Kahlil Joseph and the Audiovisual Atlantic Joe Jackson, 2024-07-11 It's wonderful to read a book that ranges across music cinema music video art and literature with such ease One of the beautiful things about this book is that it is really attentive to relationships and this is particularly clear when talking about Kahlil Joseph's creative mentors and comrades including Arthur Jafa and Terrence Malick Tsitsi Ella Jaji Helen S Bevington Associate Professor of Modern Poetry Associate Professor of African American Studies Duke University USA Kahlil Joseph has collaborated with musicians FKA twigs Flying Lotus Sampha and Shabazz Palaces among many others He has directed numerous films music videos and advertisements across Africa America and Europe The award winning filmmaker's disruptive style which frequently merges visual representations of transcontinental experiences with the countercultural energies of Afrodiasporic music challenges the Eurocentric biases underpinning Western media At the same time his works generate various contradictions and tensions because they are themselves products situated within an economic framework of neoliberal capitalism at once offering alternative ways of being while simultaneously participating in and thereby

sustaining the social structures that they otherwise seek to subvert and dismantle This is the first book length study of Kahlil Joseph s work Distinguishing the artist s personal and professional personas it traces Joseph s career trajectory and artistic output emphasizing how the director s construction of a multifaceted filmmaking persona operates in tandem with his artworks to challenge fixed unidimensional or stable notions of identity Through biographical study and deep examinations of the director s respective transmedia artworks this book draws from various discussions shaped by Paul Gilroy s ground breaking text *The Black Atlantic* 1993 By applying *The Black Atlantic* s disruptive audiocentric ideas to contemporary digital media forms generated by Kahlil Joseph and his peers alike this book challenges the latent Eurocentricity on which dominant theorizations of modernity as well as the overlapping fields of Film Media and Screen Studies are grounded In turn it offers an alternative framework for negotiating the paradoxes contradictions and transnational flows of our media saturated present namely the Audiovisual Atlantic This book has been selected as runner up for Best First Monograph 2025 by BAFTSS British Association of Film Television and Screen Studies

Sounds American Ann Ostendorf,2011 Sounds American provides new perspectives on the relationship between nationalism and cultural production by examining how Americans grappled with musical diversity in the early national and antebellum eras During this period a resounding call to create a distinctively American music culture emerged as a way to bind together the varied changing and uncertain components of the new nation This played out with particular intensity in the lower Mississippi River valley and New Orleans especially Ann Ostendorf argues that this region often considered an exception to the nation with its distance from the center of power its non British colonial past and its varied population actually shared characteristics of many other places eventually incorporated into the country thus making it a useful case study for the creation of American culture Ostendorf conjures the territory s phenomenally diverse music ways including grand operas and balls performances by church choirs and militia bands and itinerant violin instructors Music was often associated with foreigners in particular Germans French Irish and Africans For these outsiders music helped preserve collective identity But for critics concerned with developing a national culture this multitude of influences presented a dilemma that led to an obsessive categorization of music with racial ethnic or national markers Ultimately the shared experience of categorizing difference and consuming this music became a unifying national phenomenon Experiencing the unknown became a shared part of the American experience
