Perlin, 2022-02-15 The definitive history of solar power and technology Even as concern over climate change and energy security fuels a boom in solar technology many still think of solar as a twentieth century wonder Few realize that the first photovoltaic array appeared on a New York City rooftop in 1884 or that brilliant engineers in France were using solar power in the 1860s to run steam engines or that in 1901 an ostrich farmer in Southern California used a single solar engine to irrigate three hundred acres of citrus trees Fewer still know that Leonardo da Vinci planned to make his fortune by building half mile long mirrors to heat water or that the Bronze Age Chinese used hand size solar concentrating mirrors to light fires the way we use matches and lighters today With thirteen new chapters *Let It Shine* is a fully revised and expanded edition of

A Golden Thread John Perlin s classic history of solar technology detailing the past forty plus years of technological developments driving today s solar renaissance This unique and compelling compendium of humankind s solar ideas tells the fascinating story of how our predecessors throughout time again and again have applied the sun to better their lives and how we can too
