Telling Stories Steven Cohan, Linda M. Shires, 2013-10-08 First Published in 2002. We are living in a time of rapid and radical social change. Modes and categories inherited from the past no longer seem to fit the reality experienced by a new generation. *New Accents* is intended as a positive response to the initiative offered by such a situation. Each volume in the series will seek to encourage rather than resist the process of change, to stretch rather than reinforce the boundaries that currently define literature and its academic study. This book introduces a theoretical framework for studying narrative fiction. A narrative recounts a story, a series of events in a temporal sequence.
