offers perhaps the most vivid and powerful statement of the millenarian expectations rampant in mid seventeenth century England The book concludes with chapters on two major figures of the era Milton and Bunyan In his consideration of Milton Knott challenges the predominant critical emphasis on Milton's Christian humanism and argues for the importance of Puritan strains in his writing The analysis of Bunyan draws from the spiritual autobiography *Grace Abounding* and from *The Holy War* a relatively neglected epic of spiritual life as well as from *The Pilgrim's Progress* These five writers who make up a chronological sequence reaching from the 1620s to the 1680s represent different moments in the evolution of a Puritan spirituality In their distinctive ways they sought to recover the original simplicity of the Word of God and to express its extraordinary power to transform the individual and society
